Nurture Nature
Nature-ally Future

This forms the central theme of Varun Beverages' sustainable growth objective

For over three decades, we have established a robust business model to emerge as a key beverage player in India and PepsiCo's second-largest franchisee (outside the United States). Given the vast scale of our operations, we recognize the responsibility upon us to help move towards a world where everyone can thrive.

We are leveraging our expertize to build a more sustainable ecosystem of business processes so that we keep refreshing millions of consumers, while ensuring socio-economic development and a positive impact on the planet.

As much as being the right way forward, the move also holds positive for our business in terms of reducing risks, reinforcing stakeholders' confidence and driving our competitive edge with industry leading sustainability performance. We will continue to drive our integrated sustainability objective – for now and for generations to come.

# A Thirst to Perform. With Thrust of Leadership.

## DELIVERING TODAY. PRESERVING TOMORROW.

We are a key player in India's beverage industry and the second-largest franchisee (outside United States) of PepsiCo. We produce and distribute a wide range of carbonated soft drinks (CSDs), as well as a large selection of non-carbonated beverages (NCBs), including packaged drinking water sold under trademarks owned by PepsiCo. With such a large product portfolio, we are very conscious of the impact on the environment, and hence, have set for ourselves a roadmap towards sustainable development by maintaining optimal energy and water efficiency across our business model.

We currently cover more than 1.35 billion consumers across the world – about 1/6th of the total population. Through our 2 million retail outlets, we continue to satiate their changing preferences and tastes.

## GROWING SUSTAINABLY. EXPANDING OUR REACH.

We have franchise rights for various PepsiCo products across 27 States and 7 Union Territories in India, along with franchise for the territories of Sri Lanka, Nepal, Morocco, Zambia and Zimbabwe. We manufacture through our 37 production units, sell and distribute PepsiCo's beverages in pre-defined territories across India and 5 other countries.

## CONSERVING AND SERVING, NATURALLY

We have undertaken several sustainability measures across our manufacturing facilities. These include water conservation initiatives such as rainwater harvesting, ponds adoption, development & maintenance, waste-water management on the principles of Reduce, Reuse and Recycle for optimal water consumption. VBL has also engaged with government registered agencies for phased implementation of 100% recycling of used PET bottles through

collection from end users by placing dustbins / reverse vending machines, direct collection from Institutions (Hotels, Banquet Halls, Exhibitions, etc.) and spreading awareness through workshops. In addition, we are undertaking light weighting of preforms for PET bottles across our manufacturing facilities, which will help reduce our plastic usage. In terms of emissions, we have reduced the grams of CO<sub>2</sub>e emissions per liter of beverage produced during 2021, as compared to 2020. Additionally, our Energy Efficiency has also improved on a year-onvear basis.

## OUR PRIORITIES AND COMMITMENT

We continue to improve our presence, product mix and utilization levels. We are also increasing our penetration in the newly acquired territories on the back of our robust distribution network, diversifying product portfolio, and greater penetration in rural and semi-rural areas, with an underlying objective of creating sustainable growth for the future.

We continue to be on a strong footing and will keep diligently working towards strengthening our position as a key player in the beverage industry.

#### LOOKING AHEAD. DESIGNING A SUSTAINABLE FUTURE.

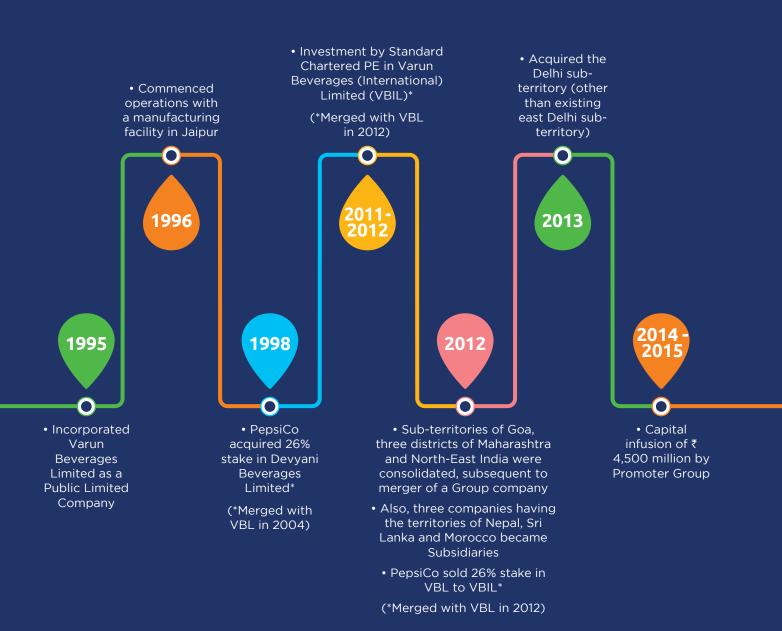

## **Delivering and Sustaining Value.**

At Varun Beverages, each year has been an action-packed one and has been an integral part of our journey to sharpen our core business. Over these years, we built scale and strength and nurtured the Company, besides moving up the value chain and creating a brighter future for ourselves.

Our Group's ever-expanding relationship of over 30 years with PepsiCo and over 25-years journey of VBL in creating sustainable value.

- Received investment from AION Investment
- Acquired PepsiCo owned Indian subterritories in parts of Uttar Pradesh, Uttarakhand,
   Himachal Pradesh, parts of Haryana, Punjab and the Union Territory of Chandigarh
- Acquired PepsiCo's Indian sub-territories across the states of Madhya Pradesh (certain parts) and Odisha
  - Acquired the incremental 30% shareholding in Varun Beverages (Zambia) Limited

- Acquired PepsiCo India's previously franchised territories of parts of Maharashtra (14 districts), parts of Karnataka (13 districts) and parts of Madhya Pradesh (3 districts)
- •Acquired PepsiCo India's sub-territories across seven states Gujarat, parts of Maharashtra, parts of Karnataka, Kerala, Tamil Nadu, Telangana and parts of Andhra Pradesh and five union territories of Daman & Diu, Dadra and Nagar Haveli, Puducherry (except Yanam), Andaman & Nicobar Islands and Lakshadweep

- Acquired 60% shareholding in Varun Beverages (Zambia) Limited
- Public listing on NSE and BSE

- Acquired PepsiCo's India's sub-territories in the state of Jharkhand (with production facilities), Chhattisgarh and Bihar
  - Acquired sales and distribution rights of Tropicana, Gatorade and Quaker Oats Milk
    - Set up a Greenfield production facility in Nepal and Zimbabwe

 Incorporated a new subsidiary – Varun Beverages RDC SAS in the Democratic Republic of Congo

## Synergizing. Scaling. Sustaining.

We continue to create synergies from our relationship with PepsiCo, our distribution and manufacturing capabilities including backward integration. We are set to see acceleration ahead, led by distribution expansion, new launches and recovery in volumes.

## **Nurturing The Partnership for Over Three Decades.**

We have a 30+ years strategic association with PepsiCo since 1991 and have been nurturing this relationship year-on-year. Today, we account for \_\_\_\_

>85%
of PepsiCo's beverage sales volume in India.

Win-win partnership

We engage in manufacturing, distribution and market dynamics to augment sales and strengthen PepsiCo's brand equity. PepsiCo has been granting us additional territories and product licenses to engage further with us.

Satiating PepsiCo's demand

We leverage our well-oiled distribution model and infrastructure. We have been growing on the strength of our distribution network and the chilling equipment. With this, and with better Visi-cooler penetration, and our diversified product portfolio, we have been growing our footprint and fulfilling PepsiCo's demand.

Integrated across the value chain

We are covering the entire value chain through our manufacturing, selling and robust distribution capabilities; and our supply chain network for PepsiCo's beverages.

Gaining market share

We are adding newer geographies and increasing our penetration in the newly acquired territories on the back of our robust distribution network and our diversified portfolio for stronger demand traction.

Delivering sustainable growth

We are delivering long-term sustainable value and growth by satiating changing preferences of the consumers. We will continue to work towards strengthening our position as a key player in beverage industry.

## Chairman's Message.

Even in a seasonally soft quarter, the Company reported profits for the first time ever in Q4 of the year on account of better business efficiencies, cost rationalization strategies, lower financing cost, and healthy volume recovery in the international territories.

Dear Shareholders,

It gives me immense pleasure to place before you the 27<sup>th</sup> Annual Report of the Company.

#### **OVERVIEW**

We started the year on a healthy note supported by a steady macroenvironment as consumption was almost nearing normalcy following the nationwide lockdown in 2020. This enabled us to deliver a healthy performance in the first quarter of 2021. However, the disruptive second wave of COVID-19 infections in the country resulted in localized, micro lockdowns and restrictions, in the months of April and May. With the period of March to May being a key season for the Company's product portfolio, these disruptions moderated our domestic business performance. Encouragingly, with the learnings from 2020, the team had all the necessary protocols in place to handle and mitigate the

business impact to a large extent. As lockdowns and curbs started easing from June onwards, we witnessed a strong recovery in demand that brought back the growth momentum. Improved offtake across our international territories further aided growth during the year under review.

Against this backdrop, Varun Beverages Limited (VBL) delivered a strong and resilient performance, delivering a topline growth of 37% in CY21. Our international territories also registered an encouraging performance despite the disruption. We continue to sustain the costoptimization measures that we had undertaken during the pandemic period. Despite a decline in our gross margins due to higher pet

prices, our cost optimization measures in combination with higher operating leverage on the back of strong volume growth has translated to enhanced operating performance in 2021. We are further encouraged that even in a seasonally soft quarter, the Company reported profits for the first time ever in Q4 of the year on account of better business efficiencies, cost rationalization strategies, lower financing cost, and healthy volume recovery in the international territories.

## NEW UPCOMING PLANTS AT BIHAR AND JAMMU & KASHMIR

During the year, as a key step towards our sustainability objectives, the Board of Directors approved to set up a new plant for the manufacturing of plastic preforms and plastic closures at Jammu & Kashmir that will help us further improve our backward integration. Additionally, the Company will also be setting up a new plant for manufacturing of carbonated soft drinks, juice-based drinks, and packaged drinking water at Bihar. This move will enable us to grow our presence closer to our customers, increase penetration, and garner a higher market share. We believe it is a high potential market that offers long-term, sustainable growth opportunities.

#### INCORPORATION OF A NEW COMPANY 'VARUN BEVERAGES RDC SAS' IN DEMOCRATIC REPUBLIC OF CONGO

During the year, the Company incorporated a new company

The Company will be setting up a new plant for manufacturing of carbonated soft drinks, juice-based drinks, and packaged drinking water at Bihar. This move will enable us to grow our presence closer to our customers, increase penetration, and garner a higher market share.

namely 'Varun Beverages RDC SAS' in the Democratic Republic of Congo (DRC), in Africa. This move is aimed at initially importing finished products (carbonated and non-carbonated beverages) from Morocco and Zambia and distributing them in DRC to test and establish the market before setting up a manufacturing facility locally in due course of time.

#### **DIVIDEND & BONUS ISSUE**

We operate our business in a sustainable way so as to benefit all our stakeholders. An important component of delivering value to our shareholders and earning their trust over the long term is returning capital in a consistent and transparent way. Therefore, the Company's Board of Directors agreed to formalize a dividend strategy with the Company's listing in November 2016. It has been consistently declaring dividends since its listing.

In line with the guidelines of this dividend policy, the Board of Directors have recommended an interim dividend of  $\rateright$  2.50 per share during the year, resulting in net cash outflow of  $\rateright$  1,082.6 million.

In addition to this, the Board proposed and approved a Bonus issue of equity shares in the proportion of 1 equity share for each of the 2 equity shares held by eligible shareholders.

#### MESSAGE TO STAKEHOLDERS

We have delivered an encouraging set of results during the year, despite a soft operating environment due to the pandemic-induced lockdowns and restrictions during the peak season. We have been able to drive this strong

performance on the back of our end-to-end execution capabilities and presence across the entire beverage value chain. During the year, we strengthened our distribution and reach, fortified our product portfolio with new launches, and improved market share across existing territories, all this while also managing our costs effectively and maintaining the strength of our balance sheet.

As we enter CY22, we are on a strong footing. The third wave of COVID-19 has not had any significant impact on our business. We are seeing a healthy pick-up in the overall economic activity across the country, which is translating into an improved consumption trend. Considering the higher vaccination drives and supportive fundamentals, we expect the demand momentum to keep strengthening in the coming months. On the whole, we continue to undertake several initiatives to sustain and enhance the pace of our growth and to further strengthen our market position in the beverage industry.

#### **VOTE OF THANKS**

I take this opportunity to express my gratitude to all our stakeholders that supported us through the challenges and firmly stood with us amidst the adversity. I also extend my sincere thanks to the Board for its whole-hearted guidance and support. We will continue to value the guidance and support of all our stakeholders as we emerge stronger from this global crisis and move ahead to an even brighter future.

Warm Regards,

#### **RAVI JAIPURIA**

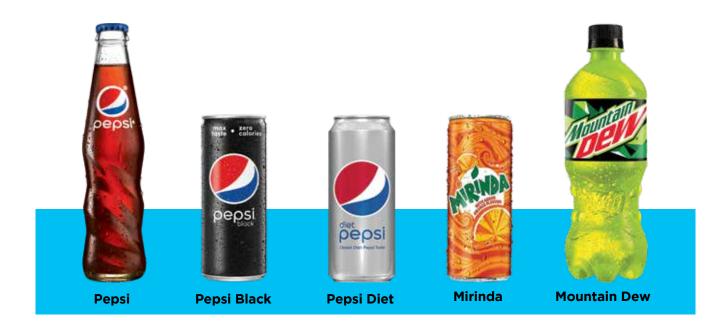

Chairman

# Nurturing Nature.

During the past years, our focus on sustainability made it possible for us to successfully create value over the long term. We are aligning ourselves with global sustainable goals with a strong focus on responsible production, consumption, health and well-being, and setting the roadmap for a fairer and sustainable future.

## 01 Plastic Waste Management

PET resin is one of the main raw materials used as packaging material for the Company's finished products. These are high-quality, food-grade, virgin PET chips that can be recycled easily to manufacture various products for diverse industries and end-use. During CY21, we consumed 78,500 MT PET resins for the finished product. We have undertaken the following measures towards management of plastic waste.

#### **Plastic Usage Reduction**

Through light-weighting of Pre-forms and Closures of PET bottles, we intend to reduce the usage of plastic. Phase-wise implementation of certain SKUs is under process.

#### Weight Reduction of Pre-forms (grams)

| Pack Size | 2010-14 | 2015-19 | 2020-22 | Net reduction |
|-----------|---------|---------|---------|---------------|
| 600 ML    | 25.5    | 22.2    | 22.2    | 12.9%         |
| 750 ML    | 34.7    | 30.7    | 27.1    | 21.9%         |
| 1.0 L     | 21.0    | 21.0    | 19.0    | 9.5%          |
| 1.25 L    | 36.0    | 34.7    | 32.5    | 9.7%          |
| 2.25 L    | 52.5    | 50.7    | 47.0    | 10.5%         |

#### Weight Reduction of Closures (grams)

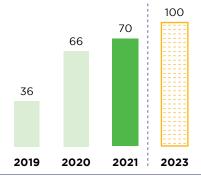

| Category  | 2010-14 | 2015-19 | 2020-22 | Net reduction |
|-----------|---------|---------|---------|---------------|
| CSD/Juice | 3.15    | 2.75    | 2.35    | 25.4%         |
| Water     | 1.70    | 1.50    | 1.35    | 20.6%         |

#### **Plastic Waste Recycling**

VBL engaged GEM Enviro
Management Private Limited for
phased implementation of 100%
recycling of used PET bottles
by collecting it directly from
end-users by placing dustbins
and reverse vending machines,
and by way of direct collection
from institutions (such as hotels,
banquet halls and exhibitions)
and spreading awareness through
workshops.

Headquartered in Delhi, GEM
Enviro Management Private
Limited is a Central Pollution
Control Board (CPCB) recognized
PRO (Producer Responsible
Organization), which specializes
in collection and recycling of
packaging waste and promotion
of recycled green products like
T-shirts and bags made from
recycling of waste material, such
as used PET bottles. During CY21,
70% of the PET resin consumed
was recycled, as compared to 66%
during CY20.

#### Recycling of Plastic Waste (%)\*

**2023** (Target for a non-COVID year)

<sup>\*</sup> This is plastic waste recycled per Kg of PET sold in finished products. Plastic waste includes PET, shrink film, plastic closures, labels and laminates post consumption

## **O2** Being Water Positive

VBL has engaged TUV India Private Limited, a subsidiary of TUV NORD Germany, to audit the Company's water footprint assurance. This is done by checking water mass balance and initiatives adopted towards water conservation and water recharge. Founded in 1869, TUV Nord Group is one of the world's largest inspection, certification and testing organizations with presence across 70 countries globally. The scope of the audit covered all our manufacturing plants located in India.

Accordingly, 100% of the water discharged from our manufacturing facilities goes to effluent treatment plants that ensure sufficient quality of discharged water. About 20 of our manufacturing plants, contributing 69% of the total production in CY21, fall in the "Safe" category of Central Ground Water Authority of India or use surface water.

Our key water conservation initiatives included rainwater harvesting, ponds adoption, development and maintenance and waste water management on the principles of Reduce, Reuse and Recycle for optimal water consumption. Our efforts towards water recharge continued, however, sales volume declined in CY20 due to the pandemic, resulting in better water recharge ratio in that year.

#### **Key findings of the Report**

| Parameter (In Million KL)   | CY19       | CY20       | CY21*      |
|-----------------------------|------------|------------|------------|
| Total Water Consumption (A) | 4.12       | 3.74       | 4.86       |
| Beverage Production (B)     | 2.12       | 1.95       | 2.57       |
| Water Usage Ratio (A/B)     | 1.94 times | 1.92 times | 1.89 times |
| Water Recharge (C)          | 7.22       | 10.19      | 10.22      |
| Water Recharge Ratio (C/A)  | 1.75 times | 2.72 times | 2.24 times |
| No. of ponds adopted        | 103        | 108        | 110        |

<sup>\*</sup>Provisional

#### Water Recharge Ratio\*

<sup>\*</sup>Total water recharged per liter of water consumed

#### Water Usage Ratio\*

<sup>\*</sup>Liters of water consumed per liter of beverage produced

## 03 Climate Action

VBL has engaged Deutsche Quality Systems India Pvt. Ltd. (DQS India) for conducting carbon footprint assessment and verification across all its locations in India, including its manufacturing plants, warehouses, corporate office and sales offices. This covered Scope 1, 2 and 3 emission sources. DQS India is an internationally reputed independent field expert and the Indian subsidiary of DQS Holding GmbH, one of the leading Management System Certification, Assessment and Training organizations globally.

Scope 1 and 2 emissions are verified according to the requirements of ISO 14064-1. Scope 1 includes direct Green House Gas (GHG) emissions from fuels and gases consumed by sources owned or controlled by the Company. Scope 2 includes indirect GHG emissions associated with purchase of electricity, excluding electricity purchased for backward integration. Scope 3 emissions include energy consumption, refrigerant emission of visi-coolers placed with retailers and fuel consumption from employee commuting, business travel by air, rail and road, and upstream/downstream transportation.

| Long Term Rating  | CRISIL AA/Positive (Re-affirmed) |
|-------------------|----------------------------------|
| Short Term Rating | CRISIL A1+ (Re-affirmed)         |

#### **Related Party Transactions**

To comply with the provisions of Sections 177 and 188 of the Act and Rules made thereunder read with Regulation 23 of SEBI (LODR) Regulations, your Company took necessary prior approval of the Audit, Risk Management and Ethics Committee before entering into related party transactions. All contracts / arrangements / transactions entered into by the Company during the Financial Year 2021 with related parties, as defined under the Act and SEBI (LODR) Regulations were in the ordinary course of business and on arm's length basis.

During the year under review, your Company had not entered into any contract/ arrangement/ transaction with related parties which could be considered material in accordance with the Policy of the Company for Related Party Transactions.

None of the transactions with any of the related parties were in conflict with the interest of the Company rather, these were synchronized and synergized with the Company's operations. Attention of Members is drawn to the disclosure of transactions with the related parties set out in Note No. 44 of the Standalone Financial Statements, forming part of the Annual Report.

Your Company has framed a Policy on Related Party Transactions in accordance with the Act and SEBI (LODR) Regulations. The Policy intends to ensure that proper reporting, approval and disclosure processes are in place for all transactions between the Company and its related parties. The policy is uploaded on website of the Company at https://varunpepsi.com/policies/.

Since all transactions which were entered into during the Financial Year 2021 were on arm's length basis and in the ordinary course of business and there was no material related party transaction entered by the Company during the Financial Year 2021 as per Policy on Related Party Transactions, hence no detail is required to be provided in Form AOC-2 prescribed under Clause (h) of Subsection (3) of Section 134 of the Act and Rule 8(2) of the Companies (Accounts) Rules, 2014.

#### **Particulars of Loans, Guarantees or Investments**

Details of Loans, Guarantees or Investments covered under the provisions of Section 186 of the Act are given in the Notes to the Standalone Financial Statements.

#### **Subsidiaries, Associates and Joint Ventures**

Your Company has following subsidiaries:

#### **Subsidiaries**

- Varun Beverages (Nepal) Private Limited;
- Varun Beverages Lanka (Private) Limited;
  - Ole Springs Bottlers (Private) Limited (step-down subsidiary);
- Varun Beverages Morocco SA;
- Varun Beverages (Zambia) Limited;
- Varun Beverages (Zimbabwe) (Private) Limited;
- Varun Beverages RDC SAS\*;
- Varun Beverages International DMCC\*\*; and

\*w.e.f. December 31, 2021.

\*\*w.e.f. January 31, 2022.

As on date, there are no associate/joint venture of the Company as defined under the provisions of the Act.

To comply with the provisions of Section 129 of the Act, a separate statement containing salient features of Financial Statements of Subsidiaries of your Company (including their performance and financial position) in prescribed Form AOC-1 forms part of Consolidated Financial Statements and therefore not repeated here to avoid duplication. Further, contribution of subsidiary(ies) to the overall performance of your Company is outlined in Note No. 59 of the Consolidated Financial Statements.

Financial Statements of the aforesaid subsidiary companies are kept open for inspection by the Members at the Registered Office of your Company on all days except Saturday, Sunday and Public Holidays up to the date of AGM i.e. April 7, 2022 between 11:00 a.m. to 5:00 p.m. as required under Section 136 of the Act. Any Member desirous of obtaining a copy of the said Financial Statements may write to the Company at its Registered Office or Corporate Office. The Financial Statements including the Consolidated Financial Statements and all other documents required to be attached with this Report have been uploaded on website of the Company at https://varunpepsi.com/annual-reports/.

To comply with the provisions of Regulation 16(c) of SEBI (LODR) Regulations, the Board of Directors of the Company have approved and adopted a Policy for determining Material Subsidiary. Further, Varun Beverages (Zimbabwe) Private Limited is a material subsidiary of the Company. Policy on Material Subsidiary is uploaded on website of the Company at https://varunpepsi.com/wp-content/uploads/2021/02/1doc.pdf

### Directors and Key Managerial Personnel

**Directors** 

To comply with the provisions of Section 152 of the Act and in terms of the Articles of Association of the Company, Mr. Varun Jaipuria (DIN: 02465412) and Mr. Rajinder Jeet Singh Bagga (DIN: 08440479), Whole-time Directors are liable to retire by rotation at the ensuing AGM and being eligible, seeks re-appointment. The Board of Directors, on the recommendation of Nomination and Remuneration Committee, recommended their re-appointment.

Further, at the 26<sup>th</sup> AGM of the Company held on April 7, 2021, the Members approved continuation of directorship of Dr. Naresh Trehan (DIN: 00012148) as Non-executive Independent Director in terms of Regulation 17(1A) of the SEBI (LODR) Regulations.

Company has received declarations from all the Independent Directors of the Company confirming that they meet the criteria of independence as prescribed both under sub-section (6) of Section 149 of the Act including compliance of relevant provisions of the Companies (Appointment and Qualifications of Directors) Rules, 2014 and SEBI (LODR) Regulations. The Board is of the opinion that the Independent Directors of the Company possess requisite qualifications, experience and expertise and they hold highest standards of integrity.

None of the Directors of the Company are disqualified as per the provisions of Section 164 of the Act. The Directors of the Company have made necessary disclosures under Section 184 and other relevant provisions of the Act.

Brief resume and other details of the Director(s) being appointed/re-appointed at the ensuing AGM as stipulated under Secretarial Standard-2 issued by the Institute of Company Secretaries of India and Regulation 36 of the SEBI (LODR) Regulations, is separately disclosed in the Notice of ensuing AGM.

#### **Key Managerial Personnel**

Due to role enhancement, Mr. Vikas Bhatia was upgraded as Executive Director – Finance (Non-Board Member) of the Company. Accordingly, he resigned from the position of Chief Financial Officer (Key Managerial Personnel) of the Company w.e.f. August 2, 2021. Consequent to the resignation of Mr. Vikas Bhatia, Mr. Rajesh Chawla was appointed as Chief Financial Officer (Key Managerial Personnel) of the Company w.e.f. August 2, 2021 in accordance with the provisions of Section 203 of the Act read with the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014.

Further, Mr. Kapil Agarwal, Whole-time Director and Chief Executive Officer and Mr. Ravi Batra, Chief Risk Officer & Group Company Secretary, continued to be the Key Managerial Personnel of your Company in accordance with the provisions of Section 203 of the Act read with the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014.

#### **Board Evaluation**

To comply with the provisions of Section 134(3)(p) of the Act and Rules made thereunder and Regulation 17(10) of SEBI (LODR) Regulations, the Board has carried out the annual performance evaluation of the Directors individually including the Independent Directors (wherein the concerned Director being evaluated did not participate), Board as a whole and following Committees of the Board of Directors:

- i) Audit, Risk Management and Ethics Committee;
- ii) Nomination and Remuneration Committee;
- iii) Stakeholders' Relationship Committee; and
- iv) Corporate Social Responsibility Committee.

The manner in which the annual performance evaluation has been carried out is explained in the Corporate Governance Report which forms part of this report. Board is responsible to monitor and review the evaluation framework.

Further, to comply with Regulation 25(4) of SEBI (LODR) Regulations, Independent Directors also evaluated the performance of Non-Independent Directors, Chairman and Board as a whole at a separate meeting of Independent Directors.

#### **Board and Committees of the Board**

The number of meetings of the Board and various Committees of the Board including composition are set out in the Corporate Governance Report which forms part of this report. The intervening gap between the meetings was within the period prescribed under the provisions of Section 173 of the Act and SEBI (LODR) Regulations.

#### **Remuneration Policy**

To comply with the provisions of Section 178 of the Act and Rules made thereunder and Regulation 19 of SEBI (LODR) Regulations, the Company's Remuneration Policy for Directors, Key Managerial Personnel (KMP), Senior Management and other Employees of the Company is uploaded on website of the Company at https://varunpepsi.com/wp-content/uploads/2020/03/Remuneration-Policy.pdf The Policy includes, interalia, the criteria for appointment and remuneration of Directors, KMPs, Senior Management Personnel and other employees of the Company.

## Remuneration of Directors, Key Managerial Personnel and Particulars of Employees

The information required to be disclosed in the Board's Report pursuant to Section 197 of the Act read with Rule 5 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 is attached to this report as **Annexure - B**.

#### **Statutory Auditors**

Members of the Company in their  $22^{nd}$  AGM held on April 17, 2017 appointed M/s. APAS & Co., Chartered Accountants (Firm Registration Number 000340C) [converted to "APAS & Co. LLP" (Firm Registration Number 000340C/C400308)] as Joint Statutory Auditors of the Company to hold office for a period of up to 5 (five) years i.e. till the conclusion of  $27^{th}$  AGM of the Company to be held in the Financial Year 2022.

In terms of provisions of Section 139 of the Act and the Companies (Audit and Auditors) Rules, 2014, due to retirement of existing Joint Statutory Auditors viz. M/s. APAS & Co. LLP, Chartered Accountants at the ensuing AGM of the Company upon completion of their 1st term of 5 (five) years, the Board of Directors, on the recommendation of Audit, Risk Management and Ethics Committee, at their meeting held on February 3, 2022 have recommended the appointment of M/s. O P Bagla & Co. LLP, Chartered Accountants (Firm Registration Number 000018N/N500091) as Joint Statutory Auditors of the Company for a term of upto 5 (five) consecutive years to hold office from the conclusion of ensuing AGM till the conclusion of 32<sup>nd</sup> AGM of the Company to be held in the year 2027, subject to approval of Members of the Company. Brief resume and other details of M/s. O P Bagla & Co. LLP is separately disclosed in the Notice of ensuing AGM.

M/s. O P Bagla & Co LLP, Chartered Accountants, have consented to act as Joint Statutory Auditors of the Company and confirmed that their aforesaid appointment, if made, would be within the limits specified under Section 141(3)(g) of the Act. They have also confirmed that they are not disqualified to be appointed as Statutory Auditors in terms of provisions of Sections 139(1) and 141(3) of the Act and the Companies (Audit and Auditors) Rules, 2014.

Further, Members in their 23<sup>rd</sup> AGM held on April 17, 2018 appointed M/s. Walker Chandiok & Co. LLP, Chartered Accountants (Firm Registration Number 001076N/N500013) as Joint Statutory Auditors of the Company to hold office for a period of up to 5 (Five) years i.e. till the conclusion of 28<sup>th</sup> AGM of the Company to be held in the Financial Year 2023. They have also confirmed that they are not disqualified from continuing as Joint Statutory Auditors of the Company.

The Statutory Auditors' Report for the Financial Year 2021 does not contain any qualification, reservation or adverse remark and forms part of the Annual Report. The Statutory Auditors have not reported any frauds under Section 143(12) of the Act.

#### **Cost Audit**

In terms of Section 148 of the Act and the Companies (Cost Records and Audit) Rules, 2014, Cost Audit is not applicable on the Company for the Financial Year 2021.

## Disclosure under Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

## Secretarial Audit Report For the Financial Year ended December 31, 2021

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To, The Members, Varun Beverages Limited (CIN: L74899DL1995PLC069839) F-2/7, Okhla Industrial Area, Phase-I, New Delhi-110020

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Varun Beverages Limited** (the Company). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

#### We report that-

- Maintenance of secretarial records is the responsibility of the management of the Company.
   Our responsibility is to express an opinion on these secretarial records based on our audit.
- b) We have followed the audit practices and processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the secretarial records. The verification was done on test basis to ensure that correct facts are reflected in secretarial records. We believe that the processes and practices we followed provide a reasonable basis for our opinion.
- c) We have not verified the correctness and appropriateness of the financial statements of the Company.
- d) Wherever required, we have obtained the management representation about the compliances of laws, rules and regulations and happening of events etc.
- e) The compliance of the provisions of the corporate and other applicable laws, rules, regulations, standards etc. is the responsibility of the management. Our examination was limited to the verification of procedures on test basis.
- f) The Secretarial Audit report is neither an assurance as to the future viability of the company nor of the efficacy or effectiveness with which the management has conducted the affairs of the Company.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year started from 1st January, 2021 and ended on 31st December, 2021 ("audit period") complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st December, 2021 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings, wherever applicable;
- (v) The following Regulations prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
  - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
  - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
  - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;

- (d) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 / the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021;
- (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008; {not applicable during the audit period}
- (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
- (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021; {not applicable during the audit period}
- (h) The Securities and Exchange Board of India (Buy-back of Securities) Regulations, 2018; {not applicable during the audit period} and
- (i) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

We have also examined compliance with the applicable clauses of the Secretarial Standard on Meetings of the Board of Directors (SS-1) and Secretarial Standard on General Meetings (SS-2) issued by the Institute of Company Secretaries of India, with which the Company has generally complied with. The Company is generally regular in filing e-forms with Registrar of Companies under the provisions of the Act.

During the audit period, we are of the opinion that the Company has complied, with the provisions of the Act, Rules, Regulations and Guidelines to the extent applicable.

The Company is PepsiCo's second largest global franchise (outside United States) and have a strategic association with PepsiCo since 1991. The Company is a trusted business partner to PepsiCo and possesses the rights to manufacture, distribute and sell carbonated soft drinks, fruit juice-based drinks, packaged drinking water and sports and energy drinks. As informed by the Management, Food Safety & Standards Act, 2006, Rules and Regulations made thereunder, are specifically applicable to the Company.

In our opinion and to the best of our information and according to explanations given to us, we believe that the Company is having systems in place to check the compliance of laws specifically applicable to the Company.

We further report that the Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. There was no change in the composition of the Board of Directors that took place during the audit period.

Advance notice is given to all directors to schedule the Board Meetings; agenda and detailed notes on agenda were sent at least seven days in advance and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

As per the minutes, the decisions at the Board meetings were taken unanimously.

We further report that there are systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the audit period, the Shareholders of the Company, on June 3, 2021 approved by way of postal ballot the issue of bonus shares in the proportion of 1 (One) new fully paid-up equity share of ₹ 10/- each for every 2 (Two) existing fully paid-up equity share of ₹ 10/- each and accordingly, 144,344,360 equity shares of ₹ 10/- each were allotted to the equity shareholders in proportion to their shareholdings as on cut-off date i.e. June 14, 2021.

## Conservation of Energy, Technology Absorption and Foreign Exchange Earnings and Outgo required under the Companies (Accounts) Rules, 2014

The details of conservation of energy, technology absorption, foreign exchange earnings and outgo are as follows:

## (a) Conservation of energy

| (i)   | Steps taken or impact on conservation of energy                            | A multi-pronged and sustainable approach is deployed in most of our plants as well as products to infuse the concept of energy conservation. Some of the energy conservation measures adopted across the manufacturing units were |
|-------|--|---|
|       |  | <ol> <li>Use of frequency drive in ammonia and air compressor which save<br/>electric energy.</li> </ol>  |
|       |  | 2. Use of frequency drive in boiler for ID and FD fan which saves electric energy.  |
|       |  | 3. Heat recovery from hot compressed gases and used for heating water.  |
|       |  | 4. Recovery of treated hot water from three stage syrup transfer PHE.   |
|       |  | 5. Beverage filling at ambient temperature leading to huge power saving in refrigeration.   |
|       |  | 6. Replacement of CFL/FTL lamps with LED lamps.   |
|       |  | 7. Replacement of low efficiency pump with high energy efficient pump.  |
|       |  | 8. Improving efficiency on critical resources like water and energy by doing water recoveries and optimizing energy consumption.  |
|       |  | 9. Optimizing the resource consumptions and minimizing wastages by automations and controls.  |
|       |  | <ol> <li>Installation of steam operated pump trap - SOPT for better steam<br/>condensate recovery across all units.</li> </ol>  |
| (ii)  | Steps taken by the<br>Company for utilizing<br>alternate sources of energy | The Company has successfully utilized the environment friendly fuels like biomass and PNG operated boiler for steam generation and installed sola panels in many plants to generate clean energy.                                 |
| (iii) | Capital investment on energy conservation                                  | <ol> <li>Installation and commissioning of Solar Plant at Nuh and Greater Noida<br/>Plants.</li> </ol>  |
|       | equipments   | 2. Air recovery system in Blow Moulding Machine.  |
|       |  | 3. Filling machines which are capable of filling beverage at ambien temperature with high speed running.  |
|       |  | 4. Green Oven for Bottle Blowing machine which consumes less energy a compared to the traditional ones.   |
|       |  | 5. High energy efficient pumps.   |
|       |  | 6. Steam condensate recovery system across all units.   |

## (b) Technology absorption

| (i) | Efforts   | made      | towards | The Company has been continuously improving on resource use efficiencies,   |
|-----|-----------|-----------|---------|---|
|     | technolog | gy absorp | otion   | especially that of common resources such as water, fuel and energy. The     |
|     |           |           |         | Company follows series of environment performance indicators for monitoring |
|     |           |           |         | natural resources consumption on per case basis and continual improvement   |
|     |           |           |         | is being achieved and sustained.  |

| (ii)  | product improvement, cost reduction, product   | Over the past ten years, Company has reduced water usage on per case basis and significant reduction of energy consumption on per case basis. Some of the factories have also received the Green Factory certification from Indian Green Building Council (IGBC), Gold rating. Our Company also achieved significant reduction in weight of closure (from 1880 long height closure to 1881 short height closure) and preforms over years. This is implemented across all units resulting in to saving of resin consumption. Usage of nitrogen in packaged drinking water enables unit to reduce 10% of package weight. We also started metal cage for preform storage and handling to minimize recycling waste. |
|-------|--|---|
| (iii) | In case of imported technology (imported during the last three years reckoned from the beginning of the financial year)- |   |
|       | (a) Details of technology imported   | N.A.  |
|       | (b) Year of import   | N.A.  |
|       | (c) Whether the technology been fully absorbed   | N.A.  |
|       | (d) If not fully absorbed,<br>areas where absorption<br>has not taken place, and<br>the reasons thereof                  | N.A.  |
| (iv)  |  | Due to the nature of its business, the Company need not to initiate specific research and development activities, however Company supports all the pilot projects feasibility and commercialization along with PepsiCo.   |

## **Corporate Governance Report**

To comply with Regulation 34 read with Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ['SEBI (LODR) Regulations'], the report containing the details of Corporate Governance of Varun Beverages Limited ('the Company'/ 'VBL') is as follows:

## **Company's Philosophy on Corporate Governance**

Corporate Governance is creation and enhancing long term sustainable value for the stakeholders through ethically driven business process. At VBL, it is imperative that your Company affairs are being managed in a fair and transparent manner.

Corporate Governance is all about maintaining a valuable relationship and trust with all stakeholders. We consider stakeholders as partners in our success and we remain committed towards maximizing stakeholders' value, be it shareholders, employees, suppliers, customers, investors, communities or policy makers. This approach to value creation emanates from our belief that sound governance system, based on relationship and trust, is integral to creating enduring value for all.

We believe, Corporate Governance is not just a destination, but a journey to constantly improve sustainable value creation. It is an upward-moving target that we collectively strive towards achieving. Our multiple initiatives towards maintaining the highest standards of governance are detailed hereinafter.

The Corporate Governance framework of the Company is based on the following broad practices:

- (a) Engaging a diverse and highly professional, experienced and competent Board of Directors, with versatile expertise in industry, finance, management and law.
- (b) Deploying well defined governance structures that establishes checks and balances and delegates decision making to appropriate levels in the organization.
- (c) Adoption and implementation of fair, transparent and robust systems, processes, policies and procedures.
- (d) Making high level of disclosures for dissemination of corporate, financial and operational information to all its stakeholders.

(e) Having strong systems and processes to ensure full and timely compliance with all legal and regulatory requirements and zero tolerance for non-compliance.

## **Best Corporate Governance practices**

VBL maintains the highest standards of Corporate Governance. It is the Company's constant endeavour to adopt the best Corporate Governance practices keeping in view the international codes of Corporate Governance and practices of well-known global companies. Some of the best implemented global governance norms include the following:

- All securities related filings with Stock Exchanges and SEBI are reviewed by the Company's Board of Directors.
- The Company has following Board Committees: Audit, Risk Management and Ethics Committee, Stakeholders' Relationship Committee, Nomination and Remuneration Committee, Corporate Social Responsibility Committee, Share Allotment Committee and Investment and Borrowing Committee.
- The Company also undergoes Secretarial Audit conducted by an independent firm of Practicing Company Secretaries. The Secretarial Audit Report is placed before the Board and forms part of the Annual Report.
- Observance and adherence of all applicable Laws including Secretarial Standards issued by the Institute of Company Secretaries of India.

#### **Governance Policies**

At VBL, we strive to conduct our business and strengthen our relationships in a manner that is dignified, distinctive and responsible. We adhere to ethical standards to ensure integrity, transparency, independence and accountability in dealing with all stakeholders. Therefore, we have adopted various codes and policies to carry out our duties in an ethical manner. Some of the codes and policies are as follows;

- Code of Conduct for Board of Directors and Senior Management;
- Code of Conduct for Prohibition of Insider Trading;
- Code of practices and procedures for fair disclosure of Unpublished Price Sensitive Information;
- Policy on Related Party Transactions;
- Corporate Social Responsibility Policy;

- Policy for Determination of Material Subsidiary and Governance of Subsidiaries;
- Policy for Determination of Materiality of Events / Information;
- Remuneration Policy for Directors, Key Managerial Personnel, Members of Senior Management and other Employees of the Company;
- Familiarization Programme for Independent Directors;
- Vigil Mechanism/Whistle Blower Policy;
- Policy for Preservation of Documents;
- Policy on Diversity of the Board of Directors;
- Risk Management Policy;
- Dividend Distribution Policy;
- Archival Policy;
- · Guidelines for Acquisition in India;
- Environment, Health and Safety Policy;
- Go Green Guidelines;
- · Anti-Bribery Policy; and
- Policy for Prevention, Prohibition and Redressal of Sexual Harassment at Workplace.

## **Board of Directors**

As at December 31, 2021, 5 (Five) out of 10 (Ten) Directors on the Board were Independent Directors. At VBL, it is our belief that an enlightened Board consciously creates a culture of leadership to provide a long-term vision and policy approach to improve the quality of governance. The Board's actions and decisions are aligned with the Company's best interests. The Board critically evaluates

the Company's strategic direction, management policies and their effectiveness.

Size and composition of the Board of Directors as at December 31, 2021 is given below:

| Category               | Name of Director              |
|------------------------|-------------------------------|
| Non-executive Chairman | Mr. Ravi Jaipuria*            |
| Executive / Whole-time | Mr. Varun Jaipuria*           |
| Directors              | Mr. Raj Gandhi                |
|                        | Mr. Kapil Agarwal             |
|                        | Mr. Rajinder Jeet Singh Bagga |
| Non-executive,         | Dr. Naresh Trehan             |
| Independent Directors  | Dr. Ravi Gupta                |
|                        | Mr. Pradeep Sardana           |
|                        | Ms. Rashmi Dhariwal           |
|                        | Ms. Sita Khosla               |

\*Mr. Ravi Jaipuria and Mr. Varun Jaipuria are Promoters of the Company.

## **Inter-se Relationship among Directors**

Except Mr. Ravi Jaipuria and Mr. Varun Jaipuria, none of the Director is a relative of other Director(s). Mr. Varun Jaipuria, Whole-time Director is son of Mr. Ravi Jaipuria, Non-executive Chairman of the Company.

## Core Skills / Expertise / Competencies available with the Board

The Board comprises qualified Members who possess required skills, expertise and competencies that allow them to make effective contributions to the Board and its Committees.

The Matrix setting out the Skills, Expertise and Competencies available with the Board in context of business of the Company is as under:

| SI.<br>No. | Name of Director        | Leadership /<br>Operations | Strategic<br>Planning | Industry Experience, Technical, Research & Development and Innovation | Global<br>Business | Finance<br>& Legal | Corporate<br>Governance,<br>Compliance & Risk<br>Management |
|------------|-------------------------|----------------------------|-----------------------|---|--------------------|--------------------|---|
| 1          | Mr. Ravi Jaipuria       | $\sqrt{}$                  | $\sqrt{}$             | $\sqrt{}$   | $\sqrt{}$          | $\sqrt{}$          | $\sqrt{}$   |
| 2          | Mr. Varun Jaipuria      | $\sqrt{}$                  | $\sqrt{}$             | $\sqrt{}$   | $\sqrt{}$          | $\sqrt{}$          | $\sqrt{}$   |
| 3          | Mr. Raj Gandhi          | $\sqrt{}$                  | $\sqrt{}$             | $\sqrt{}$   | $\sqrt{}$          | $\sqrt{}$          | $\sqrt{}$   |
| 4          | Mr. Kapil Agarwal       | $\sqrt{}$                  | $\sqrt{}$             | $\sqrt{}$   | $\sqrt{}$          | $\sqrt{}$          | $\sqrt{}$   |
| 5          | Mr. Rajinder Jeet Singh | $\sqrt{}$                  | $\sqrt{}$             | $\sqrt{}$   | $\sqrt{}$          | $\sqrt{}$          | $\sqrt{}$   |
|            | Bagga                   |                            |                       |   |                    |                    |   |
| 6          | Dr. Naresh Trehan       | $\sqrt{}$                  | $\sqrt{}$             | $\sqrt{}$   | $\sqrt{}$          | $\sqrt{}$          | $\sqrt{}$   |
| 7          | Dr. Ravi Gupta          | $\sqrt{}$                  | $\sqrt{}$             | $\sqrt{}$   | $\sqrt{}$          | $\sqrt{}$          | $\sqrt{}$   |
| 8          | Mr. Pradeep Sardana     | V                          | V                     | V   | $\sqrt{}$          | V                  | V   |
| 9          | Ms. Rashmi Dhariwal     | V                          | $\sqrt{}$             | $\sqrt{}$   | $\sqrt{}$          | $\sqrt{}$          |   |
| 10         | Ms. Sita Khosla         |                            |                       |   | √                  |                    |   |

## **Selection of Independent Directors**

Considering the requirement of skill sets on the Board, eminent people having an independent standing in their respective field / profession and who can effectively contribute to the Company's business and policy decisions are considered by the Nomination and Remuneration Committee, for appointment, as an Independent Director on the Board. The Committee, inter-alia, considers criteria as prescribed under the Companies Act, 2013 ('the Act') and SEBI (LODR) Regulations viz. positive attributes, area of expertise, number of directorships and memberships held in various committees of other companies by such persons in accordance with the Company's Policy. The Board considers the Committee's recommendation and takes appropriate decision.

A statement in connection with fulfilling the criteria of Independence and directorships as required under the provisions of the Act and SEBI (LODR) Regulations received from each of Independent Directors is disclosed in the Board's Report. Your Company had also issued formal appointment letters to all the Independent Directors in the manner provided under the Act. Terms and Conditions for appointment of Independent Directors are available on website https://varunpepsi.com/wpcontent/uploads/2018/05/Terms-and-conditions-of-appointment-of-the-Independent-Directors-Revised-March-19-2018.pdf

In the opinion of the Board, the Independent Directors fulfill the conditions as specified in the Act and SEBI (LODR) Regulations and are Independent of the management.

## Independent Directors' Induction and Familiarization

An appropriate induction programme for new Directors and ongoing training for existing Directors is a major contributor in maintaining the high Corporate Governance standards of the Company. The Whole-time Directors and the Company Secretary are jointly responsible for ensuring such induction and training programmes are provided to the Directors. The management provides such information and training either at the meeting of Board of Directors or otherwise. The details of such familiarization programme for Independent Directors are posted on website of the Company at https://varunpepsi.com/wp-content/uploads/2016/12/Familiarisation-Programme-For-Independent-Directors.pdf.

## **Board Evaluation**

The Board of Directors of the Company ensures formation and monitoring of robust evaluation framework of the Individual Directors including Chairman of the Board, Board as a whole and various Committees thereof and carries out the evaluation of the Board, the Committees of the Board and Individual Directors, including the Chairman of the Board on an annual basis.

Board Evaluation for the Financial Year ended December 31, 2021 has been completed by the Company internally which included the evaluation of the performance of the Board as a whole, Board Committees and Directors individually including Chairman of the Board and results of the same were shared with the Board.

#### **Internal Audit**

As recommended by the Audit, Risk Management and Ethics Committee, the Board of Directors in their meeting held on February 16, 2021 re-appointed M/s O P Bagla & Co., LLP, Chartered Accountants as Internal Auditors of the Company for the Financial Year 2021 to conduct internal audit of the Company and their report on findings is submitted to the Audit, Risk Management and Ethics Committee on periodic basis.

## **Separate Meeting of Independent Directors**

To comply with the provisions of Schedule IV of the Act read with Regulation 25 of SEBI (LODR) Regulations, the Independent Directors met once during the Financial Year 2021, without the presence of Non-Independent Directors and members of the management team and inter-alia reviewed:

- The performance of Non-Independent Directors and the Board as a whole;
- The performance of the Chairman of the Company, taking into account the views of Executive Directors and Non-executive Directors; and
- The quality, quantity and timeliness of flow of information between the Company's management and the Board that is necessary for the Board to effectively and reasonably perform their duties.

In addition to formal meetings, interactions also took place between the Chairman and Independent Directors.

## **Board Meetings, Board Committee Meetings** and **Procedure**

The Board is the apex body constituted by shareholders for overseeing the Company's overall functioning. The Board provides and evaluates the Company's strategic direction, management policies and their effectiveness and ensures that shareholders' long term interests are being served.

As at the end of the year under review, the Board has 6 (Six) Committees, namely Audit, Risk Management and Ethics Committee, Stakeholders' Relationship Committee,

Nomination and Remuneration Committee, Corporate Social Responsibility Committee, Share Allotment Committee and Investment and Borrowing Committee.

The Company's internal guidelines for Board/Board Committee meetings facilitate the decision making process at its meetings in an informed and efficient manner.

## **Board/Committee Meetings**

The Board meets at regular intervals to discuss and decide on Company / business policies and strategies apart from other regular business matters. The Board/Committee Meetings are pre-scheduled and a tentative annual calendar of the Board and Committee Meetings is circulated to all Directors well in advance to facilitate them to plan their schedule and to ensure meaningful participation in the meetings. The Board is updated on the discussions held at the Committee meetings and the recommendations made by various Committees.

The agenda of the Board/Committee Meetings is set by the Chief Risk Officer & Group Company Secretary in consultation with the Whole-time Director(s) and the Chairman of the Company. The agenda is generally circulated a week prior to the date of the meeting and includes detailed notes on items to be discussed at the meeting to enable the Directors to take an informed decision. However, in case of urgency, the agenda is circulated along with shorter notice as per the provisions of the Secretarial Standard on Meetings of the Board of Directors. Usually meetings of the Board are held at Corporate Office of the Company at Gurugram.

Board meets at least once in a quarter to review interalia the quarterly results, compliances and performance of the Company. Additional meetings are held on need basis.

The Company also provides facility to the Directors to attend meetings of the Board and its Committees through Video/Tele Conferencing mode.

4 (Four) Board meetings were held during the Financial Year 2021 on February 16, 2021, May 3, 2021, August 2, 2021 and October 29, 2021. The gap between two Board meetings was within the limit prescribed under Section 173(1) of the Act and Regulation 17(2) of the SEBI (LODR) Regulations.

## **Board Business**

The business of the Board inter-alia includes:

 Framing and overseeing progress of the Company's annual plan and operating framework.

- Framing strategies for direction of the Company and for corporate resource allocation.
- Reviewing financial plans of the Company.
- Reviewing the quarterly and annual financial results of the Company.
- Reviewing the Annual Report including Audited Annual Financial Statements for adoption by the Members.
- Reviewing progress of various functions and business of the Company.
- Reviewing the functioning of the Board and its Committees.
- Reviewing the functioning of subsidiary companies.
- Considering / approving the declaration / recommendation of dividend.
- Reviewing and resolving fatal or serious accidents or dangerous occurrences, any material significant effluent or pollution problems or significant labour issues, if any.
- Reviewing the details of significant development in human resources and industrial relations front.
- Reviewing details of foreign exchange exposure and steps taken by the management to limit the risks of adverse exchange rate movement.
- Reviewing compliance with all relevant legislations and regulations and litigation status, including materiality, important show cause, demand, prosecution and penalty notices, if any.
- Advising on corporate restructuring such as merger, acquisition, joint venture or disposals, if any.
- Appointing Directors on the Board and Key Managerial Personnel, if any.
- Reviewing various policies of the Company and monitoring implementation thereof.
- Reviewing details of risk evaluation and internal controls.
- Reviewing reports on progress made on the ongoing projects.
- Monitoring and reviewing board evaluation framework.

#### **Board Support**

The Chief Risk Officer & Group Company Secretary is responsible for collation, review and distribution of all papers submitted to the Board and Committees thereof for consideration. He is also responsible for preparation of Agenda in consultation with the Whole-time Director(s)

and the Chairman of the Company and convening of Board and Committee Meetings. The Chief Risk Officer & Group Company Secretary attends all the meetings of the Board and its Committees, advises and assures the Board on Compliance and Governance principles.

## Recording Minutes of proceedings of Board and Committee meetings

The Chief Risk Officer & Group Company Secretary ensures appropriate recording of minutes of proceedings of each Board and Committee Meeting. The minutes are entered in the Minutes Book within 30 (Thirty) days from the date of conclusion of the meetings as per the

Secretarial Standards issued by the Institute of Company Secretaries of India.

## Post meeting follow-up mechanism

The guidelines for Board and Committee meetings facilitate an effective post meeting follow-up, review and reporting process for decisions taken by the Board and Committees thereof. Important decisions taken at Board/Committee meetings are communicated promptly to the concerned departments/divisions. Action-taken report (if any) on decisions/minutes of the previous meeting(s) is placed at the succeeding meeting of the Board/Committees for noting.

## Attendance of Directors at Board Meetings & last Annual General Meeting (AGM), number of other Directorships and Chairmanships / Memberships of Committees and Shareholding of each Director in the Company:

#### **Committees of the Board**

The Board Committees play a vital role in strengthening the Corporate Governance practices. The Board Committees are set up under formal approval of the Board to carry out clearly defined roles which are considered to be performed by Members of the Board as a part of good governance practice. The Board supervise the execution of responsibilities by the Committee. Minutes of the proceedings of all the Committee meetings are circulated to the Board to take note of the same. The Board Committees may request special invitees to join the meeting, as appropriate.

As required under Schedule V (Annual Report) of the SEBI (LODR) Regulations, mandatory disclosure(s) related to the Audit, Risk Management and Ethics Committee, Stakeholders' Relationship Committee and Nomination and Remuneration Committee are as follows:

#### (i) Audit, Risk Management and Ethics Committee

The terms of reference and composition of the Audit, Risk Management and Ethics Committee satisfy the requirements of Section 177 of the Act read with the Companies (Meetings of Board and its Powers) Rules, 2014 and Regulations 18 and 21 of the SEBI (LODR) Regulations.

The brief terms of reference of Audit, Risk Management and Ethics Committee are as under:

- Oversight of the Company's financial reporting process, examination of the financial statement and the auditors' report thereon and the disclosure of its financial information to ensure that its financial statements are correct, sufficient and credible.
- Recommendation for appointment, reappointment and replacement, remuneration and terms of appointment of auditors of the Company and approval of payment for any other services rendered by the statutory auditors of the Company.

- Reviewing with the Management the quarterly / annual results and annual financial statements and Auditors' Report thereon before submission to the Board for approval. This would, inter-alia, include reviewing changes in the accounting policies and reasons for the same, major accounting entries involving estimates based on exercise of judgement by Management, significant adjustments made in the financial statements.
- Review the Management's Discussion and Analysis of financial condition and results of operations.
- Scrutiny of inter-corporate loans and investments.
- Evaluation of internal financial controls and risk management systems.
- Reviewing the functioning of the whistle blower/ vigil mechanism.
- Formulate a detailed risk management policy which shall include:
  - Framework for identification of internal and external risks.
  - Measures for risk mitigation including systems and processes for internal control of identified risks.
  - Business continuity plan.
- Evaluate and review the risk management plan, the risk management system, including risk policy, risk process (risk identification, assessment, mitigation and monitoring), cyber security processes and risk registers laid down by the Management.
- Recommendation for appointment, removal and terms of remuneration of the Chief Risk Officer.

The Audit, Risk Management and Ethics Committee met 5 (Five) times during the Financial Year 2021 on February 16, 2021, May 3, 2021, July 16, 2021, August 2, 2021 and October 29, 2021.

Composition of the Committee and attendance of the Members at the meetings held during the Financial Year 2021:

| SI. | Name            | Category    | Designation | No. of   |
|-----|-----------------|-------------|-------------|----------|
| No. |                 |             |             | Meetings |
|     |                 |             |             | Attended |
| 1   | Dr. Ravi Gupta  | Independent | Chairman    | 5/5      |
|     |                 | Director    |             |          |
| 2   | Ms. Rashmi      | Independent | Member      | 4/5      |
|     | Dhariwal        | Director    |             |          |
| 3   | Ms. Sita Khosla | Independent | Member      | 5/5      |
|     |                 | Director    |             |          |
| 4   | Mr. Raj Gandhi* | Executive   | Member      | 2/2      |
|     |                 | Director    |             |          |

<sup>\*</sup> To follow good Corporate Governance practice, Mr. Raj Gandhi resigned w.e.f. May 3, 2021, to ensure that all members of the Committee are Independent Directors.

Note: Video/Tele-conferencing facility is offered to facilitate Directors to participate in the meetings.

The Chief Risk Officer & Group Company Secretary acts as Secretary to the Committee.

The Chairman of the Audit, Risk Management and Ethics Committee was present at the last AGM held on April 7, 2021.

## (ii) Stakeholders' Relationship Committee

The terms of reference and composition of the Stakeholders' Relationship Committee satisfy the requirements of Section 178 of the Act and Regulation 20 of SEBI (LODR) Regulations.

The brief terms of reference of Stakeholders' Relationship Committee is to consider and resolve the grievances of security holders of the Company including but not limited to complaints related to transfer of shares, non-receipt of annual report, non-receipt of declared dividends and review of services rendered by the Registrar and Share Transfer Agent.

## Composition of the Committee during the Financial Year 2021:

| SI.<br>No. | Name                | Category                | Designation |
|------------|---------------------|-------------------------|-------------|
| 1          | Ms. Sita Khosla     | Independent<br>Director | Chairperson |
| 2          | Ms. Rashmi Dhariwal | Independent<br>Director | Member      |
| 3          | Mr. Raj Gandhi      | Executive<br>Director   | Member      |

Note: Video/Tele-conferencing facility is offered to facilitate Directors to participate in the meetings.

The Chief Risk Officer & Group Company Secretary acts as Secretary to the Committee and also designated as a Compliance Officer of the Company.

The Chairperson of the Stakeholders' Relationship Committee was present at the last AGM held on April 7, 2021.

To enable investors to share their grievance or concern, Company has set up a dedicated e-mail ID complianceofficer@rjcorp.in

### (iii) Nomination and Remuneration Committee

The terms of reference and composition of the Nomination and Remuneration Committee satisfy the requirements of Section 178 of the Act and Regulation 19 of SEBI (LODR) Regulations and SEBI (Share Based Employee Benefits) Regulations, 2014/SEBI (Share Based Employee Benefits and Sweat Equity) Regulations, 2021.

The brief terms of reference of Nomination and Remuneration Committee are as under:

- Formulating the criteria for determining qualifications, positive attributes and independence of a director and recommending to the Board of Directors a policy relating to the remuneration of the directors, key managerial personnel and other employees and for evaluation of the performance of independent directors and the Board of Directors;
- Devising a policy on diversity of the Board of Directors;
- Identifying persons who are qualified to become directors and who may be appointed in senior management in accordance with the criteria laid down, recommending to the Board of Directors their appointment and removal, and specify the manner for effective evaluation of performance of Board, its committees and individual Directors and review its implementation and compliance;
- Determine whether to extend or continue the term of appointment of the independent directors on the basis of the report of performance evaluation of independent directors; and

- Framing suitable policies and systems to ensure that there is no violation by an employee as well as by the Company of any applicable laws in India or overseas, including:
- (i) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015; and
- (ii) The Securities and Exchange Board of India (Prohibition of Fraudulent and Unfair Trade Practices relating to the Securities Market) Regulations, 2003.

The Nomination and Remuneration Committee met 4 (Four) times during the Financial Year 2021 on February 16, 2021, August 2, 2021, October 29, 2021 and December 14, 2021.

## Composition of the Committee and attendance of the Members at the meetings held during the Financial Year 2021:

| SI. | Name              | Category      | Designation | No. of   |  |
|-----|-------------------|---------------|-------------|----------|--|
| No. |                   |               |             | Meetings |  |
|     |                   |               |             | Attended |  |
| 1   | Ms. Rashmi        | Independent   | Chairperson | 4/4      |  |
|     | Dhariwal          | Director      |             |          |  |
| 2   | Dr. Ravi Gupta    | Independent   | Member      | 4/4      |  |
|     |                   | Director      |             |          |  |
| 3   | Mr. Ravi Jaipuria | Non-executive | Member      | 4/4      |  |
|     |                   | Chairman      |             |          |  |

Note: Video/Tele-conferencing facility is offered to facilitate Directors to participate in the meetings.

The Chief Risk Officer & Group Company Secretary acts as Secretary to the Committee.

The Chairperson of the Nomination and Remuneration Committee was present at the last AGM held on April 7, 2021.

#### **Performance evaluation criteria for Directors**

The Remuneration Policy of the Company lays down the criteria of appointment and remuneration of Directors/Key Managerial Personnel including criteria for determining qualification, positive attributes, independence of Directors, criteria for performance evaluation of Executive and Non-executive Directors (including Independent Directors) and other matters as prescribed under the provisions of the Act and the SEBI (LODR) Regulations. An indicative list of factors that may be evaluated including but not limited to participation and contribution by a Director, commitment, effective deployment of knowledge and expertise, effective management of relationship with stakeholders, integrity and maintenance of confidentiality and independence of behaviour and judgement.

#### **Remuneration of Directors**

Details of remuneration paid to Directors of the Company for the Financial Year ended December 31, 2021, are as follows:

(₹ in million)

| SI.<br>No. | Name                             | Sitting Fee | Salary | Perquisite | Bonus/<br>Incentive | Total |
|------------|----------------------------------|-------------|--------|------------|---------------------|-------|
| 1          | Mr. Varun Jaipuria               | -           | 43.22  | 0.04       | 5.17                | 48.43 |
| 2          | Mr. Raj Gandhi                   | -           | 43.37  | 0.04       | 20.10               | 63.51 |
| 3          | Mr. Kapil Agarwal                | -           | 78.35  | 0.03       | 0.25                | 78.63 |

| 7          | Ms. Rashmi Dhariwal              | 1.20        | -      | -          | -                   | 1.20  |
| 8          | Ms. Sita Khosla                  | 0.90        | -      | -          | -                   | 0.90  |

The details of specific service contracts, notice period and severance fees etc. are governed by the appointment letter issued to respective Director at the time of his / her appointment.

# Criteria of making payments to Non-executive Directors including all pecuniary relationship or transactions of Non-executive Directors

The Independent Directors are not paid any remuneration other than the sitting fee for attending meetings of the

Board and the Committees thereof as approved by the Board.

There has been no pecuniary relationship or transactions of the Non-executive Directors vis-à-vis the Company during the year except the sitting fee paid to them as detailed above.

## **Prohibition of Insider Trading**

To comply with the provisions of Regulation 9 of the Securities and Exchange Board of India (Prohibition of

Insider Trading) Regulations, 2015, the Company has adopted a Code of Conduct for Prohibition of Insider Trading and the same is uploaded on website of the Company at https://varunpepsi.com/wp-content/uploads/2021/02/Code-under-Insider-Trading-Clean-Final.pdf

## **Vigil Mechanism / Whistle Blower Policy**

To comply with the provisions of Section 177 of the Act and Regulation 22 of SEBI (LODR) Regulations, the Company has adopted a Vigil Mechanism / Whistle Blower Policy for Directors and Employees of the Company. Under the Vigil Mechanism Policy, the protected disclosures can be made by a victim through an e-mail or a letter to the Chief Risk Officer & Group Company Secretary (Vigilance Officer) or to the Chairperson of the Audit, Risk Management and Ethics Committee.

The Policy provides for adequate safeguards against victimization of Directors and Employees who avail of the vigil mechanism and also provides a direct access to the Vigilance Officer or the Chairperson of the Audit, Risk Management and Ethics Committee, in exceptional cases. No personnel of the Company has been denied access to the Audit, Risk Management and Ethics Committee.

The main objective of this policy is to provide a platform to Directors and Employees to raise concerns regarding any irregularity, misconduct or unethical matters / dealings within the Company, which may have a negative bearing on the organization either financially or otherwise.

This policy provides an additional channel to the normal management hierarchy for employees to raise concerns about any breach of the Company's values or instances of violations of the Company's Code of Conduct. Therefore, it is in line with the Company's commitment to open communication and to highlight any such matters which may not be getting addressed in a proper manner. During the year under review, one complaint was filed and closed amicably under the Whistle Blower Policy.

## **Compliance with the Code of Conduct**

To comply with the provisions of Regulation 17(5) of SEBI (LODR) Regulations, the Company has adopted "Code of Conduct for Board of Directors and Senior Management" ('Code'). Code is available on website of the Company at https://varunpepsi.com/wp-content/uploads/2019/03/Code-Of-Conduct-For-Board-Of-Directors-and-Senior-Management-Revised.pdf

On the basis of declarations received from Board Members and Senior Management Personnel, the Whole-time Director & Chief Executive Officer has given a declaration that the Members of the Board of Directors and Senior Management Personnel have affirmed compliance with the Code during the Financial Year 2021. A copy of such declaration is also attached with this report.

## **General Body Meetings**

### **Annual General Meeting**

The Annual General Meetings ('AGM') of the Company during the preceding three years were held at the following venues, dates and times, wherein the following special resolutions were passed:

| AGM              | Financial<br>Year | Day, Date &<br>Time                           | Venue/Mode  | Brief description of Special Resolutions      |

## **Extra-ordinary General Meeting**

Apart from the Annual General Meeting, no other General Meeting was held during the Financial Year 2021.

### **Postal Ballot**

No special resolution is proposed to be conducted through postal ballot.

During the year under review, pursuant to Regulation 44 of SEBI (LODR) Regulations and Sections 108, 110 and other applicable provisions of the Act read with Rules made thereunder, Members of the Company approved the issue of Bonus Shares by way of postal ballot.

### **Procedure followed for Postal Ballot**

- In compliance with Regulation 44 of the SEBI (LODR) Regulations and Sections 108, 110 and other applicable provisions of the Act read with the Rules made thereunder and General Circulars issued by Ministry of Corporate Affairs, the postal ballot notice dated May 3, 2021 was dispatched on Tuesday, May 4, 2021 containing draft resolution together with the explanatory statement and remote e-voting instructions through electronic mode to all those Members whose e-mail address were registered with the Company/Registrar and Share Transfer Agent ("RTA") or Depository/Depository Participants and whose names appeared in the Register of Members of the Company or in the Register of Beneficial Owners maintained by the Depositories as on Friday, April 30, 2021. The Company also published notice in the newspapers declaring details of completion of dispatch on Wednesday, May 5, 2021 as mandated under the Act and applicable rules.
- Members were requested to cast their vote only through remote e-voting facility provided by National Securities Depository Limited ("NSDL") between Wednesday, May 5, 2021 (9:00 A.M. IST) and Thursday, June 3, 2021 (5.00 P.M. IST) (both days inclusive) on the draft resolution mentioned in the postal ballot notice.
- The Scrutinizer, Mr. Devesh Kumar Vasisht, Partner of M/s. Sanjay Grover & Associates, Company Secretaries, New Delhi submitted his report on June 4, 2021, after completion of the scrutiny.
- 4. The results of the postal ballot were announced by Mr. Ravi Batra, Chief Risk Officer & Group Company Secretary on June 4, 2021. The last date of remote e-voting i.e. Thursday, June 3, 2021, was taken as the date of passing the resolution.

- 5. The result of the postal ballot along with the scrutinizer's report was displayed at the registered office of the Company, hosted at the Company's website at www.varunpepsi.com and on the website of NSDL at https://www.evoting.nsdl.com and was also communicated to the Stock Exchanges.
- 6. The consolidated summary of the result is as under:

| Item       | Net Valid   | Votes in             | Votes        |
|------------|-------------|----------------------|--------------|
|            | Votes       | favour of the        | against the  |
|            | Cast (No.   | Resolution           | Resolution   |
|            | of Equity   | (No. of              | (No. of      |
|            | Shares)     | <b>Equity Shares</b> | Equity       |
|            |             | and % of Net         | Shares and   |
|            |             | Valid Votes)         | % of Net     |
|            |             |                      | Valid Votes) |
| Ordinary   | 262,043,791 | 259,886,395          | 2,157,396    |
| Resolution |             | (99.18%)             | (0.82%)      |
| for Issue  |             |                      |              |
| of Bonus   |             |                      |              |
| Shares     |             |                      |              |

#### **Means of Communication**

Information like Quarterly / Half Yearly / Annual Financial Results and press releases / presentations on significant developments in the Company that have been made available from time to time have been submitted to the Stock Exchanges to enable them to put on their websites and communicate to their Members. The same is also made available to Institutional Investors or to the Analysts, if any and are also hosted on the Company's website at www.varunpepsi.com.

The Quarterly / Half Yearly / Annual Financial Results are published in English and Hindi language newspapers normally in Business Standard. Moreover, a report on Management Discussion & Analysis as well as Business Responsibility Report also forms part of the Annual Report. The Company is filing all reports / information including Quarterly Financial Results, Shareholding Pattern, and Corporate Governance Report etc., electronically on NSE website viz. www.bseindia.com.

#### L) Dematerialization of Shares and Liquidity

As on December 31, 2021, 99.99% of the total equity shares were held in dematerialized form. The Company's shares are actively traded on the stock exchanges.

The Company does not have any GDR's/ADR's/Warrants or any Convertible instruments having any impact on equity.

## M) Commodity price risk or foreign exchange risk and hedging activities

The details for the same have been provided in the Notes to Financial Statements of the Company for the Financial Year 2021.

## N) Credit Rating

During the year under review, your Company's credit rating by CRISIL is as below:

| Long Term Rating  | CRISIL AA/Positive (Re-affirmed) |
|-------------------|----------------------------------|
| Short Term Rating | CRISIL A1+ (Re-affirmed)         |

## O) Plant locations

The Plant locations have been provided at page no. 9 of the Annual Report.

### P) Reconciliation of Share Capital Audit

The Reconciliation of Share Capital Audit is conducted by a Company Secretary in practice to reconcile the total admitted capital with National Securities Depository Limited and Central Depository Services (India) Limited ('Depositories') and the total issued and listed capital. The audit confirms that the total issued/paid-up capital is in agreement with the aggregate of the total number of shares in physical form and the total number of shares in dematerialized form (held with Depositories) and that the requests for dematerialization of shares

are processed by the Registrar and Share Transfer Agent within statutory period and uploaded with the concerned depositories.

## Q) Equity Shares in the Suspense Account

The Company does not have any shares in the demat suspense account or unclaimed suspense account as on December 31, 2021.

## R) Compliances under SEBI (LODR) Regulations

The Company is regularly complying with the SEBI (LODR) Regulations as stipulated therein. Information, reports, certificates and returns as required under the provisions of SEBI (LODR) Regulations are sent to the stock exchanges within the prescribed time.

## S) CEO and CFO Certification

To comply with Regulation 17(8) of SEBI (LODR) Regulations, the Whole-time Director & Chief Executive Officer (CEO) and the Chief Financial Officer (CFO) of the Company have given Compliance Certificate stating therein matters prescribed under Part B of Schedule II of the said Regulations which forms part of this Corporate Governance Report.

To comply with Regulation 33(2)(a) of SEBI (LODR) Regulations, while placing the Quarterly Financial Results before the Board of Directors, the CEO and CFO certifies that the Financial Results do not contain any false or misleading statement or figures or do not omit any material fact which may make the statements or figures contained therein misleading.

## T) Certificate from Company Secretary in Practice regarding Non-disqualification of Directors

None of the Directors on the Board of the Company have been debarred or disqualified

from appointment or continuing as Directors of companies by the Securities and Exchange Board of India, Ministry of Corporate Affairs or any such other Statutory Authority, as stipulated under Regulation 34 of the SEBI (LODR) Regulations and certificate in this respect received from an Independent Firm of Practising Company Secretaries is annexed.

## U) Fee paid to the Statutory Auditors

Total fees for all services paid by the Company and its subsidiaries, on a consolidated basis, to Statutory Auditors of the Company and their other associated firms during the Financial Year ended December 31, 2021, is as follows:

(₹ in Million)

| Particulars    | M/s. Walker | M/s. APAS & |
|----------------|-------------|-------------|
|                | Chandiok &  | Co. LLP     |
|                | Co. LLP     |             |
| Audit Fee      | 7.48        | 4.81*       |
| Other Services | 0.00        | 1.07        |
| Reimbursement  | 0.74        | 0.00        |
| of Expenses    |             |             |
| Total          | 8.22        | 5.88        |
|                |             |             |

<sup>\*</sup> includes ₹ 0.21 Million paid by Lunarmech Technologies Private Limited.

## V) Information on Deviation from Accounting Standards, if any

No deviations from Indian Accounting Standards (Ind AS) in preparation of annual accounts for the Financial Year 2021.

## W) Investor Correspondence

Mr. Ravi Batra

Chief Risk Officer & Group Company Secretary Plot No. 31, Institutional Area, Sector - 44, Gurugram 122 002 (Haryana)

Tel: +91 124 4643100

Email: complianceofficer@rjcorp.in

## X) Disclosure of Compliance with Corporate Governance requirements specified in Regulation 17 to 27 and Regulation 46 of SEBI (LODR) Regulations

The Company has complied with the applicable provisions of SEBI (LODR) Regulations including Regulation 17 to 27 and Regulation 46 of SEBI (LODR) Regulations.

The Company submits a quarterly compliance report on Corporate Governance signed by Compliance Officer to the Stock Exchanges within 21 (Twenty One) days from the close of every quarter. Such quarterly compliance reports on Corporate Governance are also posted on website of the Company.

Compliance of the conditions of Corporate Governance have also been audited by an Independent Firm of Practising Company Secretaries.

After being satisfied of the above compliances, they have issued a compliance certificate in this respect. The said certificate is annexed with this report and the same will be forwarded to the Stock Exchanges along with the Annual Report of the Company.

#### **DISCLOSURES**

## CORPORATE GOVERNANCE CERTIFICATE

To The Members

Varun Beverages Limited (CIN: L74899DL1995PLC069839)

F-2/7, Okhla Industrial Area, Phase I

New Delhi- 110 020

We have examined the compliance of conditions of Corporate Governance by **Varun Beverages Limited** ("the Company"), for the financial year ended on December 31, 2021 as stipulated under Regulations 17 to 27 and clauses (b) to (i) of Regulation 46(2) and Para C, D and E of Schedule V to the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations").

The compliance of conditions of Corporate Governance is the responsibility of the management of the Company. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated under Regulations 17 to 27 and clauses (b) to (i) of Regulation 46(2) and Para C, D and E of Schedule V to the Listing Regulations.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

## **Management Discussion & Analysis**

### **Economic Overview & Outlook**

## **Global Economy**

During the year 2021, worldwide economies witnessed a healthy rebound in growth, following the easing of COVID-19 related disruptions across geographies. While the resurgence of COVID-19 infections continued during the year, the momentum of global growth recovery was sustained due to vaccination drives, strong stimulus effects and pent-up demand across geographies. As restrictions were relaxed across economies, demand and consumption saw a strong acceleration. This, in addition to calibrated policy frameworks, fiscal stimulus packages and improving trade prospects in the latter half of the year, sped global economic recovery. According to the World Bank, the global economy expanded by 5.5% in 2021 (1).

### **Indian Economy**

The Indian economy witnessed a strong rebound in the year 2021 despite undergoing the devastating effects of the second wave of the COVID-19 pandemic. A calibrated re-opening of markets coupled with higher vaccination rate led to a faster than expected pick-up in the domestic economy in the second half of the year, with output reaching back to levels of the pre-pandemic period. To support the recovery in the economy, the Reserve Bank of India too maintained an accommodative stance throughout the year. The Indian Government announced a set of structural reforms in 2021, including the production-linked incentive (PLI) scheme which is expected to benefit multiple sectors of the economy.

As per the World Bank, the Indian economy is expected to grow at 8.3% in FY22 and at 8.7% in FY23<sup>(1)</sup>. With this, India continued to be among the fastest-growing economies in 2021. The growth outlook reflects increased private sector and infrastructure investments, as well as rewards from the advancing reforms.

#### Soft drinks market - Overview and Outlook

At the start of 2021, the domestic soft drinks industry witnessed improved traction led by a healthy demand environment across markets, following the demand disruption caused by nation-wide lockdown in the peak summer season of 2020. However, the second wave of the pandemic in April and May of 2021 resulted in localized lockdowns and restrictions, which once again disrupted consumption trends in the key season of summer. This resulted in moderate soft drink volumes in the first half

of the year. As lockdown restrictions relaxed gradually in the second half, the industry saw faster than anticipated recovery in demand and consumption, which assisted overall growth in 2021.

In the last two years, due to the pandemic period, the industry underwent a significant shift in consumer purchase patterns. During the lockdown-related restrictions, while out-of-home consumption patterns were notably impacted, in-home consumption trend improved significantly. However, as the economy recovered from the second wave, out-of-home consumption bounced back in addition to a growth in the in-home consumption, leading to healthy overall growth. The beverage value chains are also being reshaped as consumer tastes and preferences evolve towards a greater emphasis on health and sustainability. The industry is continuously focused on introducing new product innovations in sync with these market trends.

Going forward, the soft drinks industry in India is expected to report healthy growth across categories on the back of better demographics, improving retail penetration across markets, better agro-economics, and rising trend of in-home consumption. The main segments constituting the soft drinks market in India are carbonates, juices, and bottled water. In value terms, carbonates is the largest category.

## Soft Drinks - Key Growth Drivers and Opportunities

Over the past few years, the Indian soft drink market has witnessed significant growth as consumption has been gradually improving in India, driven by a number of factors, including:

**Favourable Demographic Profile:** India is a young country with individuals in 15-64 years age group accounting for a majority of the overall population, providing the nation with a large workforce to support economic growth. Given the changing population demographics, higher spending capacity of young consumers, rapid urbanization, and growing rural consumption are expected to drive consumption of soft drinks in India.

Rapid Urbanization and Growing Income: With more than 50% of India's population falling under the working age category, there has been a rise in disposable income, leading to a substantial change in spending patterns. In addition, the positive trend of women employees in India has resulted in higher family disposable income, culminating in higher consumer spending.

**Increased Average Spend Per Household:** There has been a strong growth in absolute number of average spend per household over the last decade. Indian consumers are increasingly improving the discretionary spends on categories other than essentials, such as food, beverages and consumer durables. Increased disposable income, consumer preferences and a growing population influence the demand for carbonated soft drinks.

**Electrification:** India's rural sentiment is expected to maintain a healthy momentum with good monsoon and better agro-economics, which bodes well for the country's overall economic revival. Increased electrification of Indian villages along with improving quality of electricity supply will help enhance penetration of cooling infrastructure in these regions, thereby supporting industry growth.

**Location:** India has a hot tropical climate. Summer in most parts of India is extremely hot and dry. It starts in April and lasts until the beginning of October, with temperatures peaking in June. A large portion of the population lives in hot and dry climate, and as a result, soft drink consumption is likely to continue to rise in the foreseeable future.

## Business Overview - A Key Player in the Beverage Industry

#### **VBL's Presence**

Varun Beverages Limited ("VBL" or the "Company") is a key player in India's beverage industry. The Company's operations span across 6 countries – 3 in the Indian subcontinent (India, Sri Lanka and Nepal), which contributed to ~81% of the net revenues in CY21, and the remaining 3 in Africa (Morocco, Zambia and Zimbabwe), which contributed ~19% to the net revenues.

### Symbiotic Relationship with PepsiCo

The Company enjoys a strategic, symbiotic, and long-standing over 30-year association with PepsiCo India, since the beverage company's entry into India. Today, it accounts for 85%+ of its sales volumes in India. With its extensive manufacturing facilities and well-established distribution network, VBL manufactures, markets and distributes PepsiCo-owned products such as carbonated soft drinks, juice-based beverages and packaged drinking water.

PepsiCo's various brands manufactured and distributed by VBL include Pepsi, Pepsi Black, Diet Pepsi, Mirinda Orange, Mountain Dew, Mountain Dew Ice, Slice Fizzy, Seven-Up, Seven-Up Nimbooz Masala Soda, Sting, Evervess, Duke, Tropicana Slice, Tropicana Juices (100%, Delight and Essentials), Seven-Up Nimbooz, Gatorade, as well as packaged drinking water under the brands Aquafina and Aquavess.

The Company has built a strong sales team that collaborates closely with PepsiCo on local advertising and marketing campaigns. The Company has been granted franchise rights for PepsiCo's beverage products in 27 States and 7 Union Territories in India, in addition to Nepal, Sri Lanka, Morocco, Zambia and Zimbabwe.

#### **Business Model**

The Company manufactures and distributes a wide range of carbonated soft drinks ("CSD"), as well as a large selection of non-carbonated beverages ("NCB"), including packaged drinking water. It has a unique business model with end-to-end execution capabilities from manufacturing, distribution and warehousing, customer management and in-market execution, to managing cash flows and future growth. PepsiCo offers brands, concentrates and marketing support to VBL. In

#### **VBL - Demand Delivery**

- Production Facilities
- Sales & Distribution GTM & Logistics
- In-outlet Management Visi-Coolers
- Consumer Push Management (BTL)
   Market Share Gains

#### **PepsiCo - Demand Creation**

- Trademarks
- Formulations through Concentrate
- Product & Packaging innovation through investment in R&D
- Consumer Pull Management (ATL) -Brand Development

turn, VBL takes complete control over the manufacturing and supply chain processes, driving market share gains, enhancing cost efficiencies, and managing capital allocation strategies.

VBL has a vast experience in managing the distribution of soft drinks, involving complex logistics and packaging of products. While business operations in each market is similar, each territory and sub-territory presents specific operational challenges, varying from steady electricity supply, refrigeration and cooling equipment, logistics infrastructure as well as the demographic profile and general socio-economic conditions in the relevant market.

The Company has a solid and well-entrenched distribution network covering urban, semi-urban and rural markets, addressing the demands of a wide range of consumers. The distribution network is strategically located to maximize market penetration across licensed sub-territories in India. The Company's solid production capabilities and distribution network enables it to effectively respond to competitive pressures, market demand and evolving consumer preferences across the targeted territories.

As of December 31, 2021, the Company had 31 state-of-the-art manufacturing facilities in India, and 6 globally. Further, it has a robust supply chain with 100+ owned depots, 2,500+ owned vehicles, 2,000+ primary distributors and has presently installed 840,000+ visicoolers across various markets.

Over the years, VBL has expanded its operations in India both organically and in-organically. Through the inorganic route, it has expanded through the acquisition of additional territories from PepsiCo as well as previously franchised territories. With its committed and knowledgeable sales staff, the Company focuses on driving growth and expanding market share across categories through various customer push strategies in licensed territories. It undertakes local level promotion, in-store activations, customer relation management, merchandizing, individual account management and evaluation of high demand region for strategic placement of vending machines and visi-coolers.

VBL has also implemented several strategic initiatives aimed at enhancing operational excellence such as backward integration of manufacturing processes and centralized raw material sourcing. The Company has established backward integration facilities for production of preforms, crowns, plastic closures, corrugated boxes, corrugated pads, plastic crates and shrink-wrap films in certain facilities to ensure operational efficiencies and high-quality standards.

### **Key Business Developments - 2021**

## COVID-19 - Second wave impact on business operations:

The resurgence of the COVID-19 pandemic caused significant disturbance and led to a slowdown in economic activity and business operations of the Company in the month of May 2021, which is the peak month for the Company's sales volume. However, by virtue of its last year's learnings, the Company had all the necessary protocols in place to handle and mitigate the business impact of the pandemic to a certain extent. As COVID-19 cases declined and restrictions started easing in the domestic market, a faster-than-anticipated recovery in demand in the second half led to a healthy growth for the full year.

### **Greenfield expansion in India:**

During the year, the Board of Directors approved to set up the following new manufacturing facilities in India:

- A new plant for manufacturing of carbonated soft drinks, juice based drinks and packaged drinking water in Bihar to improve its market presence and gain a foothold in the territory.
- A new plant for manufacturing of plastic preforms and plastic closures in Jammu & Kashmir to further strengthen its backward integration.

## Formation of a new subsidiary 'Varun Beverages RDC SAS' in Democratic Republic of Congo ("DRC"):

During the year, the Company has incorporated a new company namely 'Varun Beverages RDC SAS' in DRC to initially import finished products (carbonated and non-carbonated beverages) from Morocco and Zambia and distribute them in DRC to test and establish the market before setting up a manufacturing facility locally in due course of time.

## **Credit Rating:**

In CY21, CRISIL (an S&P Global Company) has reaffirmed the long-term rating for bank loan facilities of the Company as CRISIL AA/Positive (Outlook revised from 'Stable' to 'Positive') and also reaffirmed the rating for short term instruments as CRISIL A1+.

### Awards & Accolades:

During the year, the Company won the award for the "Best FMCG Corporate Governance India 2021", by Capital Finance International (UK).

## **Dividend Payout:**

The Company's Board of Directors agreed to formalize a dividend strategy in line with good corporate governance practices with its listing in November 2016.

#### Salient Features -

- Endeavor to maintain a dividend payout in the range of 10-30% of annual profit after tax on standalone financials
- Consider financial parameters like earnings outlook, future capex requirements, organic growth plans, capital restructuring, debt reduction, cash flows, etc.
- Consider external parameters like macro-economic environment, regulatory changes, technological changes, statutory and contractual restrictions, etc.
  - For a detailed perspective, please refer to the Company's website at www.varunpepsi.com
- For CY21, in line with the guidelines of the dividend policy, the Board of Directors recommended an interim dividend of ₹ 2.5/- per share, resulting in a total cash outflow of ₹ 1,082.6 million

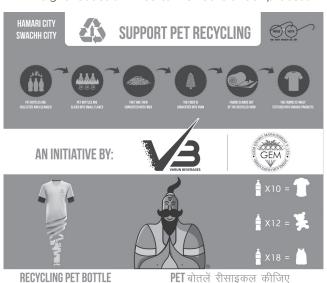

## **Sustainability Initiatives**

The Company adheres to sustainable manufacturing practices and embraces sustainability across its business operations. Few of the sustainability initiatives undertaken are:

### **Plastic Waste Management:**

PET resin is one of the main raw materials used as packaging material for the Company's finished product annually. These are high-quality food-grade virgin PET chips that can be easily recycled to make various products for diverse industries and end uses. The Company has undertaken the following measures towards management of plastic waste:

• Plastic usage reduction - Through light weighting of Preforms and Closures for PET bottles, the Company intends to reduce the usage of plastic. During the last 10 years, the Company has reduced the weights of preforms and plastic closures by 10% to 20% in different SKUs. Phase-wise implementation of weight reduction in certain SKUs is under process.

### **Sample Recycled Products**

- Plastic Waste Recycling VBL has engaged with GEM Enviro Management Pvt. Ltd. for phased implementation of 100% recycling of used PET bottles through collection from end-users by placing dustbins / reverse vending machines, direct collection from Institutions (Hotels, Banquet Halls, Exibitions, etc.), and spreading awareness through workshops. GEM Enviro Management Pvt. Ltd., a Delhi-based Central Pollution Control Board ("CPCB") recognized PRO (Producer Responsible Organization) company specializes in a) collection and recycling of packaging waste, and b) promotion of recycled green products like T-Shirts, bags, etc. made from recycling of waste material such as used PET bottles.
- During CY21, 70% of plastic waste was recycled per Kg of PET sold in finished products as compared 66% during CY20. Plastic waste includes PET, shrink film, plastic closures, labels & laminates post consumption

## **Water Positive Balance:**

- VBL engaged TUV India Pvt. Ltd., a subsidiary of TÜV NORD, Germany, to audit the Company's water footprint assurance, with its water mass balance and its various initiatives towards water conservation and water recharge being verified. Founded in 1869 and head-quartered in Germany, TÜV NORD GROUP is one of the world's largest Inspection, Certification & Testing organizations with presence across 70 countries globally.
- Scope of the audit covered all manufacturing plants in India. 100% of the water discharged from Company's manufacturing operations goes to effluent treatment plants that ensure sufficient quality of discharged water. 20 plants of VBL contributing to ~69% of the total production in CY21 fall in the "Safe" category of Central Ground Water Authority of India or use surface water.
- Key water conservation initiatives included rain water harvesting, ponds adoption, development and maintenance, and waste water management on the principles of Reduce, Reuse and Recycle, for optimal water consumption.
- Our efforts towards water recharge continued, however, sales volumes in CY20 had declined due to COVID-19 pandemic resulting in better water recharge ratio in that year.

The table below captures the key findings

| Parameter      | CY19       | CY20       | CY21          |
|----------------|------------|------------|---------------|
| (mn KL)        | (Audited)  | (Audited)  | (Provisional) |
| Total Water    | 4.12       | 3.74       | 4.86          |
| Consumption    |            |            |               |
| (A)            |            |            |               |
| Beverage       | 2.12       | 1.95       | 2.57          |
| Production (B) |            |            |               |
| Water Usage    | 1.94 times | 1.92 times | 1.89 times    |
| Ratio (A/B)    |            |            |               |
| Water          | 7.22       | 10.19      | 10.22         |
| Recharge (C)   |            |            |               |
| Water          | 1.75 times | 2.72 times | 2.24 times    |
| Recharge       |            |            |               |
| Ratio (C/A)    |            |            |               |
| No. of Ponds   | 103        | 108        | 110           |
| Adopted        |            |            |               |

# **Climate Action**

 VBL has engaged DQS India for conducting carbon footprint assessment and verification across all locations (manufacturing plants, warehouses, corporate office, sales offices) in India covering Scope 1, 2 & 3 emission sources. DQS India is the Indian subsidiary of DQS Holding GmbH, one of the leading Management System Certification, Assessment & Training organizations globally.

- Scope 1 and Scope 2 emissions are verified according to the requirements of ISO 14064-1.
  - Scope 1 includes direct GHG emissions from fuels and gases consumed by sources owned or controlled by the Company;
  - Scope 2 includes indirect GHG emissions associated with purchase of electricity (excluding electricity purchased for backward integration);
- Scope 3 emissions include energy consumption, refrigerant emission of visi-coolers placed with retailers and fuel consumption from employee commuting, business travels by air/rail/road, and upstream/downstream transportation

Key findings:

| GHG       | Million Kg CO <sub>2</sub> e |        | Grams / Liter* |        |
|-----------|------------------------------|--------|----------------|--------|
| Emissions | CY20                         | CY21   | CY20           | CY21   |
| Scope 1   | 23.91                        | 29.46  | 12.29          | 11.48  |
| Scope 2   | 129.11                       | 178.44 | 66.33          | 69.54  |
| Scope 3   | 537.68                       | 624.44 | 276.25         | 243.35 |
| Total     | 690.70                       | 832.34 | 354.87         | 324.37 |

Energy Efficiency (Liter/kWh)\*\*

<sup>\*</sup> Grams / Liter = Grams of CO2e emission per Liter of beverage produced during the year

 $<sup>^{*}</sup>$ A unit case is equal to 5.678 liters of beverage divided in 24 bottles of  $^{\sim}$  237 ml each

VBL reports its financials on a calendar year basis. Given that the soft drinks business is seasonal, with the bulk of sales occurring during the summer season, it is best to track the Company's performance on an annual basis. Revenues and profits follow a bell-curve with significant portion accruing in the April-June quarter.

In CY21, VBL delivered a strong and resilient performance. The macro-environment at the start of the year was largely supportive as consumption was almost nearing normalcy after the adverse impact by first wave of Covid-19 in CY20. However, the second wave of COVID infections in the country resulted in localized, micro lockdowns and restrictions, leading to significant disruption across the domestic markets during the summer season. With the period of April to June being the key season for the Company's operations, the disruptions adversely impacted the business performance for the Company in the peak month of May. Notwithstanding this shortterm non-linearity, the Company efficiently outlined and executed a set of SOPs and workflows to secure the business model and ensure continuity across its operations. With the learnings from CY20, the Company had all the necessary protocols in place to handle and mitigate the business impact to a certain extent. As lockdowns and curbs started easing from June onwards, VBL saw faster recovery in demand and consumption on a month-over-month basis during the course of the year. Out-of-home consumption registered a strong uptick driven by increase in travel, resumption in offices across markets in the second half of the year.

International territories also saw robust growth in consumption during the year. Overall, the Company delivered a strong performance across parameters during the year under review despite a volatile operating environment.

Revenue from operations for CY21 stood at ₹ 88,232.3 million as against ₹ 64,501.4 million in CY20. Total sales

volumes stood at 569 million cases in CY21 as compared to 425 million cases in CY20. In the domestic market, sales volume stood at 454 million cases as compared to 337 million cases in CY20. Carbonated Soft Drinks constituted 70.3%, Juice 6.4% and Packaged Drinking water contributed 23.3% of total sales volumes in CY21.

Realization per case stood at ₹ 155.0 in CY21 driven by an improvement in realizations in its international operations.

On the profitability front, despite a decline in gross margins due to higher PET prices, cost optimization measures in combination with a higher operating leverage on the back of strong volume growth, translated into an enhanced operating performance in CY21. While the industry practice is that any input cost increase is passed on, the Company implemented cost efficiencies to weather the rise in input cost. For instance, VBL is undertaking measures to light weight PET preforms, which not only enabled it to reduce costs in the near-term, but the benefits are structural in nature.

For CY21, EBITDA increased by 37.7% to ₹ 16,546.5 million. Gross margins stood at 54.3%, while EBITDA margins expanded by 12 bps to 18.8% in CY21.

In addition to the cost efficiency measures, VBL reduced its finance cost by 34.3% primarily because of lower average cost of borrowing, which helped in improving the net profit margin. In CY21, PAT stood at ₹ 7,460.5 million as compared to ₹ 3,572.7 million in CY20.

On the balance sheet front, Net Debt stood at ₹ 30,052.7 million as on December 31, 2021, as against ₹ 30,158.5 million as on December 31, 2020. Debt to Equity ratio stood at 0.72 as on December 31, 2021. Working capital days increased to ~ 35 days as on December 31, 2021, primarily because of higher stocking of Pet Chips/Preforms for the next season in order to mitigate the logistics and pricing risks.

# **Growth Outlook**

#### **Market Share Gains**

- Well-positioned to leverage PepsiCo brand to increase market penetration in licensed territories
- Consolidating existing distributors and increasing distribution in underpenetrated regions

# In-organic Expansion

- Penetrate newer geographies
- Identify strategic consolidation opportunities in South Asia / Africa

# Strengthen Balance Sheet

- Repayment of debt through strong cash generation
- To enable significant interest cost savings

# **Operating Leverage**

- Contiguous territories/markets offer better operating leverage and asset utilization economies of scale
- Production and logistics optimization including backward integration
- Packaging synchronization and innovations
- Technology use to improve sales and operations processes

# **Diversified Portfolio**

- To periodically launch innovative products in select markets in line with changing consumer preferences.
- Focus on noncola carbonated beverages and NCB's.
- Bottled water provides significant growth opportunity.

During the year, the Company has undertaken several initiatives to sustain its pace of growth. It continues to implement measures to strengthen its market position in the beverage industry. The VBL team, despite the various operating challenges, efficiently adapted and ensured smooth functioning of its business operations, even during the uncertain times of the COVID-19 pandemic.

The Company's new territories are also seeing strong traction. VBL continues to fortify its presence across micro territories and with this intent it is setting up a manufacturing facility in Bihar that will further enable it to improve its presence in the region, while accelerating the long-term sales growth momentum. The Company continues to focus on extending its distribution model consisting of owned-logistics supply chain and end-to-end infrastructure facilities to newer areas, which will further boost market presence in the under-penetrated regions. In addition to further improving its economies of scale and backward integration, the Company is setting up a new plant for manufacturing of plastic preforms and plastic closures in Jammu & Kashmir.

Even in the face of adversity in the last two years, VBL's business model displayed a strong sense of resilience. The Company remains on a strong footing and will continue to diligently work towards strengthening its position as a key player in the beverage industry. With the overall economic activity witnessing a healthy pick-up across the country, there is an improved consumption trend being witnessed. The third wave of COVID-19 has not had any significant impact on the business and the Company is confident of delivering a strong and sustained growth, going forward.

# **Threats, Risks and Concerns**

The risks and opportunities of all corporations are inherent and inseparable elements. Directors and management of the Company take constructive decisions to protect the interests of the stakeholders. The Company has in place a Risk Management Policy which is monitored and reviewed under the guidance of its Audit, Risk Management and Ethics Committee. This Committee meets regularly to identify processes exposed to risks, determine risk mitigation strategies, and monitor their implementation.

| Ri | sk                         | Description  | Mitigation   |
|----|----------------------------|--|--|
| 1. | Demand Risk                | lead to a slowdown in the  | Over the years, the Company has demonstrated its ability to drive significant growth in sales volumes by aiming to provide the right brand, the right price, the right product, and the right channel. In addition, the business is present in relatively under-penetrated markets with favorable demographics, climatic conditions and the rising population which should witness steady demand growth. Further, its wide range of product portfolio enables it to cater to diverse consumer segments.  |
| 2. | Business<br>Agreement Risk | The Company relies on strategic relationships and agreements with PepsiCo. Termination of agreements or less favorable renewal terms could adversely affect profitability. | Over the last three decades, the Company has partnered with PepsiCo, consolidating its market relationship with them, increasing the number of territories and sub-territories, producing, and distributing a wider range of PepsiCo beverages, adding multiple SKUs into the portfolio, and expanding its distribution network. The proven ability of the business to substantially strengthen the market share of PepsiCo enables it to be a reliable partner. The business maintains a symbiotic relationship with PepsiCo, working closely as active development partners, investing in joint projects and business planning with a focus on strategic issues. In 2019, the bottling appointment and trademark license agreement for India with PepsiCo India has been extended till April 30, 2039, from October 2, 2022, earlier.  |
| 3. | Regulatory Risk            | Regulations on consumer health and the risk of the Company's products being targeted for discriminatory tax and packaging waste recovery may adversely impact business.    | The Company proactively works with PepsiCo, and the government and regulatory authorities to ensure that the facts are clearly understood and that its products are not singled out unfairly. VBL adheres to sustainable manufacturing practices and takes the environmental issues related to packaging waste recovery / recycling, water management and greenhouse gases emissions very seriously. The Company consistently works along with stakeholders to establish sustainability solutions that focus on protecting the environment, including NGOs and the communities in which it operates. PepsiCo's strategy of introducing healthier and "zero sugar" variant of products also augur well for the Company's future. The Company has undertaken certain sustainability initiatives such as engaging with GEM Enviro Management Pvt. Ltd. for phased implementation of 100% recycling of used PET bottles, with TUV India Pvt. Ltd. for its water footprint assurance, and with Deutsch Quality Systems (India) Private Limited for measurement and improvement of its carbon footprint. |

| Ris | sk                          | Description   | Mitigation  |
|-----|-----------------------------|---|---|
| 4.  | Business<br>Viability Risk  | operations of, or leverage<br>potential operating and<br>cost efficiencies from, the<br>newly acquired territories<br>and sub-territories may<br>adversely affect the | The clear strategy and financial requirements of VBL ensures that all the future acquisitions or collaborations are value-added and in compliance with the acquisition guidelines of the Board. The Company also spends considerable management time and financial resources to ensure performance of the newly acquired activities, develop local market strategies (including for possible cultural and language barriers), and assimilate business practices to ensure business viability.   |
| 5.  | Consumer<br>Preference Risk | changing consumer<br>health trends and address<br>misconceptions about  | In order to remain relevant, VBL's sales team works closely with PepsiCo to assess evolving consumer habits and continually concentrate on product innovation and increasing product range. In addition, the new product plan of PepsiCo lays more emphasis on healthy products with zero / limited calorie content and sugar content.  |
| 6.  | Raw Material<br>Risk        | supply or significant increase in the price of raw materials or packaging materials may adversely affect the Company's business prospects, results                    | An integral part of VBL's strategy is to maximize cost efficiencies, focusing on actively reducing the cost of goods sold, minimizing operating expenses efficiently and increasing cash flows. Hence, the Company has pursued many programs for this purpose, including backward integration and consolidated sourcing of materials. It also leverages on its scale of operations to achieve better bargaining power with suppliers, resulting in better working capital management. The Company is focused on optimally utilizing its assets to help achieve higher operating efficiency and to amortize overheads costs on a wider case. In addition, the Company continues to invest in innovative solutions to boost operational efficiencies and work processes in its activities, ensuring consolidated operational data from production, scheduled sourcing, and superior monitoring of the supply of goods from manufacturers to the retail point of sale. |

# **Human Resources**

As of December 31, 2021, VBL has a total workforce of 10,700+ full-time employees from around the world (7,900+ in India and 2,700+ in the overseas subsidiaries). Consistent with every other aspect of its business strategy, the Company recognizes the value of talent within the organization to fuel future growth and progress. The Company has always laid great emphasis on training its employees, improving their skill levels, and fostering long-term employee involvement. VBL provides in-house training for employees through skill development initiatives and career development opportunities at all levels and across all functions. Key employees are also engaged in PepsiCo's management and staff enhancement initiatives as well as in India's leading management institutions.

# Risk Management, Audit and Internal Control System

The Company has well-equipped and effective internal control systems in place that match the scale of its sector and the complexity of the market it works in. Such stringent and detailed controls ensure effective and productive use of resources to the degree that the Company's assets and interests are safe-guarded, transactions are approved, registered, and properly reported and checks and balances guarantee reliability and consistency of accounting data. The Audit, Risk Management and Ethics Committee is undertaking a comprehensive system of internal audits and periodic assessments to ensure compliance with best practices. The Company has employed Walker Chandiok & Co. LLP, Chartered Accountants & M/s APAS & Co. LLP, Chartered Accountants, the Joint Statutory Auditors of the Company to report on the financial controls of the Company.

# 2. Principle wise (as per NVGs) BR Policy/Policies

The National Voluntary Guidelines on Social, Environmental and Economic Responsibilities of Business (NVGs) released by the Ministry of Corporate Affairs has adopted nine principles of Business Responsibility. These briefly are as follows:

| P1 | Business should conduct and govern themselves with Ethics, Transparency and Accountability                |
|----|---|
| P2 | Businesses should provide goods and services that are safe and contribute to sustainability throughout    |
|    | their life cycle  |
| Р3 | Businesses should promote the wellbeing of all employees  |
| P4 | Businesses should respect the interests of, and be responsive towards all stakeholders, especially those  |
|    | who are disadvantaged, vulnerable and marginalized  |
| P5 | Businesses should respect and promote human rights  |
| P6 | Business should respect, protect, and make efforts to restore the environment                             |
| P7 | Businesses when engaged in influencing public and regulatory policy, should do so in a responsible manner |
| P8 | Businesses should support inclusive growth and equitable development                                      |
| Р9 | Businesses should engage with and provide value to their customers and consumers in a responsible         |
|    | manner  |

#### Principle 2:

 List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities:

Varun Beverages Limited (VBL) is in the business of providing high quality food products to consumers such as carbonated, non-carbonated sweetened beverages, fruit juices and packaged drinking water with endeavor to make its business and ecosystem sustainable. The Company tries to embed the principles of sustainability into various stages of product, procurement of raw material, manufacturing of products, transportation of raw materials and supply of finished goods. In order to continuously reduce the Company environmental footprint, the Company is improving efficiencies, especially on critical resources such as water, fuel and energy, optimizing the resource consumption minimizing wastages including and plastic waste management, increasing green cover in manufacturing plants and also developing outside establishments. Our company has significantly reduced weight of the closure and preforms over the period of time to contribute towards environment sustainability. In some of our SKUs we have successfully reduced the weight of the preform and plastic closures in the range of 10-20% over last few years through various technological changes including usage of nitrogen in packaged drinking water. The Company has implemented the guidelines provided by international standards such as Environment Management System ISO 14001, OHSAS 18001 and moreover all our units are AIB and FSSC certified which is the world's most advanced stringent food safety management system accepted globally. Quality audits are regularly carried out at various locations to ensure all our food safety standards are being met. We have also implemented water consumption optimization measures and water recovery and reuse of the water across all plants and have appointed an independent agency TUV India Pvt. Limited to audit Company's water footprint assurance.

- 2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):
  - (a) Reduction during sourcing/production/ distribution achieved since the previous year throughout the value chain?

The Company follows number of key Environmental Indicators to monitor the efficiency and consumption of natural resources in manufacturing such as water consumption and recycling, fuel consumption,

energy consumption, raw materials yield and waste generation. The Company regularly track these consumption patterns of critical nature resources and also ensures improvement is achieved in the KPI's on sustainable ways. Through these initiatives, the Company has been able to increase its Energy Efficiency i.e. Litres of beverage produced per unit (in kWh) of electrical energy consumption in plants (excluding energy consumed for backward integration by 6.7% from 11.8 litre/kWh in CY20 to 12.6 litre/kWh in CY21; reduce the Carbon Intensity i.e. Grams of CO<sub>2</sub>e emission per litre of beverage produced during the year (including Scope 1, Scope 2 and Scope 3) from 354.87grams/litre in CY20 to 324.37 grams/litre in CY21 and reduce the Water Usage Ratio i.e. Litres of water consumed per litre of beverage produced from 1.92 in CY20 to 1.89 in CY21.

(b) Reduction during usage by consumers (energy, water) has been achieved since the previous year?

Reduction in Greenhouse Gases emission which is measured in units of carbon dioxide. Number of initiatives have already been implemented across various units. Some of the key improvements done are use of fuels like CNG operated boiler, biomass for steam generation, usage of renewable (Solar/Wind) energy and optimizing the water requirements at manufacturing plants. Company monitors the energy consumption and carbon footprint of warehouses and vehicles being deployed by third parties and their respective emissions are audited by third party and reported in the annual report.

3. Does the Company have procedures in place for sustainable sourcing (including transportation)? Yes

(a) If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

With a responsible supply chain, the Company has developed a comprehensive and dynamic supply chain model, to engage with its suppliers and transporters on material aspects. Regular capacity building and assessments are carried out for key suppliers. Company monitors the energy consumption and carbon footprint of warehouses and vehicles being deployed by third parties and their respective emissions are audited by third party and reported in the annual report.

- 4. Has the Company taken any steps to procure goods and services from local and small producers, including communities surrounding their place of work? Yes
  - (a) If yes, what steps have been taken to improve the capacity and capability of local and small vendors?

The Company has tried to create new paths and provide opportunities to the new startups and small entrepreneurs and establish local vendors by uplifting their skills in effective manner. The Company also strive to provide opportunities in distressed areas and has devised unique models for empowerment of people in such areas. These sort of interventions not only improve the efficiency and enhance productivity but also contribute to substantial employment creation in communities surrounding the workplaces.

 Does the company have a mechanism to recycle products and waste? If yes, what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so.

Yes. The Company is committed towards reduction of environmental footprint of its products, waste and packaging materials. The Company focuses on

the 3R's: REDUCE, RECYCLE and RECOVER, Such practices include segregation of different types of waste material so as to regulate the recyclability, antilitter and recyclable marks on products to remind consumers to dispose in a safe and environment friendly way. As more than 80% of the Company's product mix consist of PET bottles, it has engaged GEM Enviro Management Pvt. Ltd. (a Delhi-based Central Pollution Control Board ("CPCB") recognized PRO (Producer Responsible Organization)), for phased implementation of 100% recycling of used PET bottles through collection from end-users by placing dustbins / reverse vending machines, direct collection from Institutions (Hotels, Banquet Halls, Exhibitions, etc.), and spreading awareness through workshops.. The Company also supports initiatives to recycle materials and has installed small machineries for shredding the waste which helps to minimize the volume and also ease the transportation to the recycling agencies. Majority of the waste generated at plant levels are recyclable i.e. plastic bottles, metal scrap, broken glass, empty bags, cartons etc. One of the major product segment consists of returnable glass bottle which after consumption of its product is returned and reused after taking care of thorough food safety. Recycling of plastic waste is >10%. During CY21, 70% of plastic waste was recycled per Kg of PET sold in finished products.

# Principle 3:

| SI. | Particulars   | Details  |
|-----|---|--|
| No. |   |  |
| 1.  | Please indicate the total number of employees   | 7,965 permanent employees as on December 31, 2021 (only for India) |
| 2.  | Please indicate the total number of employees hired on temporary/contractual/casual basis   | 11,483 employees as on December 31, 2021 (only for India)          |
| 3.  | Please indicate the number of permanent women employees   | 200 employees as on December 31, 2021                              |
| 4.  | Please indicate the number of permanent employees with disabilities   | 2 employees as on December 31, 2021                                |
| 5.  | Do you have an employee association that is recognized by management  | Yes  |
| 6.  | What percentage of your permanent employees are members of this recognized employee association?  | 21.23%   |
| 7.  | Please indicate the number of complaints relating to child labour, forced labour, involuntary labour, sexual harassment, discriminatory employment in the last financial year and pending, as on the end of the Financial Year          |  |
| 8.  | What percentage of your employees were given safety & skill upgradation training in the last year?  (a) Permanent Employees  (b) Permanent Women Employees  (c) Casual/Temporary/Contractual Employees  (d) Employees with Disabilities | Safety Training: 71%<br>Skill Upgradation Training: 51%            |

#### Principle 4:

| SI. | Particulars   | Details  |
|-----|---|--|
| No. |   |  |
| 1.  | Has the Company mapped its internal and external stakeholders?  | Yes. Details of Shareholders/Investors, Banks, Employees and Business Partners are available with the Company. |
| 2.  | Out of the above, has the Company identified the disadvantaged, vulnerable and marginalized stakeholders  | No   |
| 3.  | Are there any special initiatives taken by the Company to engage with<br>the disadvantaged, vulnerable, and marginalized stakeholders? If so,<br>provide details thereof, in about 50 words or so |  |

#### Principle 5:

| SI. | Particulars  | Details |
|-----|--|---------|
| No. |  |         |
| 1.  | Does the policy of the Company on human rights cover only the company or extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others? |         |
| 2.  | How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management?  |         |

# Principle 6:

 Does the policy related to Principle 6 cover only the company or extends to the Group/Joint Ventures/ Suppliers/Contractors/NGOs others.

The policy is applicable to VBL, Group and Contractors as protection of the environment, health and safety carries very high importance. The Company's EHS policy speaks about the best practices and offers safe and healthy operations for employees, contractors and visitors. Same is displayed in the form of posters and instructions. Having ISO 14001 and OHSAS 18001 certifications at many plants demonstrates VBL's commitment towards reaching the industries best levels for environment sustainability. We also communicate our EHS policies and other requirements to suppliers and customers. The Business Responsibility head of the Company reviews the health safety metrics such as count of incidents, loss time, fatalities, training hours, etc. on the regular basis and takes appropriate action wherever needed.

2) Does the company have strategies/initiatives to address global environmental issues such as climate change, global warming, etc.? If yes, please give hyperlink for webpage etc.

Yes. The Company is committed to reach the industry best standards in terms of water usage, fuel and energy consumption, GHG emission as well as other environmental parameters. We also encourage and use clean energy to ensure less dependence on fossil fuel by implementing solar panels, wind mills etc. The performance progress is documented at plant and Corporate level which is reviewed at regular intervals. For hyperlink, please refer Section D of BRR.

# 3) Does the Company identify and assess potential environmental risks?

Yes. Identification of potential environment risk is part of our Environment management system- ISO 14001 which is implemented in most of our plants to assess impact on environment. All the potential environment risk are mitigated by adapting effective control measures. VBL has engaged DQS India for conducting carbon footprint assessment and verification across all locations (manufacturing plants, warehouses, corporate office, sales offices) in India covering Scope 1, 2 & 3 emission sources. DQS India is the Indian subsidiary of DQS Holding GmbH, one of the leading Management System Certification, Assessment & Training organizations globally.

4) Does the company have any project related to Clean Development Mechanism? If so, provide details thereof, in about 50 words or so. Also, if Yes, whether any environmental compliance report is filed?

Yes. The Company has undertaken initiatives to reduce Carbon footprint through reduction in the amount of Greenhouse Gases emissions. Some of the key renewable energy projects contributing to GHG savings include installation and commissioning solar plant at the Company's Nuh and Greater Noida plant and other energy saving projects. Use of fuels like biomass for steam generation at number of plants. The Company files annual and other environment statements reports as per Pollution Control Board requirements.

5) Has the company undertaken any other initiatives on - clean technology, energy efficiency, renewable energy, etc. If yes, please give hyperlink for web page etc.

Yes. The Company is proactive in adopting new technologies that use cleaner fuels and forms of energy. Company has commissioned solar power at its manufacturing set up at Nuh, Greater Noida, Sandila, Sricity, Aurangabad and Pathankot and also redesigned the power generation units at many locations. In many of our facility(ies) we have started using clean fuel like PNG which is more environmental friendly. Manufacturing units also use latest automations, heat recoveries and modern technologies to be energy and cost efficient. For hyperlink, please refer Section D of BRR.

# 6) Are the Emissions/Waste generated by the company within the permissible limits given by CPCB/SPCB for the financial year being reported?

Yes. Our most of the Plants have installed online monitoring systems in Effluent Treatment Plant as well as Boiler emissions for all time compliance which is being monitored by CPCB on real time basis. All the hazardous waste goes to PCB approved land fill site on periodic basis.

 Number of show cause/legal notices received from CPCB/SPCB which are pending (i.e. not resolved to satisfaction) as on end of Financial Year.

Nil

# Principle 7:

| SI. | Particulars  | Details  |
|-----|--|--|
| No. |  |  |
| 1.  |  | Yes. The Company is a member of Federation of Indian Chambers of Commerce and Industry, PHD Chamber of Commerce and Industry, PET packaging Association for Clean Environment, The Associated Chambers of Commerce and Industry of India and Action Alliance for Recycling Beverage Cartons. |
| 2.  | for the advancement or improvement of public good? |  |

# Principle 8:

# Does the Company have specified programmes/ initiatives/projects in pursuit of the policy related to Principle 8? If yes, details thereof?

Yes. The Company do have various initiatives and programmes for community development and their wellbeing. Some of them are giving scholarship to school children especially for girls, providing reading material and stationery to poor children, providing fund for safe drinking water facility and wash rooms facilities, providing basic food safety and hygiene training and awareness to school children, pond cleaning in different villages, creating awareness for water conservation and prevention of water pollution along with rural and slum area development etc.

# 2. Are the programmes/projects undertaken through in-house team/own foundation/external NGO/ government structures/any other organization?

All the community development initiatives were undertaken by own foundation and often with the help of external agencies/ organizations.

# 3. Have you done any impact assessment of your initiative?

Yes. Informal feedback is being taken and frequent visits were carried out to establish impact of the initiatives and to re-establish that such initiatives are worth and effective. Though not mandatory under

the provisions of the Companies Act, 2013 but to follow the good governance practice, the Company is also exploring an external agency for doing an impact assessment of existing projects.

# 4. What is your Company's direct contribution to community development projects - Amount in INR and the details of the projects undertaken?

The Company has spent INR 67.54 million towards various development projects under environment protection, cleaning, availability of resources and community safety and wellbeing. In addition, the Company has significantly spent towards environment and community development by taking various initiatives like rain water harvesting via ponds development for effective recharging of rain water, creating awareness for water harvesting and water pollution, celebration of Sandi Bird festival, solar lights installation at villages, tree plantations in villages, Nukkad naatak for environment protection, providing clean water facility by installation of hand pumps and water coolers at schools and villages, driving Swachh Bharat Abhiyaan by involving villagers, promoting sports, blood donation and health checkup camps, driving food safety and personal hygiene sessions at schools and institutes, road safety awareness in community, books distribution and drawing competition in schools.

 Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words or so.

Yes. The Company ensures the community development initiative through internal tracking mechanisms and field visits. Informal feedbacks are also obtained from the community on such

initiatives for example, before cleaning of pond for rain water harvesting, community training and awareness sessions were executed on the topic of water conservation and water pollution prevention and not to dump trash in ponds so that ponds remain cleaned throughout year. It was noted that there was significant reduction in dumping trash in to ponds post training was imparted to villagers.

# Principle 9:

| SI.<br>No. | Particulars  | Details   |
|------------|--|---|
| 1.         | What percentage of customer complaints/consumer cases are pending as on the end of financial year?   | Out of the total 1,611 consumer complaints received through PepsiCo's customer care, we resolved 1,590 complaints during the year and 21 are pending.   |
|            |  | Out of the total 68 consumer cases outstanding at the start of the year, we resolved 9 cases and further 9 cases were added during the year i.e. 88.31% of consumer cases are pending before various consumer forums.   |
| 2.         | Does the company display product information on the product label, over and above what is mandated as per local laws?  | Yes. Apart from the product information as mandated by law, The Company provides following information on certain products / SKUs with regards to effective consumption and disposal of products – "shake well before use, Store away from direct sunlight in a cool place, Once open keep refrigerated and consume within 03 days, Recycle symbol, Serve chilled, Do not buy if pack is puffed, No added Preservatives". |
| 3.         | Is there any case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behavior during the last five years and pending as on end of financial year? If so, provide details thereof, in about 50 words or so. | There are no cases alleging unfair trade practice, irresponsible advertising and/ or anti-competitive behavior. VBL is guided by the PepsiCo's global policy on responsible advertising & marketing guidelines available at web link - https://www.pepsico.com/esgtopics-a-z/advertising-and-marketing-to-children-and-school-sales   |
|            |  | Further, regular trainings of VBL's employees are conducted to ensure compliance which is subject to audit by Business Responsibility Head.   |
| 4.         | Did your company carry out any consumer survey/consumer satisfaction trends?   | As per the arrangement with PepsiCo, brand development and product/packaging innovation is PepsiCo's responsibility and VBL is guided by PepsiCo's global policies on nutrition criteria in the products available at the web link - https://www.pepsico.com/esg-topics-a-z/sugar   |

For and on behalf of the Board of Directors
For Varun Beverages Limited

Ravi Jaipuria

Chairman DIN: 00003668

Date: February 3, 2022 Place: Gurugram

# **Independent Auditor's Report**

# To the Members of Varun Beverages Limited

# Report on the Audit of the Consolidated Financial Statements

# **Opinion**

- 1. We have audited the accompanying consolidated financial statements of Varun Beverages Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), as listed in Annexure I, which comprise the Consolidated Balance Sheet as at 31 December 2021, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
- In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of one of the joint auditors, APAS & Co LLP and other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the consolidated state of affairs of the Group as at 31 December 2021, and their consolidated profit (including other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

# **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') and the relevant provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained and the audit evidence obtained by one of the joint auditors, APAS & Co LLP and other auditors in terms of their reports referred to in paragraph 15 of the Other Matters section below, is sufficient and appropriate to provide a basis for our opinion.

# **Key Audit Matters**

- 4. Key audit matters are those matters that, in our professional judgment and based on the consideration of the reports of one of the joint auditors, APAS & Co LLP and other auditors on separate financial statements of the subsidiaries, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
- We have determined the matters described below to be the key audit matters to be communicated in our report.

#### 

# Key audit matter

The Group carries goodwill and franchisee rights as intangible assets having indefinite life amounting to ₹ 242.30 million and ₹ 5,386.33 million respectively, that are required to be tested for impairment by the management on an annual basis in accordance with Ind AS 36, Impairment of Assets.

The aforesaid assessment of the impairment testing involves significant judgement around the determination of the recoverable amounts, being the higher of value in use and fair value less costs of disposal. Recoverable amounts are based on management's view of the future cash flows and prospects of the business, the appropriate discount rates and other industry specific risk factors.

The key judgements in determining the recoverable amounts relates to the forecast of future cash flows based on strategy using macroeconomic assumptions such as industry growth, inflation and expected growth in market share, capital expenditure and working capital requirements, among others.

Changes in the management forecasts or assumptions can impact the assessment of the discounted cash flows.

Considering the materiality of the amount involved and significant degree of judgement and subjectivity involved in the estimates and key assumptions used in determining the forecasted cash flows used in the impairment evaluation, which are dependent on current and future economic factors and trading conditions varying for different economic and geographical territories, impairment assessment of the Intangibles assets and Goodwill was determined as a key audit matter.

# How our audit addressed the key audit matter

- Assessed the process by which management prepared its cash flow forecasts and held discussions with management to understand the assumptions used and estimates made by them for determining such projections;
- Tested the design and operating effectiveness of internal controls over such identification and impairment test procedures;
- Assessed the appropriateness of the Group's accounting policies, including those relating to recognition, measurement and impairment of intangibles by comparing with the applicable Ind AS;
- Reviewed the valuation report obtained by the management from an independent valuer and assessed the professional competence, skills and objectivity for performing the required valuations;
- Assessed the appropriateness of the significant assumptions as well as the Group's valuation model with the support of auditor's valuation specialists, who assess the reasonableness of assumptions used and valuation methodology applied relating to discount rate, risk premium, industry growth rate etc. This included a discussion of the expected development of the business and results as well as of the underlying assumptions used with those responsible for the planning process;
- Assessed the robustness of financial projections prepared by the management by comparing projections for previous financial years with actual results realised and discussed significant deviations, if any, with the management;
- Tested mathematical accuracy of the projections and performed a sensitivity analysis for reasonably possible changes in the sales growth, discount rate applied and the long-term growth rate; and
- Evaluated the adequacy and appropriateness of disclosures made by the Group in the consolidated financial statements, as required by the applicable provisions of the Act and the Ind AS

# Key audit matter

# Claims, Appeals and Litigations - provisions and contingent liabilities

(Refer note 44 to the consolidated financial statements for the amounts of contingent liabilities)

The Group is involved in various direct, indirect tax and other claims, appeals and litigations (hereafter, referred to as "Matters") that are pending with different statutory authorities and judicial courts. The management exercises significant judgement for determining the need for and the amount of provisions, for any liabilities, arising from these matters.

This judgement is dependent on a number of significant assumptions and evaluations which involves interpreting the various applicable rules, regulations, practices and considering precedents in the various jurisdictions including the opinions received from various legal counsel.

This matter is considered as a key audit matter, in view of the uncertainty regarding the outcome of these matters, the significance of the amounts involved and the subjectivity involved in management's judgement as to whether any amount should be recognised as a provision or be disclosed or not as a contingent liability in the consolidated financial statements

# How our audit addressed the key audit matter

Our audit procedures included, but were not limited to, the following:

- Assessed the appropriateness of the Group's accounting policies relating to provisions and contingent liabilities with the applicable accounting standards;
- Assessed the Group's process and the underlying controls for identification of the pending matters and completeness for financial reporting and also for monitoring of significant developments in relation to such pending matters;
- Assessed the management's assumptions and estimates in respect of matters, including the liabilities or provisions recognised or contingent liabilities disclosed in the consolidated financial statements. This involved assessing the probability of an unfavorable outcome of a given proceeding and the reliability of estimates of related amounts based on the various legal counsel opinions received by the Group;
- Recomputed the arithmetical accuracy of the underlying calculations supporting the provisions recorded from the supporting evidences including the correspondence with various authorities;
- Assessed the management's conclusions through understanding relevant judicial precedents in similar cases and the applicable rules and regulations and through a discussion with Company's legal department and legal counsels appointed by the Company;
- Obtained legal opinions and confirmation on completeness from the Group's external legal counsels, where appropriate;
- Engaged auditor's experts to gain an understanding of the current status of matters and changes in the disputes, if any, through discussions with the management and by reading external advice received by the Group, where relevant, to validate management's conclusions; and
- Assessed the appropriateness of the Group's description of the accounting policy, disclosures related to matters and whether these are adequately presented in the consolidated financial statements.

The following key audit matter with respect to the audit opinion on the financial statements of Varun Beverages Zimbabwe (Private) Limited, a subsidiary of the Holding Company, has been reported by the component auditor vide its report dated 21 January 2022 and has been reproduced by us as under:

#### Key audit matter

# Hyperinflationary accounting for Varun Beverages Zimbabwe (Private) Limited ("VBZL"), a subsidiary

(Refer note 3(j) for accounting policies and note 40 to the consolidated financial statements)

During the year ended December 2019, the Reserve Bank of Zimbabwe introduced Zimbabwean Dollar ("ZMD/ RTGS Dollar") as the local currency which was adopted by VBZL as its functional currency. Further, the Zimbabwean economy has been classified as hyperinflationary in accordance with the factors and characteristics of a hyperinflationary economy as described in Ind AS 29 'Financial Reporting in Hyper-Inflationary Economies' ("Ind AS 29") with effect from 01 July 2019. Consequently, for the year ended 31 December 2021, the management has prepared the financial statements of VBZL, based on the restatement principles of Ind AS 29.

In view of the significance of the balances, transactions, the complexity and subjectivity in application of principles of Ind AS 29, the matter has been determined to be a key audit matter.

# How our audit addressed the key audit matter

Our key procedures included, but were not limited, to the following:

- Assessed the management's processes for selecting appropriate accounting policies and for implementing Ind AS 29, including their testing for the indicators of a hyperinflationary economy on the Zimbabwean economy and tested the operating effectiveness of controls implemented by management;
- Reviewed the computations prepared by management for Ind AS 29, including evaluations of the rationale for the economic indicators included (e.g. the inflation rate, cumulative inflation rate, consumer price indices from various sources) and tested the source of data and key assumptions used;
- Compared the assumptions used to select externally available industry, financial and economic data;
- Assessed whether the inflation index applied to restate for the effects of hyperinflation is appropriate and based on recognised official indexes;
- Performed sensitivity analysis for reasonably possible changes in the key assumptions;
- Assessed whether the accounting treatment applied for all the elements of the financial statements are in accordance with the requirements of Ind AS 29;
- Reviewed the regulatory pronouncements regarding the country being determined hyperinflation and the pertaining inflation rates and economic indicators prevailing in the country thereon; and
- Assessed the appropriateness of the VBZL's description of the accounting policy and adequacy of related disclosures in the separate financial statements of VBZL.

# Information other than the Consolidated Financial Statements and Auditor's Report thereon

6. The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Report on Corporate Governance and Director's Report, but does not include the consolidated financial statements and our auditor's report thereon. Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise

appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

- The accompanying consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. The Holding Company's Board of Directors are also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of consolidated Ind AS financial statements. Further, in terms of the provisions of the Act, the respective Board of Directors of the companies included in the Group, are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. These financial statements have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.
- 8. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

 Those respective Board of Directors are also responsible for overseeing the financial reporting process of the companies included in the Group.

# Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

- 10. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
- 11. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
  - Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
  - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;
  - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
  - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists

related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern; and

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the financial statements, of which we are the independent auditors. For the other entities included in the financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.
- 12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- 13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- 14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should

not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Other Matter**

15. We did not audit the financial statements of 7 subsidiaries, whose financial statements reflects total assets of ₹ 22,792.45 million and net assets of ₹ 11,579.00 million as at 31 December 2021, total revenues of ₹ 26,941.75 million and net cash inflows amounting to ₹ 583.75 million for the year ended on that date, as considered in the consolidated financial statements. Out of the above, the financial statements of one subsidiary included in the consolidated financial statements whose financial statement reflect total assets of ₹ 1,502.08 million and net assets of ₹ 887.87 million as at 31 December 2021, total revenues of ₹ 1,642.19 million and net cash inflows amounting to ₹ 68.19 million for the year ended on that date, as considered in the consolidated financial statements have been audited by one of the joint auditors, APAS & Co LLP. These financial statements have been audited by APAS & Co LLP and other auditors whose reports have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-section (3) of section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, are based solely on the reports of APAS & Co LLP and the other auditors.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matters with respect to our reliance on the work done by and the reports of APAS & Co LLP and the other auditors.

# Report on Other Legal and Regulatory Requirements

16. As required by section 197(16) of the Act, based on our audit and on the consideration of the reports of APAS & Co LLP, referred to in paragraph 15, on separate financial statements of the subsidiaries we report that the Holding Company and one subsidiary company covered under the Act paid remuneration to their respective directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act. Further, we report that the provisions of section 197 read with Schedule V to the Act are not applicable to six subsidiary companies, since none of such companies is a public company as defined under section 2(71) of the Act.

- 17. As required by section 143 (3) of the Act, based on our audit and on the consideration of the reports of APAS & Co LLP and other auditors on separate financial statements and other financial information of the subsidiaries, we report, to the extent applicable, that:
  - a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements:
  - b) in our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of APAS & Co LLP and the other auditors:
  - c) the consolidated financial statements dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements:
  - d) in our opinion, the aforesaid consolidated financial statements comply with Ind AS specified under section 133 of the Act;
  - e) on the basis of the written representations received from the directors of the Holding Company and taken on record by the Board of Directors of the Holding Company, and the report of APAS & Co LLP, the statutory auditors of a subsidiary company covered under the Act, none of the directors of the Group companies covered under the Act, are disqualified as on 31 December 2021 from being appointed as a director in terms of section 164(2) of the Act;
  - with respect to the adequacy of the internal financial controls with reference to the consolidated financial statements of the Holding Company, and its subsidiary company covered under the Act, and the operating effectiveness of such controls, refer to our separate report in 'Annexure II'; and
  - g) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to

the explanations given to us and based on the consideration of the report of one of the joint auditors. APAS & Co LLP and the other auditors on separate financial statements as also the other financial information of the subsidiaries:

- the consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group as detailed in Note 44 to the consolidated financial statements;
- provision has been made in these consolidated financial statements, as required under the applicable law or Ind AS, for material foreseeable losses, on long-term contracts including derivative contracts, as detailed in note 26 to the consolidated financial statements:
- iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company, and its subsidiary company covered under the Act, during the year ended 31 December 2021; and
- iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these consolidated financial statements. Hence, reporting under this clause is not applicable.

# **Annexure II**

Independent Auditor's Report on the internal financial controls with reference to consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

 In conjunction with our audit of the consolidated financial statements of Varun Beverages Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group') as at and for the year ended 31 December 2021, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary company, which are companies covered under the Act, as at that date.

# Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2 The respective Board of Directors of the Holding Company and its subsidiary company, which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to consolidated financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

# Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Consolidated Financial Statements

3. Our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary company, as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note issued by the ICAI. Those

- Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.
- Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.
- 5. We believe that the audit evidence we have obtained and the audit evidence obtained by one of the joint auditors, APAS & Co LLP in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary company as aforesaid.

# Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance

with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

# Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

# **Opinion**

In our opinion and based on the consideration of the reports of APAS & Co LLP on internal financial controls with reference to financial statements of the subsidiary company, the Holding Company and its subsidiary company which is company covered under the Act, have in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 December 2021, based on the internal financial controls with reference to consolidated financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

# Other Matter

We did not jointly audit the internal financial controls with reference to consolidated financial statements in so far as it relates to a subsidiary company, which is a company covered under the Act, whose financial statements reflect total assets of ₹ 1,502.08 million and net assets of ₹ 887.87 as at 31 December 2021, total revenues of ₹ 1.642.19 million and net cash inflows amounting to ₹ 68.19 million for the year ended on that date, as considered in the consolidated financial statements. The internal financial controls with reference to financial statements in so far as it relates to such subsidiary company have been audited by one of the joint auditors, APAS & Co LLP whose report have been furnished to us by the management and our report on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements for the Holding Company and its subsidiary company, as aforesaid, under Section 143(3)(i) of the Act in so far as it relates to such subsidiary company is based solely on the reports of the APAS & Co LLP. Our opinion is not modified in respect of this matter with respect to our reliance on the work done by and on the reports of APAS & Co LLP.

# 1. Corporate information

Varun Beverages Limited ("VBL" or "the Company" or "Holding Company" or "Parent Company") is a public limited Company domiciled in India. Its registered office is at F-2/7, Okhla Industrial Area, Phase-I, New Delhi- 110 020. The Company's equity shares are listed on Bombay Stock Exchange Limited (BSE) and National Stock Exchange of India (NSE). The Company was incorporated on 16 June 1995 under the provisions of the Companies Act 1956.

The Company together with its subsidiaries and associates (hereinafter, "the Group") is engaged in manufacturing, selling, bottling and distribution of beverages of Pepsi brand in geographically pre-defined territories of India, Sri Lanka, Nepal, Zambia, Morocco and Zimbabwe as per franchisee agreement with PepsiCo India Holdings Private Limited ("PepsiCo India") and its affiliates. The sale of Group's products is seasonal.

# 2. Basis of preparation

These Consolidated Financial Statements ("the CFS") of the Group have been prepared in accordance with the Indian Accounting Standards ("Ind AS") and comply with requirements of Ind AS, stipulations contained in Schedule III (revised) as applicable under Section 133 of the Companies Act, 2013 ("the Act"), the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other pronouncements/ provisions of applicable laws.

These CFS have been prepared using the significant accounting policies and measurement basis summarised below. These accounting policies have been used consistently throughout all periods presented in these consolidated financial statements except as mentioned in note 3 (b) below.

The CFS have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value:

- i. Derivative financial instruments;
- ii. Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments);
- iii. Defined benefit plans- plan assets measured at fair value; and

iv. Share based payments;

The Group presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current if it satisfies any of the following conditions:

- Expected to be realised or intended to sold or consumed in normal operating cycle;
- ii. Held primarily for the purpose of trading;
- iii. Expected to be realised within twelve months after the reporting period; or
- iv. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current if it satisfies any of the following conditions:

- It is expected to be settled in normal operating cycle:
- ii. It is held primarily for the purpose of trading;
- iii. It is due to be settled within twelve months after the reporting period; or
- iv. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as noncurrent.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and its realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

All amounts disclosed in the CFS and notes have been rounded off to the nearest million as per the requirement of Schedule III to the Act, unless otherwise stated.

# 2.1. Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company, its subsidiaries and associate. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- a) The contractual arrangement with the other vote holders of the investee;
- b) The rights arising from other contractual arrangements;
- The Group's voting rights and potential voting rights; and
- d) The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated

financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

An associate is an entity over which the Group has significant influence, i.e., the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended 31 December. When the end of the reporting period of the parent is different from that of a subsidiary/ associate, the subsidiary/ associate prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

The following consolidation procedures are adopted:

# Subsidiary:

- a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date;
- b) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill; and

c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Ind AS 12 'Income Taxes' applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of Other Comprehensive Income ("OCI") are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary;
- Derecognises the carrying amount of any noncontrolling interests;
- Derecognises the cumulative translation differences recorded in equity;
- Recognises the fair value of the consideration received;
- Recognises the fair value of any investment retained;
- Recognises any surplus or deficit in Consolidated Statement of Profit and Loss;
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

#### Associates:

Interests in associates are accounted for using the equity method, after initially being recognised at cost in the consolidated balance sheet. When a member of the Group transacts with an associate of the Group, profits and losses from transactions

with the associate are recognised in the CFS only to the extent of interests in the associate that are not related to the Group.

The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment.

The Consolidated Statement of Profit and Loss reflects the Group's share of the results of operations of the associate. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate. The aggregate of the Group's share of profit or loss of an associate is shown on the face of the Consolidated Statement of Profit and Loss.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, and then recognises the loss as 'Share of profit of an associate' in the Consolidated Statement of Profit and Loss.

Upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant and the fair value of the retained investment and proceeds from disposal is recognised in the Consolidated Statement of Profit and Loss.

On acquisition of control over previously owned associates, the Group re-measures its previously held equity interest in the associates at the acquisition date fair value and the difference, if any, between the carrying amount and the fair value is recognised in the Consolidated Statement of Profit and Loss.

Goodwill is generally computed as the difference between the sum of consideration transferred (measured at the fair value) the non-controlling interest ("NCI") in the acquire and the net of the acquisition date amounts of the identifiable assets acquired and the liabilities assumed.

# 3. Summary of significant accounting policies

#### a) Fair value measurements

The Group measures financial instruments at fair value which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- **Level 3 -** Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred

between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

# b) Revenue recognition

With effect from 01 January 2019, the Group has adopted Ind AS 115, 'Revenue from Contracts with Customers' using cumulative effect method which does not require comparative information to be restated in the consolidated financial statements. The standard is applied retrospectively only to contracts that were not completed as at the date of initial application (i.e. 01 January 2019). There is no impact on retained earnings as at 01 January 2019. Moreover, the application of Ind AS 115 did not have any impact on recognition and measurement of revenue from operations and other related items in the consolidated financial statements of the Group.

Under Ind AS 115, revenue is recognised upon transfer of control of promised goods or services to customers at an amount that reflects the consideration to which the Group is expected to be entitled to in exchange for those goods or services. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price allocated to that performance obligation as per contractually agreed terms with the customers. The transaction price of goods sold and services rendered is net of various discounts and schemes offered by the Group as part of the contract. Revenue is recorded provided the recovery of consideration is probable and determinable. Revenue from sale of goods and services transferred to distributors/ intermediaries are recognised at a point in time.

#### Sale of goods

Revenue from the sale of manufactured and traded goods products is recognised upon transfer of control of products to the customers which coincides with their delivery to customer and is measured at fair value of consideration received/receivable, net of discounts, amount collected on behalf of third parties and applicable taxes.

#### Interest income

Interest income is recognised on time proportion basis taking into account the amount outstanding and rate applicable. For all debt instruments measured at amortised cost, interest income is recorded using the effective interest rate ("EIR"). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial assets. Interest income is included in finance income in the Consolidated Statement of Profit and Loss.

#### **Dividends**

Dividend is recognised when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

#### Services rendered

Revenue from service related activities is recognised as and when services are rendered and on the basis of contractual terms with the parties.

# c) Inventories

Inventories are valued as follows:

- i. Raw materials, components and stores and spares: At lower of cost and net realisable value. Cost of inventory comprises all costs of purchases, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition and is determined on a moving weighted average cost basis. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.
- ii. Work-in-progress: At lower of cost and net realisable value. Cost for this purpose includes material, labour and appropriate allocation of overheads including depreciation. Cost is determined on a weighted average basis.

# iii. Intermediate goods/ Finished goods:

- a) Self-manufactured At lower of cost and net realisable value. Cost for this purpose includes material, labour and appropriate allocation of overheads. Cost is determined on a weighted average basis.
- b) **Traded -** At lower of cost and net realisable value. Cost of inventory comprises all costs of purchases, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition and is determined on a weighted average cost basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. Provision for obsolescence is determined based on management's assessment and is charged to the Consolidated Statement of Profit and Loss.

# d) Property, plant and equipment

# Measurement at recognition:

Property, plant and equipment and capital work in progress is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

Cost comprises the purchase price, borrowing costs if capitalization criteria are met and any directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. The cost of an item of property, plant and equipment is recognised as an asset if, and only if:

- a. it is probable that future economic benefits associated with the item will flow to the entity;
   and
- b. the cost of the item can be measured reliably.

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increased the future benefits from the existing asset beyond its previously assessed

standard of performance. All other expenses on existing assets, including day- to- day repair and maintenance expenditure and cost of replacing parts, are charged to the Consolidated Statement of Profit and Loss for the period during which such expenses are incurred. Expenditure directly relating to construction activity is capitalized. Indirect expenditure incurred during construction period is capitalized as a part of indirect construction cost to the extent the expenditure is related to construction or is incidental thereto. Other indirect costs incurred during-the construction periods which are not related to construction activity nor are incidental thereto are charged to the Consolidated Statement of Profit and Loss.

Value for individual assets acquired for a consolidated price, the consideration is apportioned to the various assets on a fair value basis as determined by competent valuers.

#### Depreciation:

The management has estimated, supported by technical assessment, the useful lives of property, plant and equipment. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

| Description               | Useful lives (upto) |
|---------------------------|---------------------|
| Leasehold land            | Over lease period   |
| Buildings - factory       | 20-50 years         |
| Buildings - others        | 59-60 years         |
| Plant and equipment       | 4-20 years          |
| Furniture and fixtures    | 5-10 years          |
| Delivery vehicles         | 4-10 years          |
| Vehicles (other than      | 4-7 years           |
| delivery vehicles)        |                     |
| Office equipment          | 4-10 years          |
| Computer equipment        | 3-5 years           |
| Containers                | 4-10 years          |
| Post-mix vending machines | 7-10 years          |
| and refrigerators         |                     |
| (Visi-Coolers)            |                     |
| Power generating assets   | 22 years            |

Freehold land is not depreciated.

Depreciation on property, plant and equipment is provided over the useful life of assets as specified in Schedule II to the Act except where the management, based on independent technical assessment, depreciates certain assets are over estimated useful lives which are different from the useful life prescribed in the Schedule II to the Act.

The Group has used the remaining useful lives to compute depreciation on its property, plant and equipment, acquired under the business transfer agreement based on external technical evaluation.

Depreciation on property, plant and equipment which are added/disposed off during the year is provided on a pro-rata basis with reference to the month of addition/deletion.

The Group has technically evaluated all the property, plant and equipment for determining the separate identifiable assets having different useful lives under the component approach. On technical evaluation of all separate identifiable components, the management is of the opinion that they do not have any different useful life from that of the principal asset.

In case of revaluation of leasehold land, the resulting amortisation of the total revalued amount is expensed off to the Consolidated Statement of Profit and Loss.

# Derecognition:

An item of property, plant and equipment and any significant part initially recognised is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds or amount of security deposit adjusted and the carrying amount of the asset) is included in the Consolidated Statement of Profit and Loss when the asset is derecognised.

Breakages of containers are adjusted on 'first bought first broken' basis, since it is not feasible to specifically identify the broken containers in the fixed assets records.

# e) Intangible assets

# Intangible assets are initially recognised at:

- In case the assets are acquired separately, then at cost,
- b. In case the assets are acquired in a business combination or under any asset purchase agreement, at fair value.

Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

Intangible assets with finite useful life are assessed for impairment whenever there is an indication that the intangible assets may be impaired.

Amortisation of other intangible assets are amortised on a straight-line basis using the estimated useful life as follows:

| Intangible assets     | Useful lives (years) |
|-----------------------|----------------------|
| Software              | 3-5 Years            |
| Market infrastructure | 5 Years              |
| Distribution network  | 8 Years              |

The franchise rights and trademarks acquired as part of business combinations normally have a remaining legal life of not exceeding ten years but is renewable every ten years at little cost and is well established. The Group intends to renew these rights continuously and evidence supports its ability to do so. An analysis of product life cycle studies, market and competitive trends provides evidence that the product will generate net cash inflows for the Group for an indefinite period. Therefore, these rights have been carried at cost without amortisation, but is tested for impairment annually, at the cashgenerating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

# f) Borrowing costs

Borrowing costs include interest, amortisation of ancillary costs incurred in connection with the arrangement of borrowings and exchange

differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized, if any. All other borrowing costs are expensed to the Consolidated Statement of Profit and Loss in the period in which they occur.

#### g) Leases

#### The Group as a lessee

The Group enters into an arrangement for lease of buildings and equipments. Such arrangements are generally for a fixed period but may have extension or termination options. In accordance with Ind AS 116 – Leases, at inception of the contract, the Group assesses whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to control the use an asset (the underlying asset) for a period of time in exchange for consideration'.

To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- The contract involves the use of an identified asset - this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- The Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- The Group assesses whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use. At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for the leases of land and buildings in which it is a lessee, the Group has elected not to separate

non-lease components and account for the lease and non-lease components as a single lease component.

# Measurement and recognition of leases as a lessee

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses (unless such right of use assets fulfills the requirements of Ind AS 40 - Investment Property and is accounted for as there under), if any and adjusted for any re-measurement of the lease liability. The right-of-use asset is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the Consolidated Statement of Profit and Loss.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments, including in-substance fixed payments;
- Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;

- Amounts expected to be payable under a residual value guarantee; and
- The exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest rate method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero, as the case may be.

The Group presents right-of-use assets that do not meet the definition of investment property and lease liabilities as a separate line item in the standalone financial statements of the Group.

The Group has elected not to apply the requirements of Ind AS 116 - Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

# The Group as a lessor

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

The Group recognizes lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'other income'.

The accounting policies applicable to the Group as a lessor in the comparative period were not different from Ind AS 116 - Leases. However, when the Group was an intermediate lessor the sub-leases were classified with reference to the underlying asset.

The Group recognizes lease payments received under operating leases as income on a straight-line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Group is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

### h) Employee benefits

# Contribution to provident and other funds

Retirement benefit in the form of provident fund is a defined contribution scheme. The Group has no obligation, other than the contribution payable to the provident fund. The Group recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the

balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

### Gratuity

Gratuity is a defined benefit scheme. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method. The Group recognises termination benefit as a liability and an expense when the Group has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the termination benefits fall due more than twelve months after the balance sheet date, they are measured at present value of future cash flows using the discount rate determined by reference to market yields at the balance sheet date on government bonds.

Gratuity liability is accrued on the basis of an actuarial valuation made at the end of the year. The actuarial valuation is performed by an independent actuary as per projected unit credit method, except for few subsidiary companies where gratuity liability is provided on full cost basis.

Re-measurements, comprising actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in Consolidated Statement of Profit and Loss on the earlier of:

- The date of the plan amendment or curtailment,
  and
- The date that the Group recognises related restructuring cost

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset.

The Group recognises the following changes in the net defined benefit obligation as an expense in the Consolidated Statement of Profit and Loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

# Compensated absences

The Group treats accumulated leave expected to be carried forward beyond twelve months, as longterm employee benefit which are computed based on the actuarial valuation using the projected unit credit method at the year end except for few subsidiary companies where accumulated leave liability is provided on full cost basis. Actuarial gains/ losses are immediately taken to the Consolidated Statement of Profit and Loss and are not deferred. The Group presents the leave as a current liability in the balance sheet to the extent it does not have an unconditional right to defer its settlement for twelve months after the reporting date. Where Group has the unconditional legal and contractual right to defer the settlement for a period beyond twelve months, the balance is presented as a noncurrent liability.

Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

All other employee benefits payable/available within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, bonus, etc. are recognised in the Consolidated Statement of Profit and Loss in the period in which the employee renders the related service.

# i) Share-based payments

Employees (including senior executives) of the Group receive remuneration in the form of share-based payments, whereby employees render

services as consideration for equity instruments, which are classified as equity-settled transactions.

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. That cost is recognised as an employee benefit expense with a corresponding increase in 'Share option outstanding account' in other equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the terms of an equity-settled award are modified, the minimum expense recognised is the expense had the terms had not been modified, if the original terms of the award are met. An additional expense is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification. Where an award is cancelled by the Group or by

the counterparty, any remaining element of the fair value of the award is expensed immediately through the Consolidated Statement of Profit and Loss.

# j) Foreign currency transactions and translations

The Group's consolidated financial statements are presented in INR, which is also the parent company's functional currency. Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the Group uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

Exchange differences arising on the settlement of monetary items or on restatement of the Company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they arise.

Exchange differences pertaining to long-term foreign currency monetary items obtained or given on or after 01 January 2017: Exchange differences arising on conversion of long term foreign currency monetary items obtained or given is recorded in the Consolidated Statement of Profit and Loss.

# **Group companies**

On consolidation, the assets and liabilities of foreign operations, whose functional currency is not the currency of a hyperinflationary economy, are translated into INR at the rate of exchange prevailing at the reporting date and their statements of profit and loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions.

However, all amounts (i.e. assets, liabilities, equity items, income and expenses) of foreign operation, whose functional currency is the currency of a hyperinflationary economy, are translated into INR at the rate of exchange prevailing at the reporting date and the comparative figures shall be those that were presented as current year amounts in the relevant prior year financial statement (i.e. not adjusted for subsequent changes in the price level or subsequent changes in exchange rates).

The exchange differences arising on translation for consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in profit or loss.

# Financial statements of entity whose functional currency is the currency of a hyperinflationary economy.

The financial statements of an entity whose functional currency is the currency of a hyperinflationary economy is stated in terms of the measuring unit current at the end of the reporting period.

Monetary items are not restated because they are already expressed in terms of the monetary unit current at the end of the reporting period.

Non-monetary items, which are carried at amounts current at the end of the reporting period, such as net realisable value and fair value, are not restated. All other nonmonetary assets and liabilities which are carried at cost or cost less depreciation are restated by applying to its historical cost and accumulated depreciation the change in a general price index from the date of acquisition to the end of the reporting period. However, where detailed records of the acquisition dates are not available or capable of estimation, in those cases, restatement is computed based on independent professional assessment or by using the best estimate, i.e., by capturing the movements in the exchange rate between the functional currency and a relatively stable foreign currency.

Statement of profit and loss are expressed in terms of the measuring unit current at the end of the reporting period. Therefore all amounts are restated by applying the change in the general price index from the dates

when the items of income and expenses were initially recorded in the financial statements.

At the beginning of the first period of application, the components of shareholder's equity, excluding retained earnings and any revaluation surplus, are restated by applying a general price index from the dates on which the items were contributed or otherwise arose. Restated retained earnings are derived from all the other amounts in the restated statement of financial position.

The gain or loss on the net monetary position, being the difference resulting from the restatement of non-monetary assets, owners' equity and items in the statement of profit and loss and the adjustment of index linked assets and liabilities, is recognised in the consolidated statement of profit and loss.

### k) Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 'Income Taxes' and Ind AS 19 'Employee Benefits' respectively. When a liability assumed is recognised at the acquisition date but the related costs are not deducted in determining taxable profits until a later period, a deductible temporary difference arises which results in a deferred tax asset. A deferred tax asset also arises when the fair

value of an identifiable asset acquired is less than its tax base.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 'Financial Instruments' ("Ind AS 109"), is measured at fair value with changes in fair value recognised in the Consolidated Statement of Profit and Loss. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and subsequent its settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for noncontrolling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill

acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit.

Any impairment loss for goodwill is recognised in the Consolidated Statement of Profit and Loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cashgenerating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

Business combinations involving entities that are controlled by the Group are accounted for using the 'pooling of interests' method as follows:

- The assets and liabilities of the combining entities are reflected at their carrying amounts;
- Except for adjustments made to harmonise accounting policies, no adjustments are made to reflect fair values, or recognise any new assets or liabilities;
- The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with the corresponding balance appearing in the financial statements of the transferee or is adjusted against general reserve;
- The identity of the reserves is preserved and the reserves of the transferor become the reserves of the transferred.

The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves.

# I) Government grants

Grants from the Government are recognised when there is reasonable assurance that all underlying conditions will be complied with and that the grant will be received.

When loans or similar assistance are provided by Government or related institutions, with an interest rate below the current applicable market rate, the effect of this favorable interest is regarded as a government grant. The loan or assistance is initially recognised and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. That grant is recognised in the Consolidated Statement of Profit and Loss under 'other operating revenue'. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

Government grants related to assets are presented in the Consolidated balance sheet by deducting the grant from the carrying value of the asset and nonmonetary grant is recognised at a nominal value.

Grants related to income are recognised as income on a systematic basis in the Consolidated Statement of Profit and Loss over the periods necessary to match them with the related costs, which they are intended to compensate and are presented as 'other operating revenues'.

Total government grant recognised in the Consolidated Statement of Profit and Loss under the head 'Other operating revenue' amounts to ₹ 1,430.81 million (31 December 2020: ₹ 655.79 million) under different industrial promotion tax exemption schemes.

### m) Taxes

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current and deferred tax.

### Current income tax

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 and respective local jurisdictions of members of the Group.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Group operates and generates taxable income. Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in OCI or in equity).

Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

### Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their book bases. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when

the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax liabilities are recognised for all taxable temporary differences except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of taxable temporary differences associated with investments in subsidiaries and associate, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of deductible temporary differences associated with investments in subsidiaries and associate, deferred tax assets are recognised only to the extent that it is probable that the

temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

Deferred income taxes are not provided on the undistributed earnings of subsidiaries where it is expected that the earnings of the subsidiary will not be distributed in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Minimum Alternate Tax ("MAT") credit is recognised as an asset only when and to the extent there is convincing evidence that the relevant members of the Group will pay normal income tax during the specified period. Such asset is reviewed at each reporting period end and the adjusted based on circumstances then prevailing.

Deferred tax assets are recognised on the unrealized profit for all the inter-company sale/purchase eliminations of property, plant and equipment and inventories.

### Deferred tax on business combination

When a liability assumed is recognized at the acquisition date but the related costs are not deducted in determining taxable profits until a later period, a deductible temporary difference arises which results in a deferred tax asset. A deferred tax asset also arises when the fair value of an identifiable asset acquired is less than its tax base. In both cases, the resulting deferred tax asset affects goodwill.

### n) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments. The business activities of the Group predominantly fall within a single operating

segment, i.e., manufacturing and sale of beverages. The Group operates in two principal geographical areas, namely, India and other countries or 'outside India'. The Group prepares its segment information in conformity with the accounting policies adopted for preparing the CFS.

# o) Discontinued operations

A discontinued operation is a component of the Group that either has been disposed of, or is classified as held for sale, and:

- Represents a separate major line of business or geographical area of operations;
- Is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations; or
- Is a subsidiary acquired exclusively with a view to resale.

Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the Consolidated Statement of Profit and Loss

### p) Impairment of non-financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ("CGU") fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account.

If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded company's or other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Group extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the Consolidated Statement of Profit and Loss.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Consolidated Statement of Profit and Loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

# q) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

### **Financial assets**

### Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

For purposes of subsequent measurement, financial assets are classified as follows:

### a) Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost where the asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and contractual terms of the asset give rise to cash flows on specified dates that are solely payments of principal and interest.

After initial measurement, such financial assets are subsequently measured at amortised cost using the EIR method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The interest income from these financial assets is included in other income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

# b) Debt instruments at Fair Value Through Other Comprehensive Income

Assets that are held for collection of contractual cashflows and for selling the financial assets, where the cash flow represent solely payments of principal and interest, are measured at fair value through other comprehensive income ("FVOCI"). The Group has not designated any debt instrument in this category.

# c) Debt instruments at Fair Value Through Profit or Loss

Fair Value Through Profit or Loss ("FVTPL") is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Group may elect to designate a debt instrument which otherwise meets

amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the Consolidated Statement of Profit and Loss. The Group has not designated any debt instrument in this category.

# d) Equity instruments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 'Business Combinations' applies are Ind AS classified as at FVTPL. Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Consolidated Profit and Loss.

For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair values. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to profit or loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

# De-recognition

A financial asset is derecognised when the contractual rights to receive cash flows from the asset have expired or the Group has transferred its rights to receive the contractual cash flows from the asset in a transaction in which substantially all the risks and rewards of ownership of the asset are transferred.

### Impairment of financial assets

The Group measures the Expected Credit Loss ("ECL") associated with its assets based on historical trends, industry practices and the general business environment in which it operates. The impairment methodology applied depends on whether there has been a significant increase in credit risk. ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/ expense in the Consolidated Statement of Profit and Loss under the head 'other expenses'.

### **Financial liabilities**

### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

# Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

# a) Financial liabilities at FVTPL

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS

109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses are recognised in the Consolidated Statement of Profit or Loss, except for those attributable to changes in own credit risk, which are recognised in OCI. These gains/ loss are not subsequently transferred to the profit or loss.

### b) Financial liabilities at amortised cost

After initial recognition, financial liabilities designated at amortised costs are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The amortisation is included as finance costs in the Consolidated Statement of Profit and Loss.

# De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Consolidated Statement of Profit and Loss.

# Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

# Derivative financial instruments

Derivatives are initially recognised at fair value on the date of executing a derivative contract and are subsequently remeasured to their fair value at the end of each reporting period. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recognised in the profit or loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

# Non-current assets and liabilities classified as held for sale

Non-current assets classified as held for sale are presented separately in the Balance Sheet and measured at the lower of their carrying amounts immediately prior to their classification as held for sale and their fair value less costs to sell. Once classified as held for sale, the assets are not subject to depreciation or amortisation. Any gain or loss arises on remeasurement or sale is included in the Consolidated Statement of Profit and Loss.

If an entity has classified an asset (or disposal group) as held for sale, but the held-for-sale criteria as specified in Ind AS 105 'Non-current Assets Held for Sale and Discontinued Operations' are no longer met, the Group ceases to classify the asset (or disposal group) as held for sale.

The Group measures a non-current asset that ceases to be classified as held for sale (or ceases to be included in a disposal group classified as held for sale) at the lower of:

- a) its carrying amount before the asset (or disposal group) was classified as held for sale, adjusted for any depreciation, amortisation or revaluations that would have been recognised had the asset (or disposal group) not been classified as held for sale, and
- b) its recoverable amount at the date of the subsequent decision not to sell.

### s) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

# Dividend distribution to equity holders of the parent

The Group recognises a liability to make cash or noncash distributions to equity holders of the parent when the distribution is authorised and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

### u) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Consolidated Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pretax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

### v) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements. Contingent assets are only disclosed when it is probable that the economic benefits will flow to the entity.

### w) Earnings per share

Basic earnings/ (loss) per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average

number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events, other than conversion of potential equity shares, that have changed the number of equity shares outstanding without a corresponding change in resources.

In case of a bonus issue, the number of ordinary shares outstanding is increased by number of shares issued as bonus shares in current year and comparative period presented as if the event had occurred at the beginning of the earliest year presented.

For the purpose of calculating diluted earnings/ (loss) per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

# 3.1. Significant accounting judgements, estimates and assumptions

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In particular, the Group has identified the following areas where significant judgements, estimates and assumptions are required. Further information on each of these areas and how they impact the various accounting policies are described below and also in the relevant notes to the consolidated financial statements. Changes in estimates are accounted for prospectively.

### i) Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the consolidated financial statements:

# a) Contingencies

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Group, including legal, contractor, land access and other claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgments and the use of estimates regarding the outcome of future events.

# b) Recognition of deferred tax assets

The extent to which deferred tax assets can be recognised is based on an assessment of the probability that future taxable income will be available against which the deductible temporary differences and tax loss carryforward can be utilised. In addition, significant judgement is required in assessing the impact of any legal or economic limits or uncertainties in various tax jurisdictions.

# ii) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group bases its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market change or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

# a) Useful lives of tangible/intangible assets

The Group reviews its estimate of the useful lives of tangible/intangible assets at each reporting date, based on the expected utility of the assets.

### b) Defined benefit obligation

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making

various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. In view of the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

### c) Inventories

The Group estimates the net realisable values of inventories, taking into account the most reliable evidence available at each reporting date. The future realisation of these inventories may be affected by future technology or other market-driven changes that may reduce future selling prices.

### d) Business combinations

The Group uses valuation techniques when determining the fair values of certain assets and liabilities acquired in a business combination.

# e) Impairment of non-financial assets and goodwill

In assessing impairment, Group estimates the recoverable amount of each asset or cash-generating units based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate.

# f) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

# Footnotes to Note 5A and 5B:

i. The Group has considered the related provisions of Ind AS 38 on 'Intangibles Assets' which permit certain intangible assets to have an indefinite life and accordingly the carrying value of these franchisee rights have been considered to have an indefinite life. These franchisee rights meet the prescribed criteria of renewal at nominal cost, renewal with no specific conditions attached, are sustainable and the same is supported by evidences of being renewed. Management is of the opinion that, based on an analysis of all of the relevant factors, there is no foreseeable limit to the period over which the franchisee rights are expected to generate net cash inflows for the Group.

Goodwill and franchise rights with indefinite useful lives are tested for impairment annually, or more frequently if the events and circumstances indicate that the carrying value may be impaired. The useful life of an intangible asset with an indefinite useful life is reviewed annually to determine whether the useful life assessment continues to be supportable.

The assumptions used in this impairment assessment are most sensitive to following:

- a) Weighted average cost of capital "WACC" of 12.04% (Previous year 13.30%) for the explicit period and 12.45% (Previous year 13.57%) for the terminal year.
- b) For arriving at the terminal value, approximate growth rate of 5% (Previous year 5%) is considered.
- c) Number of years for which cash flows were considered are 5 years.
- d) The approximate rate of growth in sales is estimated at 8%-15% (Previous year 10%-20%) in the discrete period.

No impairment loss was identified on the above assessment.

- ii. The amount of contractual commitments for the acquisitions of intangible assets are disclosed in Note 45.
- iii. Refer Note 57 for information on other intangible assets pledged as security by the Group.

### 6. Investment in associate

During the previous year, the National Company Law Tribunal, through its order dated 22 May 2020 has approved a scheme of amalgamation of Angelica Technologies Private Limited with Lunarmech Technologies Private Limited. The approved scheme of amalgamation has been filed with the Registrar of Companies on 07 July 2020. This has no impact on the consolidated financial statements.

# \*MAT credit (recognised in Holding Company):

(₹ in million)

|                  | Recognised in<br>profit and loss |          |
|------------------|----------------------------------|----------|
| 31 December 2021 | -                                | (709.10) |
| 31 December 2020 | -                                | (291.72) |

MAT credit recognised in a year adjustable against income taxes payable under normal tax provisions over a period of 15 years.

MAT credit recognised on balance sheet date is accumulation of credit recognised (net of utilisation) as per below table:

| Financial year | Credit available for carry forward (net of utilisation) |               |
|----------------|---|---------------|
| 2019-20        | 169.62  | 31 March 2035 |
| Total          | 169.62  |               |

A subsidiary of the Group has the following unused tax losses and unabsorbed depreciation, for which no deferred tax asset has been recognised in the books of accounts:

a) Unused business losses and unabsorbed depreciation on intangible assets that can be carried forward as follows:

(₹ in million)

| Financial year of origination | Financial year of expiry | 31 December 2021 | 31 December 2020 |
|-------------------------------|--------------------------|------------------|------------------|
| 31 December 2017              | 31 December 2021         | 121.62           | 124.30           |
| 31 December 2018              | 31 December 2022         | 609.46           | 622.91           |
| Total                         |                          | 731.08           | 747.21           |

b) Unused unabsorbed depreciation on tangible assets amounting to ₹ 1,879.78 million (31 December 2020: ₹ 1,935.12 million) can be carried forward indefintely.

### Notes

\*\*The amounts recognised in other comprehensive income relates to the re-measurement of net defined retirement benefit liability and exchange differences arising on translation of foreign operations. Refer note 38 for the amount of the income tax relating to these components of other comprehensive income.

On 20 September 2019, vide the Taxation Laws (Amendment) the Ordinance 2019, the Government of India inserted Section 115BAA in the Income-tax Act, 1961 which provides Indian domestic companies a non-reversible option to pay corporate tax at reduced rates effective 01 April 2019 subject to certain conditions.

During the year ended 31 December 2020, the Holding Company made an assessment of the impact of the Ordinance and decided to continue with the existing tax structure until utilisation of accumulated minimum alternative tax (MAT) credit and expiry of other tax benefits/holidays available. The Holding Company continues with that assessment/conclusion for the year ended 31 December 2021. In accordance with the Ind AS 12 "Income Taxes", the Holding Company is also required to remeasure its deferred tax balances, for amounts that are expected to reverse in future when the Company would migrate to the new tax regime. The Holding Company during the previous year has remeasured its outstanding deferred tax balances and written back an amount of ₹ 731.85 million to the Consolidated Statement of Profit and Loss.

| - Prepaid expenses  | 30.68            | 34.17            |
|   | 1,839.23         | 1,303.44         |

# 12. Inventories

|  | As at<br>31 December 2021 | As at 31 December 2020 |
|--|---------------------------|------------------------|
| (Valued at lower of cost or net realisable value)  |                           |                        |
| Raw materials (including raw material in transit of ₹ 580.09 (31 December 2020: ₹ 74.39) | 8,070.05                  | 3,965.62               |
| Work in progress   | 69.24                     | 85.26                  |
| Intermediate goods (including goods in transit of ₹ 41.61 (31 December 2020: ₹ 28.76))   | 1,795.66                  | 1,665.55               |
| Finished goods (including goods in transit of ₹ 55.82 (31 December 2020: ₹ 39.79))       | 2,530.16                  | 1,706.56               |
| Stores and spares  | 2,015.76                  | 1,865.05               |
|  | 14,480.87                 | 9,288.04               |

The Group manufactures as well as purchases the same product from market for sale. In the absence of demarcation between manufactured and purchased goods and the value of stock in trade being insignificant, it is not separately ascertainable and disclosed.

The cost of inventories recognised as an expense during the year are disclosed in Note 31, Note 32 and Note 33.

### 13. Trade receivables

(₹ in million)

|  | As at<br>31 December 2021 | As at 31 December 2020 |
|--|---------------------------|------------------------|
| Trade receivables considered good - Unsecured  | 2,069.30                  | 2,272.58               |
| Trade receivables considered good - Secured  | 143.19                    | 145.39                 |
| Trade receivables - Credit impaired  | 495.36                    | 435.33                 |
|  | 2,707.85                  | 2,853.30               |
| Less : Allowance for expected credit losses (Refer note 54.2)  | (495.36)                  | (435.33)               |
|  | 2,212.49                  | 2,417.97               |
| Includes amounts due, in the ordinary course of business, from companies in which directors of the Holding Company are also directors: |                           |                        |
| i. Devyani Airport Services (Mumbai) Private Limited   | 0.05                      | 0.26                   |
| ii. Alisha Torrent Closures (India) Private Limited  | 10.75                     | 9.13                   |

Trade receivables are non-interest bearing and credit period generally falls in the range of 0 to 120 days.

# 14. Cash and cash equivalents

(also for the purpose of Consolidated Cash Flow Statement)

(₹ in million)

|  | As at<br>31 December 2021 | As at 31 December 2020 |
|--|---------------------------|------------------------|
| Balance with banks in current accounts*                              | 1,328.44                  | 610.99                 |
| Balance in deposits with original maturity of less than three months | 147.97                    | 403.91                 |
| Cash on hand   | 31.09                     | 30.68                  |
|  | 1,507.50                  | 1,045.58               |

<sup>\*</sup>Includes inward remittance not yet cleared amounting to ₹ 66.57 million (31 December 2020: ₹ 113.30 millions)

# 15. Bank balances other than cash and cash equivalents

|   |                           | ,                      |

# (b) Terms/rights attached to shares

The Holding Company has only one class of equity shares having a par value of ₹ 10 each. Each holder of equity share is entitled to one vote per share. In the event of liquidation of the Holding Company, holders of equity shares will be entitled to receive any of the remaining assets of the Holding Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders. The dividend, if any, proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting.

# (c) List of shareholders holding more than 5% of the equity share capital of the Holding Company at the beginning and at the end of the year:

| Shareholders as at 31 December 2021 | No. of shares | %      |
|-------------------------------------|---------------|--------|
| R J Corp Limited                    | 119,900,275   | 27.69% |

### **Contract liabilities**

(₹ in million)

| Particulars            | As at<br>31 December 2021 | As at 31 December 2020 |
|------------------------|---------------------------|------------------------|
| Advance from customers | 794.30                    | 658.24                 |
|                        | 794.30                    | 658.24                 |

**C.** Contract asset is the right to consideration in exchange for goods or services transferred to the customer. Contract liabilities are on account of the advance payment received from customer for which performance obligation has not yet been completed.

The performance obligation is satisfied when control of the goods or services are transferred to the customers based on the contractual terms. The Group does not have any remaining performance obligation as contracts entered for sale of goods are for a shorter duration. Further, there are no contracts for sale of services wherein, performance obligation is unsatisfied to which transaction price has been allocated.

Payment terms with customers vary depending upon the contractual terms of each contract and generally falls in the range of 0 to 120 days from the completion of performance obligation.

There is no significant financing component in any transaction with the customers.

# D. Changes in the contract liabilities balances during the year are as follows:

(₹ in million)

| Particulars                          | As at<br>31 December 2021 | As at 31 December 2020 |
|--------------------------------------|---------------------------|------------------------|
| Balance at the beginning of the year | 658.24                    | 1,125.89               |
| Addition during the year             | 794.30                    | 658.24                 |
| Revenue recognised during the year   | (658.24)                  | (1,125.89)             |
| Balance at the closing of the year   | 794.30                    | 658.24                 |

<sup>\*</sup>subsidiary of VBL Lanka

**40.** The Group conducts business operations in the Republic of Zimbabwe through its subsidiary VBL Zimbabwe.

During the year ended 31 December 2019, the Reserve Bank of Zimbabwe ("RBZ") recomended use of Zimbabwe Dollar ("ZWL" or "RTGS") as a local currency for domestic transactions in Zimbabwe w.e.f. 22 February 2019 which was till then interchangeable with USD at the rate of 1:1 and subsequently vide its notification dated 25 June 2019, prohibited the usage of any other currency for domestic transactions other than ZWL. This resulted in a change in the primary economic environment in which VBL Zimbabwe was operating and accordingly, the functional and presentational currency was changed from USD to ZWL.

During the quarter ended 31 December 2019, the Zimbabwean economy was classified as hyperinflationary in accordance with the factors and characteristics of a hyperinflationary economy as described in Ind AS 29 'Financial Reporting in Hyper-Inflationary Economies' ("Ind AS 29"). In accordance with Ind AS 29, the historical cost financial statements of VBL Zimbabwe have been restated for the changes in the general purchasing power of the functional currency and consequently are stated in terms of the measuring unit current at the year end. For the purposes of restatement, the management has applied the Consumer Price Index ("CPI") published by the Reserve Bank of Zimbabwe. As per the current scenario, the economy continues to be hyperinflationary. The CPI (in units) was 2,474.51 on 31 December 2020 and 3,977.46 on 31 December 2021.

VBL Zimbabwe has arrangements with RBZ for making USD available at pre-agreed rates for repayment of its USD denominated loans. However, on conservative basis, the carrying amounts of these loans are stated at approximate year end forex rates.

<sup>\*\*</sup>subsidiary of Angelica Technologies Private Limited till 04 November 2019

<sup>~</sup>w.e.f. 31 December 2021

<sup>#</sup>Refer note 6

The gain on net monetary position calculated in accordance with Ind AS 29 amounted to ₹ 587.18 million (31 December 2020: ₹ 611.90 million) which has been included in 'Net gain/loss on foreign currency transactions and translations' under note 30 & 37. Further, due to foreign exchange gain/(loss) on restatement of monetary assets and liabilities denominated in foreign currency, VBL Zimbabwe has recorded a net loss on foreign currency transactions and translations of ₹ 381.77 million (31 December 2020: ₹ 604.25 million) which has also been included in the said note.

# 41. Gratuity and other post-employment benefit plans

These assumptions were developed by management of the respective company/entity with the assistance of independent actuaries. Discount factors are determined close to each year-end by reference to market yields of high quality corporate bonds that are denominated in the respective currency in which the benefits will be paid and that have terms to maturity approximating to the terms of the related pension obligations. Other assumptions are based on current actuarial benchmarks and respective management's historical experience.

The defined benefit obligation and plan assets are composed by geographical locations as follows:

(₹ in million, unless otherwise stated)

| 31 December 2021           | India    | Outside India | Total    |
|----------------------------|----------|---------------|----------|
| Defined benefit obligation | 1,744.10 | 73.52         | 1,817.62 |
| Fair value of plan assets  | 65.61    | -             | 65.61    |

| 31 December 2020           | India    | Outside India | Total    |
|----------------------------|----------|---------------|----------|
| Defined benefit obligation | 1,592.80 | 93.85         | 1,686.65 |
| Fair value of plan assets  | 63.76    | -             | 63.76    |

# A quantitative sensitivity analysis for significant assumption is as shown below:

|                 | Sensitivity level   |                     | Gratuity            |                     | Compensated Absences |                     |
|-----------------|---------------------|---------------------|---------------------|---------------------|----------------------|---------------------|

| Discount rate   | +1%                 | +1%                 | (114.37)            | (117.64)            | (26.11)              | (24.74)             |
|                 | -1%                 | -1%                 | 129.34              | 134.44              | 27.87                | 26.48               |
| Salary increase | +1%                 | +1%                 | 121.79              | 125.63              | 26.23                | 24.78               |
|                 | -1%                 | -1%                 | (110.26)            | (112.70)            | (25.09)              | (23.66)             |
| Withdrawal rate | +1%                 | +1%                 | (31.48)             | (36.91)             | (9.13)               | (9.37)              |
|                 | -1%                 | -1%                 | 35.04               | 41.42               | 9.64                 | 9.91                |

The sensitivity analysis above has been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

| Risk associated:                      |  |
|---------------------------------------|--|
| Investment risk                       | The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to Government Bonds Yield. If plan liability is funded and return on plan assets is below this rate, it will create a plan deficit.  |
| Interest risk<br>(discount rate risk) | A decrease in the bond interest rate (discount rate) will increase the plan liability.   |
| Mortality risk                        | The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants. For this report we have used Indian Assured Lives Mortality (2012-2014) (31 December 2020: (2012-14) ultimate table). A change in mortality rate will have a bearing on the plan's liability.                     |
| Salary risk                           | The present value of the defined benefit plan liability is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability. |

The following are maturity profile of Defined Benefit Obligations in future years ( before adjusting fair value of plan assets):

(₹ in million, unless otherwise stated)

|   | Grat                      | uity                      | Compensate          | ed Absences         |

**46.** Pursuant to transfer pricing legislations under the Income-tax Act, 1961, the Holding Company is required to use specified methods for computing arm's length price in relation to specified international and domestic transactions with its associated enterprises. Further, the Holding Company is required to maintain prescribed information and documents in relation to such transactions. The appropriate method to be adopted will depend on the nature of transactions/ class of transactions, class of associated persons, functions performed and other factors, which have been prescribed. The Holding Company is in the process of updating its transfer pricing documentation for the current financial year. Based on the preliminary assessment, the management is of the view that the update would not have a material impact on the tax expense recorded in these consolidated financial statements. Accordingly, these consolidated financial statements do not include any adjustments for the transfer pricing implications, if any.

# 47. Related party disclosures (as per Ind AS-24)

Following are the related parties and transactions entered with related parties for the relevant financial year:

# (i) List of related parties and relationships:-

### I. Key managerial personnel (KMPs)

Mr. Ravi Kant Jaipuria

Mr. Varun Jaipuria Mr. Raj Pal Gandhi

Mr. Rajinder Jeet Singh Bagga

Mr. Kapil Agarwal

Mr. Vikas Bhatia (till 02 August 2021)

Mr. Pradeep Khushalchand Sardana

Mr. Naresh Kumar Trehan

Mrs. Sita Khosla Dr. Ravi Gupta Non-executive chairman and Karta of Ravi Kant Jaipuria & Sons (HUF), till 19 February 2021

Varun Developers Private Limited

Wellness Holdings Limited

SVS India Private Limited

Diagno Labs Private Limited

Lineage Healthcare Limited (till 19 February 2021)

Ole Marketing (Private) Limited

Devyani Food Industries (Kenya) Limited

Devyani Airport Services (Mumbai) Private Limited

Devyani International Nepal Private Limited

### IV. Relatives of KMPs\*

Mrs. Dhara Jaipuria

Mrs. Devyani Jaipuria

Mrs. Aastha Agarwal

Mr. Ravindra Dhariwal

Mr. Kaustubh Agarwal

# V. Entities in which a director or his/her relative is a member/director/trustee\*

Champa Devi Jaipuria Charitable Trust

Mala Jaipuria Foundation (Trust)

SMV Beverages Private Limited

Alisha Torrent Closures (India) Private Limited

Lineage Healthcare Limited

(w.e.f. 20 February 2021)

Jai Beverages Private Limited

Medanta Institute of Education and Research

RJ Foundation (Trust)

# VI. Entities which are post employment benefits plans

VBL Employees' Gratuity Trust

<sup>\*</sup>With whom the Group had transactions during the current year and previous year.

### (ii) Terms and conditions of transactions with related parties

The transactions with related parties are made in the ordinary course of business and on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year-end are unsecured and settlement occurs in cash. This assessment is undertaken each in financial year through examining the financial position of the related party and the market in which the related party operates.

- (iii) Transactions with KMPs (Refer note 47A)
- (iv) Transactions with other related parties (Refer note 47B)

# 47A. Transactions with KMPs

# 48. Disclosure on lease transactions pursuant to Ind AS 116 - Leases

The Group lease asset class primarily consists of leases for land, buildings, plant and equipments and vehicles. With the exception of short-term leases, leases of low-value and cancellable long-term leases underlying assets, each lease is reflected on the balance sheet as a right of use asset and a lease liability.

Lease liabilities are measured at the present value of the remaining lease payments, discounted using the weighted average borrowing rate on the date of adoption, i.e., 5.44% - 10.00% (31 December 2020: 5.50% - 10.00%).

Each lease generally imposes a restriction that, unless there is a contractual right for the Group to sublet the asset to another party, the right of use asset can only be used by the Group. Leases are either non-cancellable or may only be cancelled by incurring a substantive termination fee. Some leases contain an option to extend the lease for a further term. The Group is prohibited from selling or pledging the underlying leased assets as security against the Group's other debts and liabilities.

i. Lease liabilities are presented in the balance sheet as under:

(₹ in million)

|   | As at<br>31 December 2021 | As at 31 December 2020 |
|---|---------------------------|------------------------|
| Current maturities of lease liabilities (Refer note 26) | 136.02                    | 102.26                 |
| Non-current lease liabilities (Refer note 22B)          | 312.63                    | 244.39                 |
| Total   | 448.65                    | 346.65                 |

ii. The recognised right of use assets relate to land, buildings, plant and equipments and vehicles are as provided below:

(₹ in million)

|  | As at<br>31 December 2021 | As at 31 December 2020 |
|--|---------------------------|------------------------|
| Balance at the beginning of the year                           | 5,552.08                  | -                      |
| Addition on account of transition to Ind AS 116 (Refer note 4) | -                         | 5,555.27               |
| Additions for the year   | 341.37                    | 239.70                 |
| Government grant related to asset received                     | -                         | (6.37)                 |
| Disposals for the year   | -                         | (1.55)                 |
| Depreciation charge for the year                               | (217.38)                  | (204.76)               |
| Exchange differences on translation of foreign operations      | 51.92                     | (30.21)                |
| Balance at the end of the year                                 | 5,727.99                  | 5,552.08               |

iii. The following are amounts recognised in Consolidated Statement of Profit and Loss:

|  | Year ended<br>31 December 2021 | i cai ciiaca |
|--|--------------------------------|--------------|
| Depreciation charge on right of use assets | 217.38                         | 204.76       |
| Interest expense on lease liabilities      | 30.50                          | 29.56        |
| Total                                      | 247.87                         | 234.32       |

iv. Lease payments not recognised as a liability

The Group has elected not to recognise a lease liability for short term leases (leases with an expected term of 12 months or less), non-cancellable long-term leases and for leases of low value assets. Payments made under such leases are expensed on a straight-line basis. The expense relating to payments not included in the measurement of the lease liability for short term leases is ₹821.26 (31 December 2020: ₹759.00 million).

- v. Refer Consolidated Cash Flow Statement for total cash outflow for leases for the year ended 31 December 2021 and 31 December 2020.
- vi. Maturity of lease liabilities

Future minimum lease payments for year ended 31 December 2021 were as follows:

(₹ in million)

|  | Lease payments | Interest expense | Net Present value* |
|--|----------------|------------------|--------------------|
| Not later than 1 year                    | 163.45         | 26.14            | 136.02             |
| Later than 1 year not later than 5 years | 256.53         | 56.43            | 196.05             |
| Later than 5 years                       | 529.00         | 412.41           | 116.59             |
| Total                                    | 948.98         | 494.98           | 448.65             |

<sup>\*</sup>Includes exchange differences on translation of foreign operations of ₹ 5.35 million

Future minimum lease payments for year ended 31 December 2020 were as follows:

(₹ in million)

|  | Lease payments | Interest expense | Net Present value * |
|--|----------------|------------------|---------------------|
| Not later than 1 year                    | 116.45         | 22.29            | 102.26              |
| Later than 1 year not later than 5 years | 202.60         | 50.04            | 152.81              |
| Later than 5 years                       | 341.65         | 248.06           | 91.58               |
| Total                                    | 660.70         | 320.39           | 346.65              |

<sup>\*</sup>Includes exchange differences on translation of foreign operations of  $\overline{\epsilon}$  6.34 million

# 49. Segment reporting

The business activity of the Group predominantly fall within a single reportable business segment viz manufacturing and sale of beverages. There are no separate reportable business segments. As part of reporting for geographical segments, the Group operates in two principal geographical areas of the world, i.e., within India and other countries (outside India). The aforesaid is in line with review of operating results by the chief operating decision maker. The sale of products of the Group is seasonal.

The following table presents segment non-current assets, revenue from external customers regarding geographical segments:

|                     | As at<br>31 December 2021 | As at 31 December 2020 |
|---------------------|---------------------------|------------------------|
| Non-current assets* |                           |                        |
| - Within India      | 57,125.93                 | 54,564.60              |
| - Outside India     | 12,787.13                 | 11,493.18              |

<sup>\*</sup>excluding financial instruments, deferred tax assets and post-employment benefit assets.

(₹ in million)

|     |                               | As at<br>31 December 2021 | As at 31 December 2020 |
|-----|-------------------------------|---------------------------|------------------------|
| Rev | renue from external customers |                           |                        |
| -   | Within India                  | 65,448.50                 | 48,283.53              |
| -   | Outside India                 | 24,134.41                 | 17,274.38              |

# **50. Dues to Micro and Small Enterprises**

<sup>\*</sup>includes principal amounting to ₹ 299.00 million (31 December 2020: ₹ 670.87 million).

# 51. Acquisition of Subsidiary during the year

On 31 December 2021, the Holding Company had aquired 99.90% stake in Varun Beverages RDC SAS. The total consideration transferred in cash is  $\ref{total}$  0.74 millions.

**52.** The Holding Company follows calendar year as its financial year as approved by the Company Law Board, New Delhi.

# 53. Share-based payments

# **Employee Stock Option Plan 2016 ("ESOP 2016")**

The ESOS 2016 ("the Scheme") was approved by the Board of Directors and the shareholders on 27 April 2016. The Scheme entitles key managerial personnel and employees of the Holding Company and its subsidiaries to purchase shares in the Holding Company at the stipulated exercise price, subject to compliance with vesting conditions. Stock options can be settled by issue of equity shares. No options under this Scheme have been granted in the current or previous years.

### 54. Financial instruments risk

# Financials risk management objectives and policies

The Group is exposed to various risks in relation to financial instruments. The main types of financial risks are market risk, credit risk and liquidity risk.

The respective management of the Holding Company and other companies/entities comprising the Group monitors and manages the financial risks relating to the operations of the respective entity/company on a continuous basis. The Group's risk management is coordinated at head office, in close cooperation with the management of respective entity/company, and focuses on actively securing the short to medium-term cash flows and simultaneously minimising the exposure to volatile financial markets. Long-term financial investments are managed to generate lasting returns.

The Group does not engage in the trading of financial assets for speculative purposes. The most significant financial risks to which the Group is exposed are described below.

### 54.1 Market risk analysis

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Group is exposed to market risk through its use of financial instruments and specifically to foreign currency risk, interest rate risk and commodity price risk, which result from its operating, investing and financing activities. Contracts to hedge exposures in foreign currencies, interest rates etc. are entered into wherever considered necessary by the management.

### Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The functional currency of the Holding Company is Indian Rupees ('INR' or '₹'). Most of the transactions of the Holding Company and other entities/companies are carried out in the respective local currency. Exposures to currency exchange rates mainly arise from the overseas operations and external commercial borrowings etc., which are primarily denominated in US Dollar ("USD"), Euro, Singapore Dollar ("SGD"), Pound Sterling ("GBP"), Sri Lanka Rupee ("LKR"), Moroccan Dirham ("MAD"), Nepalese Rupee ("NPR"), Zambian Kwacha ("ZMW") and Zimbabwe Dollar ("ZWL").

To mitigate its exposure to foreign currency risk, the Group continuously monitors non-INR cash flows and hedging contracts are entered into wherever considered necessary.

The carrying amounts of the Group's foreign currency denominated monetary items are restated at the end of each reporting period. Foreign currency denominated financial assets and liabilities which expose the Group to currency risk are as follows:

|                                   |      |       |      | (\(\tau_1\tau |          |        |          |        |          |

<sup>~</sup>Refer note 40 for change in functional currency in Varun Beverages (Zimbabwe) (Private) Limited.

The foreign currency sensitivity of profit and equity in regards to the Group's financial assets and financial liabilities considering 'all other things being equal' and ignoring the impact of taxation. It assumes a +/- 1% change of the respective countries exchange rates (i.e. local currency to foreign currency) for the year ended at 31 December 2021 (31 December 2020: +/-1%). These are the sensitivity rates used when reporting foreign currency exposures internally to the key management personnel and represents respective management's assessment of the reasonably possible changes in the foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items at end of each period reported upon. A positive number indicates an increase in profit or equity and vice-versa.

If the INR had strengthened against the USD by 1% (31 December 2020: 1%), LKR by 1% (31 December 2020: 1%), GBP by 1% (31 December 2020: 1%), SGD by 1% (31 December 2020: 1%) and Euro by 1% (31 December 2020: 1%), the following would have been the impact:

<sup>\*</sup>Rounded off to Nil.

Exposures to foreign exchange rates vary during the year depending on the volume of the overseas transactions. Nonetheless, the analysis above is considered to be representative of the Group's exposure to currency risk.

### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's policy is to minimise interest rate cash flow risk exposures on long-term financing. The Group is exposed to changes in market interest rates as some of the bank and other borrowings are at variable interest rates.

The following table illustrates the sensitivity of profit and equity to a reasonably possible change in interest rates of +/- 1% (31 December 2020: +/- 1%). These changes are considered to be reasonably possible based on management's assessment. The calculations are based on a change in the average market interest rate for each period, and the financial instruments held at each reporting date that are sensitive to changes in interest rates. All other variables are held constant.

(₹ in million)

|                  | Profit/(loss) for the year |        | Equity   |        |

### **Commodity price risk**

The Group is affected by the price volatility of certain commodities. Its operating activities require the ongoing purchase of sugar and pet chips and therefore require a continuous supply. In view of volatility of price of sugar and pet chips, the Group also executes into various advance purchase contracts.

### **Commodity price sensitivity**

The following tables shows the effect of price change in sugar and pet chips

(₹ in million)

| Particulars      | Change in yearly Effect on profit/ Effect o average price (loss) before tax |          | • •    |          | n equity |

# Other price sensitivity

The Group is not exposed to any listed equity or listed debt price risk as it does not hold any investments in listed entities.

# 54.2 Credit risk analysis

Credit risk is the risk that a counterparty fails to discharge an obligation to the Group. The Group is operating through a network of distributors and other distribution partners based at different locations. The Group is exposed to this risk for various financial instruments, for example loans granted, receivables from customers, deposits placed etc. The Group's maximum exposure to credit risk is limited to the carrying amount of financial assets recognised at end of each reporting period, as summarised below:

(₹ in million)

| Particulars  | As at<br>31 December 2021 | As at 31 December 2020 |
|--|---------------------------|------------------------|
| Classes of financial assets-carrying amounts:                                  |                           |                        |
| Investments (non-current)  | 0.01                      | 0.01                   |
| Loans (non-current and current)  | 507.13                    | 518.05                 |
| Others non-current financial assets  | 8.04                      | 1.21                   |
| Trade receivables  | 2,212.49                  | 2,417.97               |
| Cash and cash equivalents  | 1,507.50                  | 1,045.58               |
| Bank balances (other than those classified as cash and cash equivalents above) | 1,858.72                  | 854.92                 |
| Others current financial assets  | 2,276.86                  | 1,670.04               |
|  | 8,370.75                  | 6,507.78               |

The Group continuously monitors receivables and defaults of customers and other counterparties, and incorporates this information into its credit risk controls. Appropriate security deposits are kept against the supplies to customers and balances are reconciled at regular intervals. The Group's policy is to deal only with creditworthy counterparties.

In respect of trade and other receivables, the Group is not exposed to any significant credit risk exposure to any single counterparty. Trade receivables consist of a large number of customers of various scales and in different geographical areas. Based on historical information about customer default rates, management considers the credit quality of trade receivables. In case the receivables are not recovered even after regular follow up, measures are taken to stop further supplies to the concerned customer. The expected credit loss is based on the five years historically observed default rates over the expected life of the trade receivables and is adjusted for forward looking estimates.

# Movement in expected credit loss allowance on trade receivables and capital advances:-

(₹ in million)

|  | As at<br>31 December 2021 | As at 31 December 2020 |
|--|---------------------------|------------------------|
| Balance as at beginning of the year                      | 435.33                    | 795.38                 |
| Loss allowance measured at lifetime expected credit loss | 58.92                     | 53.09                  |
| Adjusted/Written off during the year                     | -                         | (402.34)               |
| Foreign currency translation reserve                     | 1.11                      | (10.80)                |
| Balance at the end of the year                           | 495.36                    | 435.33                 |

The credit risk for cash and cash equivalents, bank deposits including interest accrued thereon and Government grant receivables is considered negligible, since the counterparties are reputable banks with high quality external credit ratings and State Government bodies.

In respect of financial guarantees provided by the Group, the maximum exposure to which the Group is exposed to is the maximum amount which it would have to pay if the guarantee is called upon. Based on the expectation at the end of each reporting period, the Group considers that it is more likely than not that such an amount will not be payable under the guarantees provided.

### 54.3 Liquidity risk analysis

Liquidity risk is that the Group might be unable to meet its obligations. The Group manages its liquidity needs by monitoring scheduled debt servicing payments for long-term financial liabilities and considering the maturity profiles of financial assets and other financial liabilities as well as forecast of operational cash inflows and outflows. Liquidity needs are monitored in various time bands, on a day-to-day basis, a week-to-week basis and a month-to-month basis. Long-term liquidity needs for a 180-day and a 360-day lookout period are identified monthly. Net cash requirements are compared to available borrowing facilities in order to determine headroom or any shortfalls.

Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities and the Group's ability to avail further credit facilities subject to creation of requisite charge on its assets. The Group assessed the concentration of risk with respect to refinancing its debt and concluded it to be low.

As at 31 December 2021, the Group's non-derivative financial liabilities have contractual maturities as summarised below:

(₹ in million)

| 31 December 2021                                      | 1 to 12 months | 1 to 5 years | Later than 5 years |
|---|----------------|--------------|--------------------|
| Borrowings (current and non-current)                  | 15,285.68      | 17,578.69    | 554.58             |
| Trade payables  | 7,117.53       | -            | -                  |
| Other financial liabilities (current and non-current) | 4,065.68       | 196.05       | 116.58             |
| Total   | 26,468.89      | 17,774.74    | 671.16             |

This compares to the maturity of the Group's non-derivative financial liabilities in the previous reporting periods as follows:

(₹ in million)

| 31 December 2020                      | 1 to 12 months | 1 to 5 years | Later than 5 years |
|---------------------------------------|----------------|--------------|--------------------|
| Borrowings (current and non-current)  | 12,262.75      | 19,796.22    | -                  |
| Trade payables                        | 5,113.85       | -            | -                  |
| Other financial liabilities (current) | 3,419.34       | 152.81       | 91.58              |
| Total                                 | 20,795.94      | 19,949.03    | 91.58              |

As at 31 December 2021, the contractual cash flows (excluding interest thereon) of the Group's derivative financial instruments are as follows:

(₹ in million)

| 31 December 2021                  | 1 to 12 months | 1 to 5 years |
|-----------------------------------|----------------|--------------|
| Cross currency interest rate swap | 911.78         | -            |

This compares to the contractual cash flows (excluding interest thereon) of the Group's derivative financial instruments in the previous year as follows:

(₹ in million)

| 31 December 2020                  | 1 to 12 months | 1 to 5 years |
|-----------------------------------|----------------|--------------|
| Cross currency interest rate swap | 914.08         | 914.08       |

# 54.4 Risk due to outbreak of Covid-19 pandemic

The outbreak of Coronavirus disease (COVID-19) pandemic worldwide has caused significant disturbances and slowdown of economic activity. The lockdowns ordered by the Governments around the world has resulted in operating constraints leading to significant reduction in economic activities and also the business operation of

the Group in terms of sales. However, the recent phased unlocking ordered by the Governments around the world has resulted in signs of improvement in economic activities consequent to which our business operations have also shown uptick during the second half of the year. The Group has considered the possible effects that may result from the pandemic on the carrying amount of receivables including contract assets, goodwill, intangibles, inventories and investments. Based on the current indicators of future economic conditions, the management expects to recover the carrying amount of these assets. However, the Group will continue to closely monitor any material changes to future economic conditions depending upon how the situation evolve henceforth.

# 55. Fair value measurements

# **Financial instruments by categories**

The carrying values and fair values of financial instruments by categories are as follows:

(₹ in million)

| Particulars                                  | Carrying            | y value             | Fair v              | alue                |

# Valuation technique to determine fair value

Cash and cash equivalents, other bank balances, trade receivables, other current financial assets, trade payables, current borrowings and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of the financial assets and liabilities is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

- The fair values of the long term borrowings, loans and other deferred payments are determined by using discounted cash flow method using the appropriate discount rate. The discount rate is determined using other similar instruments incorporating the risk associated.
- The Group executed derivative financial instruments such as cross currency interest rate swap being valued using valuation techniques, which employs use of market observable inputs. The Group uses mark to market valuation provided by bank for its valuation.

# Fair value hierarchy

The financial assets measured at fair value are grouped into the fair value hierarchy as on 31 December 2021 and 31 December 2020 as follows: (also refer note 3(a))

(₹ in million)

| 31 December 2021  | Date of             |      | Fair va                                   | llue measurement u | sing         |

# 56. Capital management

For the purpose of the Group's capital management, capital includes issued equity share capital, securities premium and all other equity reserves attributable to the equity shareholders of the Group.

The Group's capital management objectives are:

- to ensure the Group's ability to continue as a going concern
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group includes within net debt, non-current and current borrowings, deferred payment liabilities, current maturity of long-term debts and lease liabilities, less cash and cash equivalents, excluding discontinued operations, if any.

The amounts managed as capital by the Group for the reporting periods are summarised as follows:

| Particulars   | As at<br>31 December 2021 | As at 31 December 2020 |
|---|---------------------------|------------------------|
| Non-current borrowings (Refer note 22A)                 | 18,133.27                 | 19,796.22              |
| Current borrowings (Refer note 22C)                     | 6,284.92                  | 7,138.58               |
| Lease liabilities (Refer note 22B)                      | 312.63                    | 244.39                 |
| Current maturities of lease liabilities (Refer note 26) | 136.02                    | 102.26                 |
| Current maturities of long-term debts (Refer note 26)   | 9,000.76                  | 5,124.17               |
|   | 33,867.60                 | 32,405.62              |
| Less: Cash and cash equivalents (Refer note 14)         | (1,507.50)                | (1,045.58)             |
| Net debt (A)  | 32,360.10                 | 31,360.04              |
| Equity share capital (Refer note 20)                    | 4,330.33                  | 2,886.89               |
| Other equity (Refer note 21)                            | 36,468.75                 | 32,353.12              |
| Total capital (B)                                       | 40,799.08                 | 35,240.01              |
| Capital and net debt (C=A+B)                            | 73,159.18                 | 66,600.05              |
| Gearing ratio (A/C)                                     | 44.23%                    | 47.09%                 |

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2021 and 31 December 2020.

There is no breaches in the financial covenants of the borrowing that would permit the banks to immediately call loans and borrowings in the reporting periods.

# 57. Assets pledged as security

The carrying amount of assets pledged as security are:

(₹ in million)

| Particulars  | As at<br>31 December 2021 | As at 31 December 2020 |
|--|---------------------------|------------------------|
| Inventories and trade receivable                                   | 13,633.94                 | 10,286.32              |
| Other bank deposits  | 1,198.50                  | 1,121.71               |
| Current loans  | 284.15                    | 99.94                  |
| Other current financial assets                                     | 2,733.64                  | 2,130.20               |
| Other current assets   | 2,438.64                  | 1,485.15               |
| Other intangible assets  | 5,543.00                  | 5,553.03               |
| Property, plant and equipment (including capital work-in-progress) | 54,236.68                 | 54,682.74              |

# 58. Recent accounting pronouncements (Ind AS issued but not yet effective)

On 24 March 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013. The amendments revised Division I, II and III of Schedule III and are applicable to the Holding Company from accounting periods beginning on or after 01 January 2022.

The amendments are extensive and the Company is evaluating the requirements of the amendments to give effect to them as required by law. Since these amendments relates to disclosures in financial statements, it will not impact the financial position and results of the Company.

# **Independent Auditor's Report**

### To the Members of Varun Beverages Limited

# Report on the Audit of the Standalone Financial Statements

# **Opinion**

- 1. We have audited the accompanying standalone financial statements of Varun Beverages Limited ('the Company'), which comprise the Balance Sheet as at 31 December 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
- 2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the state of affairs of the Company as at 31 December 2021, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

# **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') and the relevant provisions of the Act and the rules thereunder. and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# **Key Audit Matters**

- 4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
- We have determined the matters described below to be the key audit matters to be communicated in our report.

# Key audit matter

# Impairment assessment of non-current investment and loan recoverable from subsidiary

As described in Note 6 and 8 to the standalone financial statements, the Company has investments of INR 6,179.18 million and has outstanding loan recoverable amounting to INR 963.46 million from a subsidiary as at 31 December 2021, which has been incurring losses in the current and previous years and has negative cash flows from operations, that are impairment indicators and triggered a need for impairment assessments.

# How our audit addressed the key audit matter

Our audit procedures included, but were not limited, to the following:

 Obtained understanding of the management process for identification of possible impairment indicators for the relevant subsidiary and conducted detailed discussions with the management to understand the impairment assessment process, assumptions used and estimates made by management to assess the reasonableness of the recoverable amounts and tested the operating effectiveness of controls implemented by management;

### Key audit matter

In view of the above, management, during the year ended 31 December 2021, has carried out impairment assessments of such investment and loans granted, whereby the carrying amount of the investment and loan recoverable were compared with the recoverable values as determined under the principles of Ind AS 36 and Ind AS 109 respectively. Determination of recoverable values for impairment assessment using the discounted cash flow model involved significant judgments and estimates including the expected growth rate, discount rates and other market related factors.

Changes in the management forecasts or assumptions can impact the assessment of the discounted cash flows.

Considering the materiality of the amounts involved and significant degree of judgement and subjectivity involved in the estimates and key assumptions used in determining the cash flows used in the impairment evaluation, impairment assessment of such investment / loan was determined to be a key audit matter.

# How our audit addressed the key audit matter

- Obtained from the management of the Company, the detailed financial projections of the relevant subsidiary as approved by their respective board of directors and held detailed discussions with the management to understand the assumptions used and estimates made by them for determining the cash flow projections;
- Reviewed the valuation report obtained by the management from an independent valuer and assessed the professional competence, skills and objectivity for performing the required valuations;
- Assessed the appropriateness of the significant assumptions as well as the Company's valuation model with the support of auditor's valuation specialists, who assessed the reasonableness of assumptions used and valuation methodology applied relating to discount rate, risk premium, industry growth rate, etc. This included a discussion of the expected development in the business and financial results as well as of the underlying assumptions used with those responsible for the planning process;
- Assessed the robustness of financial projections prepared by management by comparing projections for previous financial years with actual results realised and discussed significant deviations, if any, with the management;
- Evaluated the historical accuracy of the plans and forecasts for subsidiary where valuation was performed by management internally, by comparing the forecasts used in the prior year models to the actual performance of the business in the current year and discussed the results with the management;
- Read the auditors' reports of the relevant subsidiary, noting no adverse remarks pertaining to impairment of any assets;
- Tested mathematical accuracy of the projections and performed sensitivity analysis for reasonably possible changes in the long-term growth rates and discount rates used to test, if any that there is significant impact on the valuation; and
- Evaluated the adequacy and appropriateness of disclosures made by the Company in the standalone financial statements, as required by the applicable provisions of the Act and the Ind AS

### Key audit matter

# Impairment assessment of intangible assets including goodwill

(Refer note 3.5 for accounting policies on intangibles assets and note 5 to the standalone financial statements)

The Company carries goodwill and franchisee rights as intangible assets having indefinite life amounting to INR 19.40 million and INR 5,385.99 million respectively, that are required to be tested for impairment by the management on an annual basis in accordance with Ind AS 36, Impairment of Assets.

The aforesaid assessment of the impairment testing involves significant judgement around the determination of the recoverable amounts, being the higher of value in use and fair value less costs of disposal. Recoverable amounts are based on management's view of the future cash flows and prospects of the business, the appropriate discount rates and other industry specific risk factors.

The key judgements in determining the recoverable amounts relates to the forecast of future cash flows based on strategy using macroeconomic assumptions such as industry growth, inflation and expected growth in market share, capital expenditure and working capital requirements, among others.

Changes in the management forecasts or assumptions can impact the assessment of the discounted cash flows.

Considering the materiality of the amounts involved and significant degree of judgement and subjectivity involved in the estimates and key assumptions used in determining the forecasted cash flows used in the impairment evaluation, which are dependent on current and future economic factors and trading conditions varying for different economic and geographical territories, impairment assessment of the Intangibles assets and Goodwill was determined as a key audit matter.

# How our audit addressed the key audit matter

Our audit procedures included, but were not limited, to the following:

- Obtained an understanding of the management's process for identification of cash generating unit and impairment indicators for intangible assets, if any and processes performed by the management for their impairment testing;
- Assessed the process by which management prepared its cash flow forecasts and held discussions with management to understand the assumptions used and estimates made by them for determining such projections;
- Tested the design and operating effectiveness of internal controls over such identification and impairment testing;
- Assessed the appropriateness of the Company's accounting policies, including those relating to recognition, measurement and impairment of intangibles by comparing with the applicable Ind AS;
- Reviewed the valuation report obtained by the management from an independent valuer and assessed the professional competence, skills and objectivity for performing the required valuations;
- Assessed the appropriateness of the significant assumptions as well as the Company's valuation model with the support of auditor's valuation specialists, who assess the reasonableness of assumptions used and valuation methodology applied relating to discount rate, risk premium, industry growth rate etc. This included a discussion of the expected development of the business and results as well as of the underlying assumptions used with those responsible for the planning process.
- Assessed the robustness of financial projections prepared by the management by comparing projections for previous financial years with actual results realised and discussed significant deviations, if any, with the management;
- Tested mathematical accuracy of the projections and performed a sensitivity analysis for reasonably possible changes in the sales growth, discount rate applied and the long-term growth rate; and
- Evaluated the adequacy and appropriateness of disclosures made by the Company in the standalone financial statements, as required by the applicable provisions of the Act and the Ind AS.

### Key audit matter

### Claims, Appeals and Litigations - provisions and contingent liabilities

(Refer note 41 to the standalone financial statements for the amounts of contingent liabilities)

The Company is involved in various direct, indirect tax and other claims, appeals and litigations (hereafter, referred to as "Matters") that are pending with different statutory authorities and judicial courts. The management exercises significant judgement for determining the need for and the amount of provisions, for any liabilities, arising from these matters.

This judgement is dependent on a number of significant assumptions and evaluations which involves interpreting the various applicable rules, regulations, practices and considering precedents in the various jurisdictions including the opinions received from various legal counsels.

This matter is considered as a key audit matter, in view of the uncertainty regarding the outcome of these matters, the significance of the amounts involved and the subjectivity involved in management's judgement as to whether any amount should be recognised as a provision or be disclosed or not as a contingent liability in the standalone financial statements.

### How our audit addressed the key audit matter

Our audit procedures included, but were not limited to, the following:

- Assessed the appropriateness of the Company's accounting policies relating to provisions and contingent liabilities with the applicable accounting standards;
- Assessed the Company's process and the underlying controls for identification of the pending matters and completeness for financial reporting and also for monitoring of significant developments in relation to such pending matters;
- Assessed the management's assumptions and estimates in respect of matters, including the liabilities or provisions recognised or contingent liabilities disclosed in the standalone financial statements. This involved assessing the probability of an unfavorable outcome of a given proceeding and the reliability of estimates of related amounts based on the various legal counsels opinions received by the Company;
- Recomputed the arithmetical accuracy of the underlying calculations supporting the provisions recorded from the supporting evidences including the correspondence with various authorities;
- Assessed the management's conclusions through understanding relevant judicial precedents in similar cases and the applicable rules and regulations and through a discussion with Company's legal department and legal counsels appointed by the Company;
- Obtained legal opinions and confirmation on completeness from the Company's external legal counsels, where appropriate;
- Engaged auditor's experts to gain an understanding of the current status of matters and changes in the disputes, if any, through discussions with the management and by reading external advice received by the Company, where relevant, to validate management's conclusions; and
- Assessed the appropriateness of the Company's description of the accounting policy, disclosures related to matters and whether these are adequately presented in the standalone financial statements.

### Information other than the Standalone Financial Statements and Auditor's Report thereon

6. The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Report on Corporate Governance and Director's Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

7. The accompanying standalone financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view

and are free from material misstatement, whether due to fraud or error.

- 8. In preparing the standalone financial statements, Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
- Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Financial Statements

- 10. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
- 11. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
  - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
  - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible

for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
- 12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- 13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- 14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a

matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Report on Other Legal and Regulatory Requirements

- 15. As required by section 197(16) of the Act, based on our audit, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.
- 16. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure I a statement on the matters specified in paragraphs 3 and 4 of the Order.
- 17. Further to our comments in Annexure I, as required by section 143(3) of the Act, based on our audit, we report, to the extent applicable, that:
  - a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying standalone financial statements;
  - in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
  - the standalone financial statements dealt with by this report are in agreement with the books of account;
  - d) in our opinion, the aforesaid standalone financial statements comply with Ind AS specified under section 133 of the Act;
  - e) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 December 2021 from being appointed as a director in terms of section 164(2) of the Act:
  - f) we have also audited the internal financial controls with reference to financial statements of the Company as on 31 December 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date and our report dated 03 February 2022 as per Annexure II expressed unmodified opinion; and

- g) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
  - the Company, as detailed in note 41 to the standalone financial statements, has disclosed the impact of pending litigations on its financial position as at 31 December 2021;
  - ii. the Company, as detailed in note 25 to the standalone financial statements, has made provision as at 31 December 2021, as required under the applicable law or Ind AS, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
  - iii. there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended 31 December 2021; and

iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these standalone financial statements. Hence, reporting under this clause is not applicable.

### Annexure I to the Independent Auditor's Report of even date to the members of Varun Beverages Limited ("the Company"), on the standalone financial statements for the year ended 31 December 2021

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, plant and equipment.
  - (b) The Property, plant and equipment, other than refrigerators (visi coolers) and containers lying with the third parties, have been physically verified by the management during the year and no material discrepancies were noticed on such verification. The Company has a regular

program of physical verification of refrigerators (visi coolers) under which such Property, plant and equipment are verified in a phased manner over a period of three years and no material discrepancies were noticed on such verification. According to the information and explanations given to us, the existence of containers lying with active third parties is considered on the basis of the confirmations obtained from such third parties. In our opinion, the frequency of verification of the Property, plant and equipment is reasonable having regard to the size of the Company and the nature of its assets.

(c) The title deeds of all the immovable properties (which are included under the head 'Property, plant and equipment') are held in the name of the Company except for the following property:

| Nature of     | Total    | Whether     | Gross block as on       | Net block on            | Remarks                      |
|---------------|----------|-------------|-------------------------|-------------------------|------------------------------|
| property      | Number   | leasehold / | <b>31 December 2021</b> | <b>31 December 2021</b> |                              |
|               | of Cases | freehold    |                         |                         |                              |
| Land          | 1        | Leasehold   | ₹1.5 million            | ₹1.45 million           | On implementation of project |
| (at Sonarpur, |          |             |                         |                         |                              |
| Kolkata)      |          |             |                         |                         |                              |

- (ii) In our opinion, the management has conducted physical verification of inventory at reasonable intervals during the year, except for goods-intransit. No material discrepancies were noticed on the aforesaid verification.
- (iii) The Company has not granted any loan, secured or unsecured to companies, firms, Limited Liability Partnerships (LLPs) or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the provisions of clauses 3(iii)(a), 3(iii) (b) and 3(iii)(c) of the Order are not applicable.
- (iv) In our opinion, the Company has complied with the provisions of Section 186 in respect of investments, loans and guarantees. Further, in our opinion, the Company has not entered into any transaction covered under Section 185 and Section 186 of the Act in respect of security.
- (v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to

- 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under sub-section (1) of Section 148 of the Act in respect of Company's products and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) (a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, goods and service tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, have generally been regularly

deposited to the appropriate authorities, though there has been a slight delay in a few cases. Further, no undisputed amounts payable in respect thereof were outstanding at the yearend for a period of more than six months from the date they became payable.

(b) The dues outstanding in respect of income-tax, goods and service tax, sales-tax, service-tax, duty of customs, duty of excise and value added tax on account of any dispute, are as follows:

- (viii) The Company has not defaulted in repayment of loans or borrowings to any bank during the year. The Company did not have any outstanding debentures during the year.
- (ix) The Company did not raise moneys by way of initial public offer or further public offer (Including debt instruments). In our opinion, the term loans were applied for the purpose for which the loans were obtained.
- (x) No fraud by the Company or on the company by its officers or employees has been noticed or reported during the period covered by our audit.
- (xi) Managerial remuneration has been paid and provided by the company in accordance with the requisite approvals mandated by the provisions of Section 197 of the Act read with Schedule V to the Act.
- (xii) In our opinion, the Company is not a Nidhi Company. Accordingly, provisions of clause 3(xii) of the Order are not applicable.
- (xiii) In our opinion all transactions with the related parties are in compliance with Sections 177 and 188 of Act, where applicable, and the requisite details have been disclosed in the financial statements etc., as required by the applicable Ind AS.

- (xiv)During the year, the company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures.
- (xv) In our opinion, the company has not entered into any non-cash transactions with the directors or persons connected with them covered under Section 192 of the Act.
- (xvi)The company is not required to be registered under Section 45-IA of the Reserve Bank of India Act. 1934.

# Independent Auditor's Report on the internal financial controls with reference to the standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

 In conjunction with our audit of the standalone financial statements of Varun Beverages Limited ('the Company') as at and for the year ended 31 December 2021, we have audited the internal financial controls with reference to financial statements of the Company as at that date.

## Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

# Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable

- assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.
- 4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
- 5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

### Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised

acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such controls

were operating effectively as at 31 December 2021, based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

### 1 Corporate information

Varun Beverages Limited (the "Company") is a public limited Company domiciled in India. Its registered office is at F-2/7, Okhla Industrial Area, Phase-I, New Delhi- 110 020. The Company's equity shares are listed on Bombay Stock Exchange Limited ("BSE") and National Stock Exchange of India ("NSE"). The Company was incorporated on 16 June 1995 under the provision of the Companies Act, 1956. The Company is primarily engaged in manufacturing, selling, bottling and distribution of beverages of PepsiCo's brand in geographically pre-defined territories as per franchisee agreement with PepsiCo India Holdings Private Limited.

### 2 Basis for preparation

These standalone financial statements ("financial statements") of the Company have been prepared in accordance with Indian Accounting Standard ("Ind AS") and comply with requirements of Ind AS notified under section 133 of the Companies Act, 2013 ("the Act"), read together with the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time, stipulation contained in Schedule III (Revised) and other pronouncements/ provisions of applicable laws. These financial statements are authorised for issue on 03 February 2022 in accordance with a resolution of the Board of Directors. The Board of Directors can permit the revision to the standalone financial statements after obtaining necessary approvals or at the instance of regulatory authorities as per provisions of the Act.

These standalone financial statements have been prepared using the significant accounting policies and measurement basis summarised below. These accounting policies have been used consistently throughout all periods presented in these standalone financial statements except as mentioned in note 3.2 below.

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value:

- i. Derivative financial instruments:
- ii. Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments);

- Defined benefit plans- plan assets measured at fair value; and
- iv. Share based payments.

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current if it satisfies any of the following conditions:

- Expected to be realised or intended to sold or consumed in normal operating cycle;
- ii. Held primarily for the purpose of trading;
- iii. Expected to be realised within twelve months after the reporting period; or
- iv. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current if it satisfies any of the following conditions:

- It is expected to be settled in normal operating cycle;
- ii. It is held primarily for the purpose of trading;
- iii. It is due to be settled within twelve months after the reporting period; or
- iv. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and its realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

The Company follows calendar year as its financial year as approved by the Company Law Board, New Delhi.

The financial statements of the Company are presented in Indian Rupees (₹), which is also its functional currency and all amounts disclosed in the financial statements and notes have been rounded off to the nearest million as per the requirement of Schedule III to the Act, unless otherwise stated.

### 3 Significant accounting policies

### 3.1 Fair value measurements

The Company measures financial instruments at fair value which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between independent market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

**Level 1 -** Quoted (unadjusted) market prices in active markets for identical assets or liabilities:

**Level 2 -** Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and

**Level 3 -** Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

For assets and liabilities that are recognised in the balance sheet at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

### 3.2 Revenue recognition

Revenue is recognized upon transfer of control of promised goods or services to customers at an amount that reflects the consideration to which the Company is expected to be entitled to in exchange for those goods or services. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price allocated to that performance obligation as per contractually agreed terms with the customers. The transaction price of goods sold and services rendered is net of various discounts and schemes offered by the Company as part of the contract. Revenue is recorded provided the recovery of consideration is probable and determinable. Revenue from sale of goods and services transferred to distributors/intermediaries are recognised at a point in time.

### a) Sale of goods:

Revenue from the sale of manufactured and traded goods products is recognised upon transfer of control of products to the customers which coincides with their delivery to customer and is measured at fair value of consideration received/receivable, net of discounts, amount collected on behalf of third parties and applicable taxes.

### b) Interest:

Interest income is recognised on time proportion basis taking into account the amount outstanding and rate applicable. For all debt instruments measured at amortised cost, interest income is recorded

using the effective interest rate ("EIR"). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial assets. Interest income is included in other income in the Statement of Profit and Loss.

### c) Dividends:

Dividend is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

### d) Commission:

Commission income is recognised rateably over the contract period as per the agreed contractual terms.

### e) Services rendered:

Revenue from service related activities including management and technical know-how service is recognised as and when services are rendered and on the basis of contractual terms with the parties.

### 3.3 Inventories

### Inventories are valued as follows:

a) Raw materials, components, stores and spares: At lower of cost and net realisable value. Cost of inventory comprises all costs of purchases, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition and is determined on a moving weighted average cost basis.

However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

b) Work-in-progress: At lower of cost and net realisable value. Cost for this purpose includes material, labour and appropriate allocation of overheads including depreciation. Cost is determined on a weighted average basis.

### c) Intermediate goods/ Finished goods:

- i. **Self manufactured -** At lower of cost and net realisable value. Cost for this purpose includes material, labour and appropriate allocation of overheads. Cost is determined on a weighted average basis.
- ii. Traded At lower of cost and net realisable value. Cost of inventory comprises all costs of purchases, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition and is determined on a weighted average cost basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. Provision for obsolescence is determined based on management's assessment and is charged to the Statement of Profit and Loss.

### **3.4 Property, plant and equipment**Measurement at recognition:

Property, plant and equipment and capital work-in progress are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

Cost comprises the purchase price, borrowing costs if capitalisation criteria are met and any directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. The cost of an item of property, plant and equipment shall be recognised as an asset if, and only if:

 it is probable that future economic benefits associated with the item will flow to the entity; and

b) the cost of the item can be measured reliably.

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increased the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the Statement of Profit and Loss for the period during which such expenses are incurred. Expenditure directly relating to construction activity is capitalised. Indirect expenditure incurred during construction period is capitalised as a part of indirect construction cost to the extent the expenditure is related to construction or is incidental thereto. Other indirect costs incurred during the construction periods which are not related to construction activity nor are incidental thereto are charged to the Statement of Profit and Loss.

Value for individual assets acquired for a consolidated price, the cost is apportioned to the various assets on their relative fair values basis as determined by competent valuers.

### Depreciation:

The management has estimated, supported by technical assessment, the useful lives of property, plant and equipment. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

| Description            | Useful lives<br>(upto) |
|------------------------|------------------------|
| Leasehold land         | Over lease period      |
| Buildings-factory      | 30 years               |
| Buildings-others       | 60 years               |
| Plant and equipment    | 20 years               |
| Furniture and fixtures | 10 years               |
| Delivery vehicles      | 10 years               |

| Description   | Useful lives<br>(upto) |
|---|------------------------|
| Vehicles (other than delivery vehicles)                           | 7 years                |
| Office equipment  | 4 years                |
| Computer equipment  | 4 years                |
| Containers  | 6 years                |
| Post-mix vending<br>machines and refrigerators<br>(Visi - Cooler) | 8 years                |
| Power generating assets   | 22 years               |

Freehold land is not depreciated.

Depreciation on property, plant and equipment is provided over the useful lives of assets as specified in Schedule II to the Act except where the management, based on independent technical assessment, depreciates certain assets are over estimated useful lives which are different from the useful lives prescribed in the Schedule II to the Act. The Company has used the remaining useful lives to compute depreciation on its property, plant and equipment, acquired under the business transfer agreement based on external technical evaluation.

Depreciation on property, plant and equipment which are added/disposed off during the year is provided on pro-rata basis with reference to the month of addition/deletion.

The Company has technically evaluated all the property, plant and equipment for determining the separate identifiable assets having different useful lives under the component approach. On technical evaluation of all separate identifiable components, the management is of the opinion that they do not have any different useful life from that of the principal asset.

In case of revaluation of leasehold land, the resulting amortisation of the total revalued amount is expensed off to the Statement of Profit and Loss.

### Derecognition:

An item of property, plant and equipment and any significant part initially recognised is de-recognised upon disposal or when no future economic benefits are expected from

its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds or amount of security deposit adjusted and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is de-recognised.

Breakages of containers are adjusted on 'first bought first broken' basis, since it is not feasible to specifically identify the broken containers in the fixed assets records.

### 3.5 Intangible assets

### Intangible assets are initially recognised at:

- a) In case the assets are acquired separately, then at cost.
- b) In case the assets are acquired in a business combination or under any asset purchase agreement, at fair value.

Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment loss. Intangible assets with finite useful life are assessed for impairment whenever there is an indication that the intangible assets may be impaired. Amortisation of intangible assets such as softwares and distribution network is computed on a straight-line basis, at the rates representing estimated useful life of 4 years and 8 years respectively.

The franchise rights and trademarks acquired as part of business combinations normally have a remaining legal life of not exceeding twenty years but is renewable every twenty years and is well established. The Company intends to renew these rights continuously and evidence supports its ability to do so. An analysis of product life cycle studies, market and competitive trends provides evidence that the product will generate net cash inflows for the Company for an indefinite period. Therefore, these rights have been carried at cost without amortisation, but is tested for impairment annually, at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life

continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

### 3.6 Borrowing costs

Borrowing costs include interest, amortisation of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized, if any. All other borrowing costs are expensed to the Statement of Profit and Loss in the period in which they occur.

### 3.7 Leases

### The Company as a lessee

The Company enters into an arrangement for lease of buildings and equipments. Such arrangements are generally for a fixed period but may have extension or termination options. In accordance with Ind AS 116 - Leases, at inception of the contract, the Company assesses whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to control the use an asset (the underlying asset) for a period of time in exchange for consideration'.

To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- a) The contract involves the use of an identified asset - this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- b) The Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and

right to direct 'how and for what purpose' the asset is used throughout the period of use. At inception or on reassessment of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for the leases of land and buildings in which it is a lessee, the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

### Measurement and recognition of leases as a lessee

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses (unless such right of use assets fulfills the requirements of Ind AS 40 - Investment Property and is accounted for as there under), if any and adjusted for any re-measurement of the lease liability. The right-of-use asset is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. Right-of-use asset are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the Statement of Profit and Loss.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined,

the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- a) Fixed payments, including in-substance fixed payments;
- b) Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date:
- c) Amounts expected to be payable under a residual value guarantee; and
- d) The exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest rate method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero, as the case may be.

The Company presents right-of-use assets that do not meet the definition of investment property and lease liabilities as a separate line item in the standalone financial statements of the Company.

The Company has elected not to apply the requirements of Ind AS 116 - Leases to short-

term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

### The Company as a lessor

When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

The Company recognizes lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'other income'.

The accounting policies applicable to the Company as a lessor in the comparative period were not different from Ind AS 116 - Leases. However, when the Company was an intermediate lessor the sub-leases were classified with reference to the underlying asset.

The Company recognizes lease payments received under operating leases as income on a straight-line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting

a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

### 3.8 Employee benefits

### Contribution to provident and other funds

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

### Gratuity

Gratuity is a defined benefit scheme. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method. The Company recognises termination benefit as a liability and an expense when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the termination benefits fall due more than twelve months after the balance sheet date, they are measured at present value of future cash flows using the discount rate determined by reference to market yields at the balance sheet date on government bonds.

Re-measurements, comprising actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through Other Comprehensive Income ("OCI") in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in Statement of Profit and Loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring cost

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset.

The Company recognises the following changes in the net defined benefit obligation as an expense in the Statement of Profit and Loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

### Compensated absences

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit which are computed based on the actuarial valuation using the projected unit credit method at the period end. Actuarial gains/losses are immediately taken to the Statement of Profit and Loss and are not deferred. The Company presents the leave as a current liability in the balance sheet to the extent it does not have an unconditional right to defer its settlement for twelve months after the reporting date. Where Company has the unconditional legal and

contractual right to defer the settlement for a period beyond twelve months, the balance is presented as a non-current liability.

Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

All other employee benefits payable/available within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, bonus, etc. are recognised in the Statement of Profit and Loss in the period in which the employee renders the related service.

### 3.9 Share-based payments

Employees (including senior executives) of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments which are classified as equity-settled transactions.

The cost of equity-settled transactions is determined by the fair value at the date of grant using an appropriate valuation model. That cost is recognised as an employee benefit expense with a corresponding increase in 'Share option outstanding account' in other equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions

are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions.

Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the terms of an equity-settled award are modified, the minimum expense recognised is the expense had the terms had not been modified, if the original terms of the award are met. An additional expense is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification. Where an award is cancelled by the Company or by the counterparty, any remaining element of the fair value of the award is expensed immediately through the Statement of Profit and Loss.

### 3.10 Foreign currency transactions and translations

Transactions in foreign currencies are initially recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

Exchange differences arising on the settlement of monetary items or on restatement of the Company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they arise.

Exchange differences pertaining to long-term foreign currency monetary items obtained or given on or before 31 December 2016: Exchange differences arising on conversion of long term foreign currency monetary items used for acquisition of depreciable fixed assets are added to the cost of fixed assets and is depreciated over the remaining life of the respective fixed asset and in other cases, is recorded under the head 'Foreign Currency Monetary Item Translation Difference Account' and is amortised over the period of maturity of underlying long term foreign currency monetary items, in accordance with the option available under Ind AS 101.

Exchange differences pertaining to long-term foreign currency monetary items obtained or given on or after 01 January 2017: Exchange differences arising on restatement of long term foreign currency monetary items obtained or given is recorded in the Statement of Profit and Loss.

### 3.11 Business combination and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 'Income Taxes' and Ind AS 19 'Employee Benefits' respectively.

When the Company acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

Any contingent consideration to be transferred by the Company is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 'Financial Instruments' ('Ind AS 109'), is measured at fair value with changes in fair value recognised in the Statement of Profit and Loss. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Company re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Company's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit.

Any impairment loss for goodwill is recognised in the Statement of Profit and Loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cashgenerating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cashgenerating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Company reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

### 3.12 Government grants

Grants from the Government are recognised when there is reasonable assurance that all underlying conditions will be complied with and that the grant will be received.

When loans or similar assistance are provided by Government or related institutions, with an interest rate below the current applicable market rate, the effect of this favorable interest is regarded as a government grant. The loan or assistance is initially recognised and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. That grant is recognised in the Statement of Profit and Loss under 'other operating revenue'. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

Government grants related to assets are presented in the balance sheet by deducting the grant from the carrying value of the asset and non-monetary grant is recognised at a nominal value.

Grants related to income are recognised as income on a systematic basis in the Statement of Profit and Loss over the periods necessary to match them with the related costs, which they are intended to compensate and are presented as 'other operating revenues'.

Total government grant recognised in the Statement of Profit and Loss under the head 'Other operating revenue' amounts to ₹ 1,430.81 million (31 December 2020: ₹ 655.79 million) under different industrial promotion tax exemption schemes.

### 3.13 Income taxes

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

### Current income tax

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 and rules thereunder. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted

or substantively enacted, at the reporting date. Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in OCI or in equity).

Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

### Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their book bases. Deferred tax liabilities are recognised for all temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists

to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Minimum Alternate Tax ("MAT") credit is recognised as an asset only when and to the extent there is convincing evidence that the relevant members of the Company will pay normal income tax during the specified period. Such asset is reviewed at each reporting period end and the adjusted based on circumstances then prevailing.

### Deferred tax on business combination

When a liability assumed is recognized at the acquisition date but the related costs are not deducted in determining taxable profits until a later period, a deductible temporary difference arises which results in a deferred tax asset. A deferred tax asset also arises when the fair value of an identifiable asset acquired is less than its tax base. In both cases, the resulting deferred tax asset affects goodwill.

### 3.14 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments. The business activities of the Company predominantly fall within a single operating segment, i.e., manufacturing and sale of beverages within India.

### 3.15 Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cashgenerating unit's ("CGU") fair value less costs of disposal and its value in use.

Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded Company's or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the Statement of Profit and Loss.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such

indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Statement of Profit and Loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

### 3.16 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

### Financial assets

### **Initial recognition and measurement**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss ("FVTPL"), transaction costs that are attributable to the acquisition of the financial asset.

For purposes of subsequent measurement, financial assets are classified as follows:

### a) Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost where the asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and contractual terms of the asset give rise to cash flows on specified dates that are solely payments of principal and interest.

After initial measurement, such financial assets are subsequently measured at amortised cost using the EIR method. Amortised cost is calculated by taking into account any discount or premium

on acquisition and fees or costs that are an integral part of the EIR. The interest income from these financial assets is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. This category generally applies to trade and other receivables.

### b) Debt instruments at fair value through other comprehensive income

Assets that are held for collection of contractual cashflows and for selling the financial assets, where the cash flow represent solely payments of principal and interest, are measured at fair value through other comprehensive income ("FVOCI"). The Company has not designated any debt instrument in this category.

### c) Debt instruments at fair value through profit or loss

Fair Value Through Profit or Loss ("FVTPL") is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss. The Company has not designated any debt instrument in this category.

### d) Equity instruments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity

instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 'Business Combinations' applies are Ind AS classified as at FVTPL. Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair values. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to profit or loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

### De-recognition

A financial asset is derecognised when the contractual rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive the contractual cash flows from the asset in a transaction in which substantially all the risks and rewards of ownership of the asset are transferred.

### Impairment of financial assets

The Company measures the Expected Credit Loss ("ECL") associated with its assets based on historical trends, industry practices and the general business environment in which it operates. The impairment methodology applied depends on whether there has been a significant increase in credit risk. ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/ expense in the Statement of Profit and Loss under the head 'other expenses'.

### **Financial liabilities**

### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

### Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

### a) Financial liabilities at FVTPL

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

This category includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses are recognised in the Statement of Profit and Loss, except for those attributable to changes in own credit risk, which are recognised in OCI. These gains/loss are not subsequently transferred to the Statement of Profit and Loss.

### b) Financial liabilities at amortised cost

After initial recognition, financial liabilities designated at amortised costs are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in Statement of Profit and Loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The amortisation is included as finance costs in the Statement of Profit and Loss.

### De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

### Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

### Derivative financial instruments

Derivatives are initially recognised at fair value on the date of executing a derivative contract and are subsequently remeasured to their fair value at the end of each reporting period. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recognised in the Statement of Profit and Loss immediately,

together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

### 3.17 Investment in subsidiaries and associates

An investor, regardless of the nature of its involvement with an entity (the investee), shall determine whether it is a parent by assessing whether it controls the investee. An investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Thus, an investor controls an investee if and only if the investor has all the following:

- a) power over the investee;
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect the amount of the investor's returns.

An associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but not control or joint control over those policies. The considerations made in determining significant influence are similar to those necessary to determine control over subsidiaries.

The Company has elected to recognise its investments in subsidiary and associate companies at cost in accordance with the option available in Ind AS 27, 'Separate Financial Statements'.

Investment carried at cost is tested for impairment as per Ind-AS 36.

### 3.18 Non-current assets classified as held for sale

Non-current assets classified as held for sale are presented separately in the Balance

Sheet and measured at the lower of their carrying amounts immediately prior to their classification as held for sale and their fair value less costs to sell. Once classified as held for sale, the assets are not subject to depreciation or amortisation. Any gain or loss arises on remeasurement or sale is included in the Statement of Profit and Loss.

If an entity has classified an asset (or disposal group) as held for sale, but the held-for-sale criteria as specified in standard are no longer met, the entity shall cease to classify the asset (or disposal group) as held for sale.

The Company measures a non-current asset that ceases to be classified as held for sale (or ceases to be included in a disposal group classified as held for sale) at the lower of:

- a) its carrying amount before the asset (or disposal group) was classified as held for sale, adjusted for any depreciation, amortisation or revaluations that would have been recognised had the asset (or disposal group) not been classified as held for sale; and
- b) its recoverable amount at the date of the subsequent decision not to sell.

### 3.19 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, cheques on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

### 3.20 Dividend distribution to equity holders

The Company recognises a liability to make cash or non-cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

### 3.21 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of Profit and Loss, net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

### 3.22 Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or nonoccurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements. Contingent assets are only disclosed when it is probable that the economic benefits will flow to the entity.

### 3.23 Earnings per share

Basic earnings/ (loss) per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted

average number of equity shares outstanding during the year is adjusted for events, other than conversion of potential equity shares, that have changed the number of equity shares outstanding without a corresponding change in resources.

In case of a bonus issue, the number of ordinary shares outstanding is increased by number of shares issued as bonus shares in current year and comparative period presented as if the event had occurred at the beginning of the earliest year presented.

For the purpose of calculating diluted earnings/ (loss) per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

# 3.24 Significant management judgement in applying accounting policies and estimation uncertainty

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities at the date of the financial statements. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In particular, the Company has identified the following areas where significant judgements, estimates and assumptions are required. Further information on each of these areas and how they impact the various accounting

policies are described below and also in the relevant notes to the financial statements. Changes in estimates are accounted for prospectively.

### i) Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

### a) Contingencies

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Company, including legal, contractor, land access and other claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgments and the use of estimates regarding the outcome of future events.

### b) Recognition of deferred tax assets

The extent to which deferred tax assets can be recognised is based on an assessment of the probability that future taxable income will be available against which the deductible temporary differences and tax loss carryforward can be utilised. In addition, significant judgement is required in assessing the impact of any legal or economic limits or uncertainties in various tax jurisdictions.

### ii) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market change or circumstances arising

beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

### a) Useful lives of tangible/intangible assets

The Company reviews its estimate of the useful lives of tangible/intangible assets at each reporting date, based on the expected utility of the assets.

### b) Defined benefit obligation

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. In view of the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

### c) Inventories

The Company estimates the net realisable values of inventories, taking into account the most reliable evidence available at each reporting date. The future realisation of these inventories may be affected by future technology or other market-driven changes that may reduce future selling prices.

### d) Business combinations

The Company uses valuation techniques when determining the fair values of certain assets and liabilities acquired in a business combination.

### e) Impairment of non-financial assets and goodwill

In assessing impairment, Company estimates the recoverable amount of each asset or cash-generating units based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate.

### f) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

| Carrying amount as at 31 December 2020 | 5,385.99  | 117.17  | 49.87             | 5,553.03 |

## Footnotes to Note 5A and 5B:

i. The Company has considered the related provisions of Ind AS 38 on 'Intangibles Assets' which permit certain intangible assets to have an indefinite life and accordingly the carrying value of these franchisee rights have been considered to have an indefinite life. These franchisee rights meet the prescribed criteria of renewal at nominal cost, renewal with no specific conditions attached, are sustainable and the same is supported by evidences of being renewed. Management is of the opinion that, based on an analysis of all of the relevant factors, there is no foreseeable limit to the period over which the franchise rights are expected to generate net cash inflows for the Company.

Goodwill and franchise rights with indefinite useful lives are tested for impairment annually, or more frequently if the events and circumstances indicate that the carrying value may be impaired. The useful life of an intangible asset with an indefinite useful life is reviewed annually to determine whether the useful life assessment continues to be supportable.

The assumptions used in this impairment assessment are most sensitive to following:

a) Weighted average cost of capital "WACC" of 12.04% (Previous year - 13.30%) for the explicit period and 12.45% (Previous year - 13.57%) for the terminal year.

- b) For arriving at the terminal value, approximate growth rate of 5% (Previous year 5%) is considered.
- c) Number of years for which cash flows were considered are 5 years.
- d) The approximate rate of growth in sales is estimated at 8%-15% (Previous year 10%-20%) in the discrete period.
  - No impairment loss was identified on the above assessment.
- ii. The amount of contractual commitments for the acquisitions of intangible assets are disclosed in Note 42.
- iii. Refer Note 51 for information on other intangible assets pledged as security by the Company.

## 6. Investments in subsidiaries

(₹ in million)

|   | As at<br>31 December 2021 | As at 31 December 2020 |

<sup>&</sup>lt;sup>®</sup>The National Company Law Tribunal, through its order dated 22 May 2020 has approved the scheme of amalgamation of the subsidiary of the Company, namely, Angelica Technologies Private Limited ("Angelica") with Lunarmech Technologies Private Limited ("Lunarmech") (subsidiary of Angelica Technologies Private Limited). The approved scheme of amalgamation has been filed with the Registrar of Companies on 07 July 2020. Consequently, 98 (Ninety eight) fully paid-up equity shares of Lunarmech of the face value of ₹ 10 each have been allotted for every 10 (Ten) fully paid-up equity shares of the face value of ₹ 10 each of Angelica. This has no impact on the standalone financial statements.

Refer note 53 for information required under Section 186 (4) of the Companies Act, 2013.

On 31 December 2021, the Company has subscribed the equity investment of Varun Beverages RDC SAS ("VBL RDC") amounting to ₹ 0.74 million (31 December 2020: Nil).

<sup>\*</sup>These investments were tested for impairment in accordance with Ind AS 36 "Impairment of Assets" concluding no impairment to the carrying values.

| Add: Changes during the year   | -             | -        |
| Balance as at 31 December 2020 | 288,688,720   | 2,886.89 |

## b) Terms/rights attached to shares

The Company has only one class of equity shares having a par value of ₹ 10 each. Each holder of equity share is entitled to one vote per share. In the event of liquidation of the Company, holders of equity shares will be entitled to receive any of the remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders. The dividend, if any, proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting.

## c) List of shareholders holding more than 5% of the equity share capital of the Company at the beginning and at the end of the year:

| Shareholders as at 31 December 2021 | No. of shares | %      |
|-------------------------------------|---------------|--------|
| R J Corp Limited                    | 119,900,275   | 27.69% |
| Mr. Ravi Kant Jaipuria*             | 80,822,707    | 18.66% |
| Mr. Varun Jaipuria                  | 69,447,983    | 16.04% |

\*on 19 February 2021, a memorandum of family settlement was executed between members of Ravi Kant Jaipuria & Sons (HUF) for partition of all its assets and liabilities. Pursuant to the terms thereof, all equity shares held by Ravi Kant Jaipuria & Sons (HUF) were transferred to Mr. Ravi Kant Jaipuria on 26 February 2021.

| Shareholders as at 31 December 2020 | No. of shares | %      |
|-------------------------------------|---------------|--------|
| R J Corp Limited                    | 79,933,517    | 27.69% |
| Ravi Kant Jaipuria & Sons (HUF)     | 53,881,805    | 18.66% |
| Mr. Varun Jaipuria                  | 50,663,250    | 17.55% |

\*MAT credit: (₹ in million)

|                  | Recognised in profit and loss |          |
|------------------|-------------------------------|----------|
| 31 December 2021 | -                             | (709.10) |
| 31 December 2020 | -                             | (291.72) |

MAT credit recognised in a year is adjustable against income taxes payable under normal tax provisions over a period of 15 years.

MAT credit recognised on balance sheet date is accumulation of credit recognised (net of utilisation) as per below table:

| Financial year | Credit available for<br>carry forward (net of<br>utilisation) | , ,           |
|----------------|---|---------------|
| 2019-20        | 168.12  | 31 March 2035 |
| Total          | 168.12  |               |

<sup>\*\*</sup>The amounts recognised in other comprehensive income relate to the re-measurement of net defined retirement benefit liability. Refer note 37 for the amount of the income tax relating to these components of other comprehensive income.

All significant deferred tax assets (including tax losses and other tax credits) have been recognised in the balance sheet.

On 20 September 2019, vide the Taxation Laws (Amendment) Ordinance 2019, the Government of India inserted Section 115BAA in the Income Tax Act, 1961 which provides domestic companies a non-reversible option to pay corporate tax at reduced rates effective 01 April 2019 subject to certain conditions.

During the year ended 31 December 2020, the Company made an assessment of the impact of the Ordinance and decided to continue with the existing tax structure until utilisation of accumulated minimum alternative tax (MAT) credit and expiry of other tax benefits/holidays available. The Company continues with that assessment/ conclusion for the year ended 31 December 2021. In accordance with the Ind AS 12 "Income Taxes", the Company is also required to remeasure its deferred tax balances, for amounts that are expected to reverse in future when the Company would migrate to the new tax regime. The Company during the previous year has remeasured its outstanding deferred tax balances and written back an amount of ₹ 731.85 million to the Statement of Profit and Loss.

## 23. Other non-current liabilities

## 28. Revenue from operations

(₹ in million)

|  | Year ended<br>31 December 2021 | Year ended<br>31 December 2020 |
|--|--------------------------------|--------------------------------|
| Sale of products                                       | 63,817.68                      | 47,601.02                      |
| Rendering of services to a subsidiary (Refer note 44B) | 383.46                         | 298.36                         |
| Other operating revenue                                | 1,756.28                       | 865.13                         |
|  | 65,957.42                      | 48,764.51                      |

## Disclosure on revenue pursuant to Ind AS 115- Revenue from contract with customers:

## A. Reconciliation of revenue recognised with the contracted price:

(₹ in million)

| Particulars                           | Year ended<br>31 December 2021 | Year ended<br>31 December 2020 |
|---------------------------------------|--------------------------------|--------------------------------|
| Gross revenue/Contracted price        | 66,411.10                      | 57,552.48                      |
| Less: Discounts and rebates*          | (2,209.96)                     | (9,653.10)                     |
| Revenue from contracts with customers | 64,201.14                      | 47,899.38                      |

<sup>\*</sup>Includes discounts and rebates given on invoice to customers.

## **B.** Contract balances:

The following table provides information about receivables and contract liabilities from contract with customers:

## **Receivables**

(₹ in million)

| Particulars                               | As at            | As at            |
|---|------------------|------------------|
|   | 31 December 2021 | 31 December 2020 |
| Trade receivables                         | 1,575.17         | 1,929.11         |
| Less: Allowances for expected credit loss | (254.44)         | (223.82)         |
| Net receivables                           | 1,320.73         | 1,705.29         |

## **Contract liabilities**

(₹ in million)

| Particulars            | As at            | As at            |
|------------------------|------------------|------------------|
|                        | 31 December 2021 | 31 December 2020 |
| Advance from customers | 613.86           | 460.14           |
|                        | 613.86           | 460.14           |

**C.** Contract asset is the right to consideration in exchange for goods or services transferred to the customer. Contract liabilities are on account of the advance payment received from customer for which performance obligation has not yet been completed.

The performance obligation is satisfied when control of the goods or services are transferred to the customers based on the contractual terms. The Company does not have any remaining performance obligation as contracts entered for sale of goods are for a shorter duration. Further, there are no contracts for sale of services wherein, performance obligation is unsatisfied to which transaction price has been allocated.

Payment terms with customers vary depending upon the contractual terms of each contract and generally falls in the range of 0 to 120 days from the completion of performance obligation.

There is no significant financing component in any transaction with the customers.

## D. Changes in the contract liabilities balances during the year are as follows:

(₹ in million)

| Particulars                          | As at            | As at            |

## 37. Other comprehensive income (OCI)

The disaggregation of changes to OCI by each type of reserves in equity is shown below:

(₹ in million)

|  | Year ended<br>31 December 2021 | Year ended<br>31 December 2020 |
|--|--------------------------------|--------------------------------|
| Retained earnings  |                                |                                |
| Re-measurement losses on defined benefit plans                               | 75.17                          | (117.51)                       |
| Tax impact on re-measurement losses on defined benefit plans (Refer note 22) | (18.92)                        | 29.58                          |
|  | 56.25                          | (87.93)                        |

## 38. Gratuity and other post-employment benefit plans Gratuity:

The Company has a defined benefit gratuity plan governed by the Payments of Gratuity Act, 1972. Every employee who has completed five years or more of services is eligible for gratuity on separation at 15 days salary (last drawn salary) for each completed year of service. The Company has formed a Gratuity Trust to which contribution is made and an insurance policy is taken by the trust, which is a year-on-year cash accumulation plan in which the interest rate is declared on yearly basis and is guaranteed for a period of one year. The insurance company, as part of the policy rules, makes payment of all gratuity outflow during the year (subject to sufficiency of funds under the policy). The policy, thus, mitigates the liquidity risk. However, being a cash accumulation plan, the duration of assets is shorter compared to the duration of liabilities. Thus, the Company is exposed to movement in interest rate (particularly, the significant fall in interest rates, which should result in a increase in liability without corresponding increase in the asset. The Company makes a provision of unfunded liability based on actuarial valuation in the Balance Sheet as part of employee cost.

## **Compensated absences:**

The Company recognises the compensated absences expenses in the Statement of Profit and Loss based on actuarial valuation.

The following tables summaries the components of net benefit expense recognised in the Statement of Profit and Loss and the funded status and amounts recognised in the balance sheet:

|  | Grat                | Gratuity            |                     | d Absences          |

| Withdrawal rate | +1%                 | +1%                 | (31.81)             | (37.00)             | (8.93)              | (9.15)              |
|                 | -1%                 | -1%                 | 35.38               | 41.52               | 9.42                | 9.67                |

The sensitivity analysis above has been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

| Risk associated:                   |  |
|------------------------------------|--|
| Investment risk                    | The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to Government Bonds Yield. If plan liability is funded and return on plan assets is below this rate, it will create a plan deficit.  |
| Interest risk (discount rate risk) | A decrease in the bond interest rate (discount rate) will increase the plan liability.   |
| Mortality risk                     | The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants. For this report we have used Indian Assured Lives Mortality (2012-2014) (31 December 2020: (2012-14)). A change in mortality rate will have a bearing on the plan's liability.                                    |
| Salary risk                        | The present value of the defined benefit plan liability is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability. |

## Effect of the defined benefit plan on the Company's future cash flows:

## **Funding arrangements and funding policy:**

The Company has purchased an insurance policy to provide for payment of gratuity to the employees. Every year, the insurance company carries out a funding valuation based on the latest employee data provided by the Company. Any deficit in the assets arising as a result of such valuation is funded by the Company.

## **Expected contribution during the next annual reporting period:**

The Company's best estimate of contribution during the next financial year approximates to ₹ 1847.68 million (31 December 2020: ₹ 1,698.56 million).

## The following are maturity profile of Defined Benefit Obligations in future years (before adjusting fair value of plan assets):

(₹ in million)

|   | Grat                | uity                | Compensate          | d Absences          |

|     | (vi) Others*   | 375.31                    | 339.61                 |

<sup>\*</sup>excludes pending matters where amount of liability is not ascertainable.

## 42. Capital commitments

(₹ in million)

|  | As at<br>31 December 2021 | As at 31 December 2020 |
|--|---------------------------|------------------------|
| Estimated amount of contracts remaining to be executed on capital account and not provided for (net of advances of ₹ 1,399.00 (31 December 2020: ₹ 713.09)). | 4,605.37                  | 1,224.52               |

**43.** Pursuant to transfer pricing legislations under the Income-tax Act, 1961, the Company is required to use specified methods for computing arm's length price in relation to specified international and domestic transactions with its associated enterprises. Further, the Company is required to maintain prescribed information and documents in relation to such transactions. The appropriate method to be adopted will depend on the nature of transactions/ class of transactions, class of associated persons, functions performed and other factors, which have been prescribed. The Company is in the process of updating its transfer pricing documentation for the current financial year. Based on the preliminary assessment, the management is of the view that the update would not have a material impact on the tax expense recorded in these financial statements. Accordingly, these financial statements do not include any adjustments for the transfer pricing implications, if any.

Non-executive chairman and Karta of Ravi Kant

# Summary of significant accounting policies and other explanatory information on the Standalone Financial Statements for the year ended 31 December 2021

## 44. Related party disclosures (as per Ind AS-24)

Following are the related parties and transactions entered with related parties for the relevant financial year:

## (i) List of related parties and relationships:-

## Key managerial personnel (KMPs)

Mr. Ravi Kant Jaipuria

Mr. Varun Jaipuria Whole Time Director
Mr. Raj Pal Gandhi Whole Time Director
Mr. Raj Pal Gandhi Whole Time Director

Mr. Rajinder Jeet Singh Bagga Whole Time Director

Mr. Kapil Agarwal

Mr. Vikas Bhatia (till 02 August 2021)

Chief Executive Officer and Whole Time Director
Chief Financial Officer

Mr. Pradeep Khushalchand Sardana Non-executive independent director

Mr. Naresh Kumar Trehan

Mrs. Sita Khosla

Dr. Ravi Gupta

## 45. Disclosure on lease transactions pursuant to Ind AS 116 - Leases

The Company's lease asset class primarily consists of leases for land, buildings and plant and equipment. With the exception of short-term leases, leases of low-value and cancellable long-term leases underlying assets, each lease is reflected on the balance sheet as a right of use asset and a lease liability.

Lease liabilities are measured at the present value of the remaining lease payments, discounted using the weighted average borrowing rate 5.44-8.22% (31 December 2020: 8.22%).

Each lease generally imposes a restriction that, unless there is a contractual right for the Company to sublet the asset to another party, the right of use asset can only be used by the Company. Leases are either non-cancellable or may only be cancelled by incurring a substantive termination fee. Some leases contain an option to extend the lease for a further term. The Company is prohibited from selling or pledging the underlying leased assets as security against the Company's other debts and liabilities.

i. Lease liabilities are presented in the balance sheet is as follows-

(₹ in million)

| Particulars   | As at<br>31 December 2021 | As at 31 December 2020 |
|---|---------------------------|------------------------|
| Current maturities of lease liabilities (Refer note 25) | 74.94                     | 44.29                  |
| Non-current lease liabilities (Refer note 20C)          | 87.52                     | 79.50                  |
| Total   | 162.46                    | 123.79                 |

ii. The recognised right of use assets relate to land, buildings and plant and equipments as at 31 December 2021 and 31 December 2020:

(₹ in million)

| Particulars  | As at<br>31 December 2021 | As at 31 December 2020 |
|--|---------------------------|------------------------|
| Right of use assets - land, buildings and plant and equipments |                           |                        |
| Balance at the beginning of the year                           | 5,141.70                  | -                      |
| Additions for the year   | 215.46                    | 6.57                   |
| Additions on account of transition to Ind AS 116               | -                         | 5,295.56               |
| Government grant related to asset received                     | -                         | (6.37)                 |
| Disposals for the year   | -                         | (1.55)                 |
| Depreciation charge for the year                               | (152.28)                  | (152.51)               |
| Balance at the end of the year                                 | 5,204.88                  | 5,141.70               |

iii. The following are amounts recognised in Standalone Statement of Profit and Loss:

| Particulars                                |        | For the year ended 31 December 2020 |
|--|--------|-------------------------------------|
| Depreciation charge on right of use assets | 152.28 | 152.51                              |
| Interest expense on lease liabilities      | 12.54  | 13.57                               |
| Total                                      | 164.82 | 166.08                              |

iv. Lease payments not recognised as a liability

The Company has elected not to recognise a lease liability for short-term leases (leases with an expected term of 12 months or less), cancellable long-term leases and for leases of low value assets. Payments made under such leases are expensed on a straight-line basis. The expense relating to payments not included in the measurement of the lease liability for short term leases is ₹ 533.90 million (31 December 2020 ₹ 554.39 millions).

- v. Refer Standalone Cash Flow Statement for total cash outflow for leases.
- vi. Maturity of lease liabilities

Future minimum lease payments were as follows for 31 December 2021:

(₹ in million)

|  | Lease payments | Interest expense | Net Present value |
|--|----------------|------------------|-------------------|
| Not later than 1 year                    | 83.58          | 8.65             | 74.93             |
| Later than 1 year not later than 5 years | 48.30          | 20.08            | 28.22             |
| Later than 5 years                       | 459.81         | 400.50           | 59.31             |
| Total                                    | 591.69         | 429.23           | 162.46            |

Future minimum lease payments were as follows for 31 December 2020:

(₹ in million)

|  | Lease payments | Interest expense | Net Present value |
|--|----------------|------------------|-------------------|
| Not later than 1 year                    | 52.39          | 8.10             | 44.29             |
| Later than 1 year not later than 5 years | 49.71          | 17.91            | 31.80             |
| Later than 5 years                       | 280.62         | 232.92           | 47.70             |
| Total                                    | 382.72         | 258.93           | 123.79            |

**46.** The business activities of the Company predominantly fall within a single reportable business segment, i.e., manufacturing and sale of beverages within India. There are no separately reportable business or geographical segments that meet the criteria prescribed in Ind AS 108 on Operating Segments. The aforesaid is in line with review of operating results by the chief operating decision maker. The sale of products of the Company is seasonal.

## 47. Dues to Micro and Small Enterprises

The dues to Micro and Small Enterprises as required under the Micro, Small and Medium Enterprises Development ("MSMED") Act, 2006 to the extent information available with the Company is given below:

| Particulars  | 31 December 2021 | 31 December 2020 |
|--|------------------|------------------|
| The principal amount and the interest due thereon remaining unpaid to any supplier as at the end of each accounting year   |                  |                  |
| Principal amount due to micro and small enterprises  | 321.56           | 90.61            |
| Interest due on above  | 1.32             | 0.28             |
| The amount of interest paid by the buyer in terms of section 16 of the MSMED Act, 2006 along with the amounts of the payment made to the supplier beyond the appointed day during each accounting year*                  | 299.00           | 670.87           |
| The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under the MSMED Act 2006. | 3.83             | 2.62             |

(₹ in million)

| Particulars   | 31 December 2021 | 31 December 2020 |
|---|------------------|------------------|
| The amount of interest accrued and remaining unpaid at the end of each accounting year  | 9.73             | 4.58             |
| The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under section 23 of the MSMED Act 2006 | 9.73             | 4.58             |

<sup>\*</sup>includes principal amounting to ₹ 299.00 million (31 December 2020: ₹ 670.87 million).

## 48. Details of Corporate Social Responsibility (CSR) expenditure

In accordance with the provisions of section 135 of the Companies Act, 2013, the Board of Directors of the Company had constituted CSR Committee. The details for CSR activities is as follows.

(₹ in million)

| Par | ticulars   | For the year ended 31 December 2021 | For the year ended 31 December 2020 |
|-----|--|-------------------------------------|-------------------------------------|
| (a) | Gross amount required to be spent by the Company during the year | 67.54                               | 75.04                               |
| (b) | Amount spent during the year on the following                    |                                     |                                     |
|     | Construction / Acquisition of any asset                          | -                                   | -                                   |
|     | 2. On purpose other than 1 above                                 | 67.54                               | 75.04                               |

Refer note 44B for amounts paid to Champa Devi Jaipuria Charitable Trust towards contribution for "Shiksha Kendra" for the education of underprivileged, to Mala Jaipuria Foundation for the vocational training to underprivileged and destitute to enhance their skills and talents to secure livelihood, to RJ Foundation being CSR implementing agency registered with Office of the Registrar of Companies, New Delhi having objects to carry on CSR activities as per requirements laid down under Section 135 of the Companies Act, 2013 and to Medanta Institute of Education and Research for promoting health care.

2. The Company does not carry any provisions for Corporate social responsibility expenses for current year and previous year.

## 49. Share-based payments

## **Employee Stock Option Plan 2016 ("ESOS 2016")**

The ESOS 2016 ("the Scheme") was approved by the Board of Directors and the shareholders on 27 April 2016. The Scheme entitles key managerial personnel and employees of the Company and its subsidiaries to purchase shares in the Company at the stipulated exercise price, subject to compliance with vesting conditions. Stock options can be settled by issue of equity shares. No options under this Scheme have been granted in the current or previous years.

## 50. Capital management

For the purpose of the Company's capital management, capital includes issued equity share capital, securities premium and all other equity reserves attributable to the equity shareholders of the Company.

The Company's capital management objectives are:

- to ensure the Company's ability to continue as a going concern
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, non-current and current borrowings, deferred payment liabilities, current maturity of long-term debts and lease liabilities, less cash and cash equivalents, excluding discontinued operations, if any.

The amounts managed as capital by the Company for the reporting periods are summarised as follows:

(₹ in million)

| Particulars   | As at            | 1 10 010         |
|---|------------------|------------------|
|   | 31 December 2021 | 31 December 2020 |
| Non-current borrowings (Refer note 20A)                 | 17,124.41        | 19,543.51        |
| Current borrowings (Refer note 20B)                     | 5,605.24         | 6,355.40         |
| Lease liabilities (Refer note 20C)                      | 87.52            | 79.50            |
| Current maturities of lease liabilities (Refer note 25) | 74.94            | 44.29            |
| Current maturities of long-term debts (Refer note 20D)  | 8,963.68         | 4,572.22         |
|   | 31,855.79        | 30,594.92        |
| Less: Cash and cash equivalents (Refer note 13)         | (241.47)         | (364.04)         |
| Net debt (A)  | 31,614.32        | 30,230.88        |
| Equity share capital (Refer note 18)                    | 4,330.33         | 2,886.89         |
| Other equity (Refer note 19)                            | 39,655.88        | 37,230.78        |
| Total capital (B)                                       | 43,986.21        | 40,117.67        |
| Capital and net debt (C = A+B)                          | 75,600.53        | 70,348.55        |
| Gearing ratio (A/C)                                     | 41.82%           | 42.97%           |

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2021 and 31 December 2020.

There's no breaches in the financial covenants of the borrowing that would permit the banks to immediately call loans and borrowings in the reporting periods.

## 51. Assets pledged as security

The carrying amount of assets pledged as security are:

| Particulars   | As at<br>31 December 2021 | As at 31 December 2020 |
|---|---------------------------|------------------------|
| Inventories and trade receivable (Refer note 11 and 12) | 11,983.44                 | 8,495.90               |
| Other bank deposits (Refer note 14)                     | 0.88                      | 0.72                   |
| Current loans (Refer note 15)                           | 284.15                    | 99.94                  |
| Other current financial assets (Refer note 16)          | 2,733.64                  | 2,130.20               |
| Other current assets (Refer note 17)                    | 2,438.64                  | 1,485.15               |
| Other intangible assets (Refer note 5B)                 | 5,542.68                  | 5,553.03               |
| Property, plant and equipment (Refer note 4A)           | 44,553.99                 | 47,061.67              |
| Capital work-in-progress (Refer note 4B)                | 4,779.54                  | 390.05                 |

## 52. Recent accounting pronouncements (Ind AS issued but not yet effective)

On 24 March 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013. The amendments revised Division I, II and III of Schedule III and are applicable to the Company from accounting periods beginning on or after 01 January 2022.

The amendments are extensive and the Company is evaluating the requirements of the amendments to give effect to them as required by law. Since these amendments relates to disclosures in financials statements, it will not impact the financial position and results of the Company.

## 53. Information under Section 186 (4) of the Companies Act, 2013 and Regulation 34 of the SEBI (Listing Obligations and Disclosure Requirements), 2015

(₹ in million)

## 54. Financial instruments risk

## Financials risk management objectives and policies

The Company is exposed to various risks in relation to financial instruments. The main types of financial risks are market risk, credit risk and liquidity risk.

The management of the Company monitors and manages the financial risks relating to the operations of the Company on a continuous basis. The Company's risk management is coordinated at its head office, in close cooperation with the management, and focuses on actively securing the Company's short to medium-term cash flows and simultaneously minimising the exposure to volatile financial markets. Long-term financial investments are managed to generate lasting returns.

The Company does not engage in the trading of financial assets for speculative purposes. The most significant financial risks to which the Company is exposed are described below.

## 54.1 Market risk analysis

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company is exposed to market risk through its use of financial instruments and specifically to foreign currency risk, interest rate risk and commodity price risk which result from its operating, investing and financing activities. Contracts to hedge exposures in foreign currencies, interest rates etc. are entered into wherever considered necessary by the management.

## Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The functional currency of the Company is Indian Rupees ('INR' or '₹'). Most of the Company's transactions are carried out in Indian Rupees. Exposures to currency exchange rates mainly arise from the Company's overseas sales and purchases, lending to overseas subsidiary companies, external commercial borrowings etc. which are primarily denominated in US Dollars ('USD'), Lankan Rupee (LKR), Pound Sterling ('GBP'), Singapore Dollars ('SGD') and Euro.

The Company has limited exposure to foreign currency risk and thereby it mainly relies on natural hedge. To further mitigate the Company's exposure to foreign currency risk, non-INR cash flows are continuously monitored and derivative contracts are entered into wherever considered necessary.

The carrying amounts of the Company's foreign currency denominated monetary items are restated at the end of each reporting period. Foreign currency denominated financial assets and liabilities which expose the Company to currency risk are as follows:

|   | USD   | LKR | GBP | SGD | Euro |
|---|-------|-----|-----|-----|------|

<sup>\*</sup>Rounded off to Nil.

The following table illustrates the foreign currency sensitivity of profit and equity with regards to the Company's financial assets and financial liabilities considering 'all other things being equal' and ignoring the impact of taxation. It assumes a +/- 1% change of the INR/USD, INR/LKR, INR/GBP, INR/SGD and INR/Euro exchange rate for the year ended at 31 December 2021 (31 December 2020: 1%). These are the sensitivity rates used when reporting foreign currency exposures internally to the key management personnel and represents management's assessment of the reasonably possible changes in the foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items at end of each period reported upon. A positive number indicates an increase in profit or equity and vice-versa.

If the INR had strengthened against the USD by 1% (31 December 2020: 1%), LKR by 1% (31 December 2020: 1%), GBP by 1% (31 December 2020: 1%), SGD by 1% (31 December 2020: 1%) and Euro by 1% (31 December 2020: 1%), the following would have been the impact:

(₹ in million)

<sup>\*</sup>Rounded off to Nil.

Exposures to foreign exchange rates vary during the year depending on the volume of the overseas transactions. Nonetheless, the analysis above is considered to be representative of the Company's exposure to currency risk.

## Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's policy is to minimise interest rate cash flow risk exposures on long-term financing. The Company is exposed to changes in market interest rates as some of the bank and other borrowings are at variable interest rates and also loans have been advanced to subsidiary companies at variable interest rates. All the Company's term deposits are at fixed interest rates.

The following table illustrates the sensitivity of profit and equity to a reasonably possible change in interest rates of +/- 1% (31 December 2020: +/- 1%). These changes are considered to be reasonably possible based on management's assessment. The calculations are based on a change in the average market interest rate for each period, and the financial instruments held at each reporting date that are sensitive to changes in interest rates. All other variables are held constant.

|                  | Profit/(lo | oss) for the year | Equity   |        |
|------------------|------------|-------------------|----------|--------|
|                  | +1%        | -1%               | +1%      | -1%    |
| 31 December 2021 | (212.90)   | 212.90            | (212.90) | 212.90 |
| 31 December 2020 | (189.05)   | 189.05            | (189.05) | 189.05 |

## **Commodity price risk**

The Company is affected by the price volatility of certain commodities. Its operating activities require the ongoing purchase of pet chips and sugar and therefore require a continuous supply. In view of volatility of pet chips and sugar prices, the Company also executes into various advance purchase contracts.

## **Commodity price sensitivity**

The following tables shows the effect of price change in sugar and pet chips

(₹ in million)

| Particulars      | Change in yearly average price |     | Effect on profit before tax |       | Effect on equity |       |

## Other price sensitivity

The Company is not exposed to any listed equity or listed debt price risk as it does not hold any investments in listed entities.

## 54.2 Credit risk analysis

Credit risk is the risk that a counterparty fails to discharge an obligation to the Company. The Company is operating through a network of distributors and other distribution partners based at different locations. The Company is exposed to this risk for various financial instruments, for example loans granted, receivables from customers, deposits placed etc. The Company's maximum exposure to credit risk is limited to the carrying amount of financial assets recognised at end of each reporting period, as summarised below:

(₹ in million)

|  | As at<br>31 December 2021 | As at 31 December 2020 |
|--|---------------------------|------------------------|
| Classes of financial assets-carrying amounts:    |                           | 0.2000.                |
| Investments (current)                            | 0.01                      | 0.01                   |
| Loans (current and non-current)                  | 3,256.29                  | 2,800.44               |
| Trade receivables                                | 1,320.73                  | 1,705.29               |
| Cash and cash equivalents                        | 241.47                    | 364.04                 |
| Bank balances other than mention above           | 0.88                      | 0.72                   |
| Other financial assets (current and non-current) | 2,741.68                  | 2,131.41               |
|  | 7,561.06                  | 7,001.91               |

The Company continuously monitors receivables and defaults of customers and other counterparties, and incorporates this information into its credit risk controls. Appropriate security deposits are kept against the supplies to customers and balances are reconciled at regular intervals. The Company's policy is to deal only with creditworthy counterparties.

In respect of trade and other receivables, the Company is not exposed to any significant credit risk exposure to any single counterparty. Trade receivables consist of a large number of customers of various scales and in different geographical areas. Based on historical information about customer default rates, management considers the credit quality of trade receivables. In case the receivables are not recovered even after regular follow up, measures are taken to stop further supplies to the concerned customer. The expected credit loss is based on the five years historically observed default rates over the expected life of the trade receivables and is adjusted for forward looking estimates.

## Movement in expected credit loss allowance on trade receivables

(₹ in million)

|  |                  | (( 111 1111111011) |
|--|------------------|--------------------|
|  | As at            | As at              |
|  | 31 December 2021 | 31 December 2020   |
| Balance at the beginning of the year                     | 223.82           | 216.26             |
| Loss allowance measured at lifetime expected credit loss | 30.62            | 7.56               |
| Balance at the end of the year                           | 254.44           | 223.82             |

The credit risk for cash and cash equivalents, bank deposits including interest accrued thereon and Government grant receivables is considered negligible, since the counterparties are reputable banks with high quality external credit ratings and State Government bodies. The credit risk for loans advanced to subsidiary companies including interest accrued thereon is also considered negligible since operations of these entities are regularly monitored by the Company and these companies have shown considerable growth.

In respect of financial guarantees provided by the Company, the maximum exposure which the Company is exposed to is the maximum amount which the Company would have to pay if the guarantee is called upon. Based on the expectation at the end of each reporting period, the Company considers that it is more likely than not that such an amount will not be payable under the guarantees provided.

## 54.3 Liquidity risk analysis

Liquidity risk is that the Company might be unable to meet its obligations. The Company manages its liquidity needs by monitoring scheduled debt servicing payments for long-term financial liabilities and considering the maturity profiles of financial assets and other financial liabilities as well as forecast of operational cash inflows and outflows. Liquidity needs are monitored in various time bands, on a day-to-day basis, a week-to-week basis and a month-to-month basis. Long-term liquidity needs for a 180-day and a 360-day lookout period are identified monthly. Net cash requirements are compared to available borrowing facilities in order to determine headroom or any shortfalls.

Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities and the Company's ability to avail further credit facilities subject to creation of requisite charge on its assets. The Company assessed the concentration of risk with respect to refinancing its debt and concluded it to be low.

As at 31 December 2021, the Company's non-derivative financial liabilities have contractual maturities as summarised below:

| 31 December 2021                                      | 1 to 12 months | 1 to 5 years | Later than 5 years |
|---|----------------|--------------|--------------------|
| Borrowings (current and non-current)                  | 13,657.29      | 16,818.05    | 528.57             |
| Trade payables  | 4,634.64       | -            | -                  |
| Other financial liabilities (current and non-current) | 3,372.72       | 48.30        | 459.81             |
| Total   | 21,664.65      | 16,866.35    | 988.38             |

This compares to the maturity of the Company's non-derivative financial liabilities in the previous reporting periods as follows:

(₹ in million)

| 31 December 2020                      | 1 to 12 months | 1 to 5 years | Later than 5 years |
|---------------------------------------|----------------|--------------|--------------------|
| Borrowings (current and non-current)  | 10,013.54      | 18,941.16    | -                  |
| Trade payables                        | 2,720.68       | -            | -                  |
| Other financial liabilities (current) | 2,871.60       | 49.71        | 280.62             |
| Total                                 | 15,605.82      | 18,990.87    | 280.62             |

As at 31 December 2021, the contractual cash flows (excluding interest thereon) of the Company's derivative financial instruments are as follows:

(₹ in million)

| 31 December 2021                  | 1 to 12 months | 1 to 5 years |
|-----------------------------------|----------------|--------------|
| Cross currency interest rate swap | 911.78         | -            |

This compares to the contractual cash flows (excluding interest thereon) of the Company's derivative financial instruments in the previous year as follows:

(₹ in million)

| 31 December 2020                  | 1 to 12 months | 1 to 5 years |
|-----------------------------------|----------------|--------------|
| Cross currency interest rate swap | 914.08         | 914.08       |

## 54.4 Risk due to outbreak of COVID-19 pandemic

The outbreak of Coronavirus disease (COVID-19) pandemic in India has caused significant disturbances and slowdown of economic activity. The nationwide lockdowns ordered by the Governments in the first half of the year has resulted in operating constraints leading to significant reduction in economic activities and also the business operation of the Company in terms of sales. However, the recent phased nationwide unlocking ordered by the Governments has resulted in signs of improvement in economic activities consequent to which our business operations have also shown uptick during the second half of the year. The management has considered the possible effects that may result from the pandemic on the carrying amount of receivables including contract assets, goodwill, intangibles, inventories and investments. Based on the current indicators of future economic conditions, the management expects to recover the carrying amount of these assets. However, the management will continue to closely monitor any material changes to future economic conditions depending upon how the situation evolve henceforth.

## 55. Fair value measurements

## Financial instruments by categories

The carrying values and fair values of financial instruments by categories are as follows:

| Particulars                                  | Notes | Carrying value      |                     | Fair value/amortised cost |          |
|--|-------|---------------------|---------------------|---------------------------|----------|
|  |       | 31 December<br>2021 | 31 December<br>2020 | 31 December<br>2021       |          |
| Financial assets                             |       |                     |                     |                           |          |
| Fair value through profit and loss ('FVTPL') |       |                     |                     |                           |          |

## Valuation technique to determine fair value

Cash and cash equivalents, other bank balances, trade receivables, loans, other current financial assets, trade payables, current borrowings and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of the financial assets and liabilities is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

- The fair values of the long term borrowings, loans and other deferred payments are determined by using discounted cash flow method using the appropriate discount rate. The discount rate is determined using other similar instruments incorporating the risk associated.
- The Company executed derivative financial instruments such as cross currency interest rate swap being valued using valuation techniques, which employs use of market observable inputs. The Company uses mark to market valuation provided by bank for its valuation.

## Fair value hierarchy

The financial assets measured at fair value are grouped into the fair value hierarchy as on 31 December 2021 and 31 December 2020 as follows: (also refer note 3.1)

(₹ in million)

| 31 December 2021               | Date of T<br>valuation |      | Fair value measurement using                    |                   |      |

## 56. Details of hedged and unhedged exposure in foreign currency denominated monetary items

## A. Exposure in foreign currency - hedged

The Company executed derivative financial instruments such as cross currency interest rate swap contracts to hedge against its foreign currency exposures relating to the underlying transactions and firm commitments. The Company does not enter into any derivative instruments for trading or speculative purposes.

Outstanding foreign currency exposure hedged (excluding interest thereon):

(in million)

| Particulars | Period           | Foreign currency |       | Hedged | currency |
|-------------|------------------|------------------|-------|--------|----------|
| ECB Loan    | 31 December 2021 | SGD              | 16.56 | USD    | 12.50    |
|             | 31 December 2020 | SGD              | 33.13 | USD    | 25.00    |

## B. Exposure in foreign currency - unhedged

Outstanding foreign currency exposure not being hedged against adverse currency fluctuation:

| Particulars                     | Period           | Foreign cu | urrency | Local cui | rrency   |
|---------------------------------|------------------|------------|---------|-----------|----------|
| Trade receivable                | 31 December 2021 | USD        | 1.16    | INR       | 86.02    |
|                                 | 31 December 2020 | USD        | 1.21    | INR       | 88.14    |
|                                 |                  |            |         |           |          |
| Loan given                      | 31 December 2021 | USD        | 37.47   | INR       | 2,784.26 |
|                                 | 31 December 2020 | USD        | 31.62   | INR       | 2,310.09 |
